Resolving Public

Conflict E. Franklin Dukes,1996 Drawing on conflict resolution experience and recent democratic theory Dukes traces the philosophical roots and development of the public conflict resolution field He examines in detail how it has worked in practice in the US and other western democracies

Integrated Coastal Management Law Cormac Cullinan,2006-01-01

Integrated coastal management ICM is widely accepted throughout the world as the best approach to dealing with coastal issues The 1990s saw a proliferation of legislative reform processes worldwide This aimed at supporting the implementation of ICM Despite many international environmental treaties declarations and other promises of action the quality of coastal environments continues to deteriorate while the demand for coastal resources has increased in most of the world This publication in its practical guidance will be especially valuable to anyone involved in the development drafting or implementation of a legal or institutional framework to promote ICM It is enhanced by illustrative examples from a range of countries that are at various stages of developing and implementing legislation to promote ICM

Transport Geopolitics

Luc Ampleman,2021-09-27 This book provides readers with fresh new theoretical tools to better understand how sociopolitical actors from governmental institutions to ecological NGOs from local residents to multinational companies clash about transport initiatives It questions both the dominant understanding of what is geopolitics and conventional conceptions in transport geography used by transport planners Drawing on a structuralist approach and addressing the capital notion of political control of mobility it demonstrates how transport geopolitics by being more inclusive of all modes of transport and all scales of analysis may help prepare transport diplomacy in a time of critical global and local turbulences It offers a valuable resource for research and teaching in the fields of transport studies land use planning conflict studies human geography and politics presenting insightful theoretical material and concrete transport conflict examples to support teaching about territorial conflicts political governance and transport political geography

Social Discourse and

Environmental Policy Helen Addams,John L. R. Proops,2000-11-27 As governments and the wider public become increasingly concerned about environmental problems the necessity for competent environmental policies is growing The

contributors to this highly original book attempt to demonstrate how the use of Q methodology can result in the development of more effective socially sensitive environmental policy options The book highlights the history of Q methodology a technique for systematically studying the subjectivity of individuals and provides a brief yet comprehensive account of its theory and a detailed guide to the various stages of a Q study The methodology is then applied to explore the discourses concerning the relationship between society and a diverse range of environmental issues including environmental protest civil aviation policy forest policy and land use options

Land in the American West William G. Robbins, James C. Foster, 2011-12-01 Throughout the history of the United States the concepts of land and the West have fired the American imagination and fueled controversy The essays in *Land in the American West* deal with complex troublesome and interrelated questions regarding land Who owns it Who has access to it What happens when private rights infringe upon the public good or when one ethnic group is pitted against another or when there is a conflict between economic and environmental values Many of these questions have deep historical roots They all have special significance in the modern American West where natural resources are still abundant and large areas of land are federally owned

Change in Pacific Northwest Coastal Ecosystems Gregory R. McMurray, Robert J. Bailey, 1998 *Protected Areas and Indigeneous Communities* Azra Musavi, 2015-09-08 This book deals with protected area people interface in Bori Wildlife Sanctuary and Melghat Tiger Reserve located in Satpura range of Central Indian Highlands These forests are mostly inhabited by Gond Korku and Thatia tribes a small population of agro pastoral community and other backward classes which have moved into these forests from adjoining areas in search of pastures for their large herds of livestock Bori in northern Satpura has moist deciduous forest while Melghat in southern Satpura hills has dry deciduous forest Both protected areas are renowned for tigers as well as for a rich faunal and floral diversity These forests are under increasing anthropogenic pressure due to people living in and around the two protected areas The book looks at three aspects which are a challenge for protected area management One it explores the web of both tribal and non tribal life as the intervention of market economy and increasing population have led to change in the basis of the local subsistence economy Secondly it tries to assess the extent of impact of biotic dependence on the forests of both protected areas Thirdly and most importantly it examines the park people conflicts and their implications for the management of both protected areas

Contested Lands Robert J. Mason, 1992 The nation's first and only national reserve the Pinelands of New Jersey is located in the middle of the densely populated urban corridor between New York City and Philadelphia Possessing vast quantities of pure groundwater distinct flora and fauna and a fascinating history of human occupancy and resource exploitation the Pine Barrens is managed by a 15 member commission appointed at the federal state and local level In his discussion of the implementation of the Pinelands Commission's regional plan Robert Mason explores the changing politics of place and the associated conflicts of interest that have emerged The Pinelands program is widely viewed as a land use and regional planning experiment of national significance While the commission is sustained by

legislative and gubernatorial support and an absence of well organized public opposition it still has had to accommodate community and rural entrepreneurial interests In order to convey some sense of the social political and economic texture of the Pinelands Mason examines three communities Woodland Township Hamilton Township and Manchester Township The Pinelands experience offers a unique model for the management of valued places across the nation and provides valuable lessons about the human problems that confront ecologically driven planning schemes with human settlement patterns political subdivisions and economic systems Author note Robert J Mason is Assistant Professor of Geography and Urban Studies at Temple University **The Coachella Valley Preserve** Yvonne Pacheco Tevis,1987-01-01 This true story is set in the Coachella Valley the desert region best known for Palm Springs California a glamorous and sunny resort for the rich and famous filled with emerald green golf courses lakes condominiums and sunset capped blue mountains Yvonne Tevis here delineates the ongoing intense battle between developers and conservationists over how this precious land should be used Basing her tale around the fight to save the habitat of an endangered species the fringe toed lizard Tevis includes interviews maps illustrations notes and a comprehensive bibliography with valid arguments presented on both sides of the issue A must read for all those concerned with protecting our environment *Proceedings of the National Wetland Symposium* ,1988

After the Grizzly Peter S. Alagona,2020-02-25 This book traces the history of threats to species and habitat in California from the time of the Gold Rush to the present The author shows how over the course of more than a century scientists and conservationists came to view the fates of endangered species as dependent on the ecological conditions and human activities in the places where those species lived The story begins with the tale of the state s extinct mascot the California grizzly and the conservation movements and laws that followed its disappearance The second half of the book focuses on four high profile endangered species the California condor the desert tortoise the San Joaquin kit fox and the Delta smelt The author offers an account of how Americans developed a civil system in which imperiled species serve as proxies for broader conflicts about the politics of place The book concludes that the challenge for conservationists in the twenty first century will be to expand habitat conservation beyond protected wildlands to build more diverse and sustainable landscapes **Ecology, Uncertainty and Policy** John Handmer,2017-09-29 A broad and comprehensive exploration of the role of the ecological sciences in sustainability for undergraduates The urgent quest for more sustainable patterns of development has placed new and difficult demands on both scientists and policy makers as they seek to establish more informed and effective policy processes and management regimes in the the face of pervasive uncertainty Written by an international group of authors from a range of disciplines ecology geography law policy analysis and others the chapters explore issues of scientific legitimacy public participation non governmental organisations inter sectoral communication and pragmatic public policy across a wide range of ecosystem management contexts
