Night The City:

Planning the Night-time City Marion Roberts, Adam Eldridge, 2012-11-12 The night time economy represents a particular challenge for planners and town centre managers In the context of liberalised licensing and a growing culture around the 24 hour city the desire to foster economic growth and to achieve urban regeneration has been set on a collision course with the need to maintain social order Roberts and Eldridge draw on extensive case study research undertaken in the UK and internationally to explain how changing approaches to evening and night time activities have been conceptualised in planning practice The first to synthesise recent debates on law health planning and policy this research considers how these dialogues impact upon the design management development and the experience of the night time city This is incisive and highly topical reading for postgraduates academics and reflective practitioners in Planning Urban Design and Urban Regeneration

City of Night John Rechy, 2013-11-12 The cult classic novel from one of the few major American writers whose life is as interesting and meaningful as his work Michael Cunningham When John Rechy's explosive first book appeared in 1963 it marked a radical departure from all other stories of its kind and gave voice to a subculture that had never before been revealed with such acuity It earned comparisons to Jean Genet and Jack Kerouac even as Rechy who had based the novel on his own life was personally attacked by scandalized reviewers Nevertheless City of Night became an international bestseller and ushered in a new era of fiction More than fifty years later it remains a classic Bold and inventive in style Rechy is unflinching in his portrayal of one anonymous youngman and his search for self knowledge and love within a furtive neon lit world of male hustlers drag queens closeted cops and fetishists As the narrator moves from El Paso to Times Square from Pershing Square to the French Quarter and through the lives of an extraordinary collection of characters who dwell in this clandestine world Rechy delivers a portrait of the edges of America that has lost none of its power to move and exhilarate Rechy's tone rings absolutely true is absolutely his own and he has the kind of discipline which allows him a rare and beautiful recklessness He tells the truth and tells it with such passion that we are forced to share in the life he conveys This is a most humbling and liberating achievement James Baldwin

Impossible Heights Adnan Morshed, 2015-01-15 The advent of the airplane and skyscraper in 1920s and 30s America offered the population an entirely new way to look at the world from above The captivating image of an airplane flying over the rising metropolis led many Americans to believe a new civilization had dawned In Impossible Heights Adnan Morshed examines the aesthetics that

emerged from this valorization of heights and their impact on the built environment The lofty vantage point from the sky ushered in a modernist impulse to cleanse crowded twentieth century cities in anticipation of an ideal world of tomorrow Inspired by great new heights American architects became central to this endeavor and were regarded as heroic aviators Combining close readings of a broad range of archival sources Morshed offers new interpretations of works such as Hugh Ferriss's Metropolis drawings Buckminster Fuller's Dymaxion houses and Norman Bel Geddes's Futurama exhibit at the 1939 New York World's Fair Transformed by the populist imagination into master builders these designers helped produce a new form of visuality the aesthetics of ascension By demonstrating how aerial movement and height intersect with popular superman discourses of the time Morshed reveals the relationship between architecture art science and interwar pop culture Featuring a marvelous array of never before published illustrations this richly textured study of utopian imaginings illustrates America's propulsion into a new cultural consciousness

Fragments of the European City Stephen Barber, 2013-06-01 This book explores the visual transformation of the contemporary European city focusing on the most emblematic and visibly wounded of all European cities Berlin Taking as its subject the intricately assembled relentlessly disassembling metropolitan screen it charts the virulent implosions of culture the distortions and violence that give city living its fractured and hallucinatory quality Provocatively written as a series of interlocking poetic fragments the text evokes the formation of metropolitan identity as it ricochets between the physical surface of the city and the vulnerable but manipulating consciousness of city dwellers Barber has discovered a powerful new vocabulary a vocabulary charged with the

door We could be providing meals for families that are hurting because of hardship We could be providing a means for families across our community to gather around the dinner table in Christ's love and make a difference in the choices people make just by providing a practical need that every person and family can agree on Somewhere in the Night Nicholas Christopher, 2010-05-11 Film noir is more than a cinematic genre It is an essential aspect of American culture Along with the cowboy of the Wild West the denizen of the film noir city is at the very center of our mythological iconography Described as the style of an anxious victor film noir began during the post war period a strange time of hope and optimism mixed with fear and even paranoia The shadow of this rich and powerful cinematic style can now be seen in virtually every artistic medium The spectacular success of recent neo film noirs is only the tip of an iceberg In the dead on nocturnal jazz of Charlie Parker and Miles Davis the chilled urban landscapes of Edward Hopper and postwar literary fiction from Nelson Algren and William S Burroughs to pulp masters like Horace McCoy we find an unsettling recognition of the dark hollowness beneath the surface of the American Dream Acclaimed novelist and poet Nicholas Christopher explores the cultural identity of film noir in a seamless elegant and enchanting work of literary prose Examining virtually the entire catalogue of film noir Christopher identifies the central motif as the urban labyrinth a place infested with psychosis anxiety and existential dread in which the noir hero embarks on a dangerously illuminating quest With acute sensitivity he shows how technical devices such as lighting voice over and editing tempo are deployed to create the film noir world Somewhere in the Night guides us through the architecture of this imaginary world be it shot in New York or Los Angeles relating its elements to the ancient cultural archetypes that prefigure it Finally Christopher builds an explanation of why film noir not only lives on but is currently enjoying a renaissance Somewhere in the Night can be appreciated as a lucid introduction to a fundamental style of American culture and also as a guide to film noir's heyday Ultimately though as the work of a bold talent adeptly manipulating poetic cadence and metaphor it is itself a superb aesthetic artifact **General Statistics of Cities**, 1913
