Department for Communities and Local Government Great Britain. National Audit Office, 2008 Housing developments require the approval of planning applications by the 368 local planning authorities in England before they can proceed The Department for Communities and Local Government has given local authorities approximately 68 million a year to improve the handling of planning applications and in particular to speed them up Measures taken include national targets payment of Planning Delivery Grant initiatives to build public sector planning capacity initiatives to improve the development management process While authorities are taking more decisions on major housing schemes within 13 weeks the true extent of the improvement across the development process is not as clear as it could be The combination of the extra grant and the setting by the Department of targets has encouraged local authorities to give a higher priority to taking speedier decisions The Department's figures on processing planning applications for large housing developments show a significant improvement with 67 per cent of decisions being reached in 13 weeks in 2007 08 up from 37 per cent in 2002 03 But the extent of improvement across the development process is less clear because the Department's performance measure excludes the time spent before an application's submission and after its subsequent approval both of which can be substantial The Department does not collect data on how long it took to reach these decisions The National Audit Office found that for the 11 authorities visited decisions to reject were taken more quickly than those to approve with approval taking on average 25 weeks for the 100 cases examined from 2006 07 *Planning and Compulsory Purchase Act 2004 (UK)* The Law The Law Library, 2018-04-05 Planning and Compulsory Purchase Act 2004 UK The Law Library presents the official text of the Planning and Compulsory Purchase Act 2004 UK Updated as of March 26 2018 This book contains The complete text of the Planning and Compulsory Purchase Act 2004 UK A table of contents with the page number of each section

The proposal for a national policy statement on ports Great Britain: Parliament: House of Commons: Transport Committee, 2010-03-17 National Policy Statements NPS are a key component of the new planning system for nationally significant infrastructure projects introduced by the Planning Act 2008 The Act stipulates that a proposal for a National Policy Statement will be subject to public consultation and allows for parliamentary scrutiny before designation as national policy by the Secretary of State The draft Ports National Policy Statement Department for Transport 2009 has been

welcomed by many organisations as a good start which can be built upon The Committee has recommended a number of modifications and expects the Department will improve the draft as a result of the consultation and scrutiny processes The Committee has reservations regarding the Government's 2007 policy for ports and the lack of guidance on location for port development in the NPS but this of itself does not make the NPS unfit for purpose But the Committee cannot recommend designation at this stage on two counts Firstly a key related policy statement the National Networks NPS has yet to be published Secondly the organisation likely to be one of the principal decision makers for port development the Marine Management Organisation has yet to be established and so has been unable to comment on guidance that will be of great importance to its role These are fundamental flaws in the consultation process and the Ports NPS should not be designated until they are rectified

Property and The Human Rights Act 1998 Tom Allen,2005-10-01 By giving further effect to the European Convention on Human Rights the Human Rights Act 1998 has had a significant effect on property law Article 1 of the First Protocol to the Convention is particularly important as it protects against the interference with the enjoyment of possessions Compulsory acquisition insolvency planning taxation environmental regulation and landlord and tenant laws are just some of the fields where the British and European courts have already had to assess the impact of the Protocol on private property The Human Rights Act 1998 also restricts the scope of property rights as some Convention rights conflict with rights of private property For example the Article 8 right to respect for the home has been used to protect against environmental harm in some cases at the expense of property and economic rights This book seeks to provide a structured approach to the extensive case law of the European Court of Human Rights and the UK courts on these issues and to provide guidance on the direction the law is likely to take in future Chapters cover the history and drafting of the relevant Convention rights the scope and structure of the rights especially Article 1 of the First Protocol and how through the Human Rights Act 1998 the Convention rights have already affected and are likely to affect developments in selected areas of English law The Law of Real Property Robert Megarry,William Wade,Charles Harpum,Stuart Bridge,Martin J.
