Deconstructing Reaganism Douglas E. Forster, 2014-06-02 As in so many other areas of American society the political legacy of Ronald Reagan had an imposing presence in many contemporary American films particularly between 1980 and 2000 Six films which collectively represent the spectrum of Reaganism's most popular tropes demonstrate quite compellingly that in celebrating nostalgically the blissful pleasantries of family stability and social order so essential to Reagan's political philosophy an unsettling and unsatisfying mythology has been created about a period in which many Americans were acutely aware that something was missing even if they could not pinpoint it at the time This leads the critical viewer to largely unacknowledged subtexts in all six films that begin to reveal the contradictions incoherencies and paradoxes rooted in popular Reaganesque portrayals Utilising a detailed qualitative case study methodology this book incorporates theoretical foundations that expand upon Fairclough's path breaking research on media discourse and Todorov's broadly articulated framework of fantasy in order to explore 1 Which elements of Fairclough's framework for critical discourse analysis can be

applied to explore the discursive structures within these American fantasy films 2 How far do the films follow Reaganist concepts of a new American society 3 How far do notions of the fantastic and postmodern concepts break with common patterns of Reaganism reflected in these films While many critics rightly cite the numerous elements in these films that appear to reinforce fundamental message points underlying Reaganism this study demonstrates how the films characters and plot lines also serve to reveal the inherent and irreconcilable incoherence of the sociopolitical and sociocultural tenets of Reaganism

Realist Critiques of Visual Culture Edward Barnaby, 2018-05-10 Have industrial age technologies and visual discourses transformed us into spectators of the real and can realist fiction make that transformation visible to us This book brings Situationist Guy Debord's Society of the Spectacle and an array of cultural criticism into dialogue with novels by Hardy Forster Woolf Rushdie Carey and Barnes to foreground literary realism's critique of visual culture including Gothic architectural revival neoclassicism tourism historical pageantry postcolonial cinema and photography museums preservationism urbanism and artisanal neo folk movements Barnaby advances the concept of meta spectacle to distinguish realist fiction that engages ethically with visual discourses from realist fiction that reproduces the visible veneer of reality for aesthetic consumption He highlights the limitations of artistic critiques of spectacle considers their resilience toward a culture industry that continuously repackages iconoclasm as iconicity and reflects upon the process of reorienting the reader to comprehend realist gestures By heightening the capacity to recognize our own immersion within objectified representations of the real Realist Critiques of Visual Culture demonstrates how literary realism remains vital within a society that is so deeply invested in visually replicating and archiving lived experience
