Urban Outcasts Loïc Wacquant, 2013-04-26 Breaking with the exoticizing cast of public discourse and conventional research Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same Drawing on a wealth of original field survey and historical data Loïc Wacquant shows that the involution of America's urban core after the 1960s is due not to the emergence of an underclass but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment In European cities by contrast the spread of districts of exclusion does not herald the formation of ghettos It stems from the decomposition of working class territories under the press of mass unemployment the casualization of work and the ethnic mixing of populations hitherto segregated spawning urban formations akin to anti ghettos Comparing the US Black Belt with the French Red Belt demonstrates that state structures and policies play a decisive role in the articulation of class race and place on both sides of the Atlantic It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims making These defamed districts are not just the residual sinkholes of a bygone economic era but also the incubators of the precarious proletariat emerging under neoliberal capitalism Urban Outcasts sheds new light on the explosive mix of mounting misery stupendous affluence and festering street violence resurging in the big cities of the First World By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century's dawn
