

Japan's Economic Planning and Mobilization in Wartime, 1930s–1940s

The Competence of the State

YOSHIRO MIWA

Planning Japans Economic Future

Edward R. Beauchamp

Planning Japan's Economic Future:

Planning Japan's Economic Future K. Sheridan, 2005-05-11 In 2004 the Japanese economy was in a gravely depressed state with little growth for nearly a decade. However, it would be wrong to call this period the lost decade as many do. A better approach is to examine how a dynamic society progressive in ways different from those which only generate growth in the GNP has been built. This new economy pursues a new objective through new approaches pursuing quality of life rather than raising the material standards of living.

Japanese Economics and Economists since 1945 Aiko Ikeo, 2002-09-26 In this book leading Japanese scholars present an objective study of Japanese economics since 1945 based on statistical data and analysis. The first half of the book assesses the impact and influence of Japanese economics within the international academy, demonstrating the increasingly important contribution of Japanese approaches to theoretical and mathematical economics. Part Two investigates the impact of Japanese economics on policy making, dissecting the formulation of the famous industrial structure policy and comparing Japanese economics with American and Korean models. Presenting a wealth of original empirical data and a new perspective on international economic theory, this book will be of interest to historians, theoreticians, and policy makers alike.

National-level Planning in Democratic Countries Rachelle Alterman, 2001-01-01 Elizabeth A. Kaye specializes in communications as part of her coaching and consulting practice. She has edited *Requirements for Certification* since the 2000/01 edition.

Gale Researcher Guide for: Japanese Economic Recovery after World War II Luke A. Franks, 2018-09-28 Gale Researcher Guide for Japanese Economic Recovery after World War II is selected from Gale's academic platform Gale Researcher. These study guides provide peer-reviewed articles that allow students early success in finding scholarly materials and to gain the confidence and vocabulary needed to pursue deeper research.

History of Japanese Economic Thought Tessa Morris-Suzuki, 2005-09-23 Traces the principal currents in Japanese economic thought since the first half of the 19th century and shows how these currents have been influenced by the changing economic and social environment within Japan.

The Japanese Economy: Technology, foreign investment and competition policies Peter Drysdale, Luke Gower, 1999

The Arc of Japan's Economic Development Arthur Alexander, 2007-11-05 This core textbook is the definitive overview of the Japanese economy, charting its history from before the Meiji restoration through to the contemporary scene and the implications of the ongoing financial crisis.

Japanese Government Leadership and Management Charles F. Bingman, 1988-12-19 The real leaders for the economic and social revolution which has taken place in Japan over the twenty years following the Second World War have been the Japanese government, not just Prime Ministers and Ministers of State, but the leadership of the ministries of the national government which, along with the leaders of the ruling Liberal Democratic party, constitute the three rings of power which rule Japan. Professor Bingman uses his wide experience in the US government to identify and provide a superb distillation of facts and insights about how the Japanese government manages public programs in what he calls a remarkable achievement in public management.

Japan's Economic Challenge United States. Congress. Joint Economic Committee,1990 Perspectives on Economic Integration and Business Strategy in the Asia-Pacific Region Sam Dzever,Jacques Jaussaud,1997-08-12 The book contains selected papers presented at two international Euro Asia research conferences held in Nantes and Poitiers France in 1994 and 1995 These papers are among the most recent empirical works concerned with the analysis of economic transformation and business strategy in the Asia Pacific region Various themes are addressed ranging from an assessment of the environment to more specific issues e g business and marketing strategies of firms operating in this region Countries given particular attention include China Japan South Korea India Taiwan and Vietnam The book represents a comprehensive and up to date appraisal of the effects of economic transformation and business strategy of firms operating in one of the world s most dynamic regions

Restoring Japan's Economic Growth Adam Simon Posen,1998 Criticism of current Japanese macroeconomic and financial policies is so wide spread that the reasons for it are assumed to be self evident In this volume Adam Posen explains in depth why a shift in Japanese fiscal and monetary policies as well as financial reform would be in Japan s self interest He demonstrates that Japanese economic stagnation in the 1990s is the result of mistaken fiscal austerity and financial laissez faire rather than a structural decline of the Japan Model The author outlines a program for putting the country back on the path to solid economic growth primarily through permanent tax cuts and monetary stabilization and draws broader lessons from the recent Japanese policy actions that led to the country s continuing stagnation

Becoming a Language Teacher Elaine Kolker Horwitz,2020-10-21 How do I plan a lesson How will I know if my students are learning How do I teach language while also teaching content material How do I effectively use technology in language teaching How can I ensure the academic success of my students How can I help my students have more contact with the new language These are the practical questions language and mainstream teachers struggle with as they enter today s diverse classrooms in an era when they must focus not only on their everyday teaching but also on students second language development The answers to these questions and more are here in this much needed comprehensive practical guide to language teaching in second foreign and content based settings In a warm supportive tone respected author and experienced language teacher Elaine K Horwitz clearly explains the fundamental concepts of second language acquisition and language teaching using actual classroom situations that help students learn to make instructional decisions in their own future teaching settings Unique among other methods texts that emphasize language for communication purposes only *Becoming a Language Teacher* also focuses on language for academic needs while addressing the latest trends in language teaching as well as effective approaches for teaching language in content classes The perfect choice for ESL and Foreign Language methods courses this guide helps teachers develop a personal approach to language teaching suited to their own unique teaching situations Major additions to the text are related to socio cultural approaches to second language acquisition and teaching The Second Edition also includes Expanded coverage of language development and content teaching Coverage

Trade, Planning and Rural Development Azizur Rahman Khan, Rehman Sobhan, 1990-06-18 A volume of essays by a number of economists to honour Nurul Islam an Asian economist who made important contributions as an academic economist and political planner The essays fall under three subject headings international trade and aid planning and rural development

Japan, the System That Soured Richard Katz, 2015-03-04 After seven long years of economic malaise it is clear that something has gone awry in Japan Unless Japan undertakes sweeping reform official forecasts now warn growth will steadily dwindle How could the world's most acclaimed economic miracle have stumbled so badly As this important book explains the root of the problem is that Japan is still mired in the structures policies and mental habits of the 1950s 1960s Four decades ago while in the catch up phase of its economic evolution policies that gave rise to Japan Inc made a lot of sense By the 1970s and 1980s when Japan had become a more mature economy catch up economics had become passe even counterproductive Even worse in response to the oil shocks Japan increasingly used its industrial policy tools not to promote winners but to shield losers from competition at home and abroad Japan's well known aversion to imports is part and parcel of this politically understandable but economically self defeating pattern The end result is a deformed dual economy unique in the industrial world Now this dualism is sapping the strength of the entire economy The protection of the weak is driving Japan's most inefficient companies to invest offshore instead of at home Without sweeping reform real recovery will prove elusive The challenging thesis articulated in this book is receiving widespread media attention in the United States and Japan and is sure to provoke continuing debate and controversy

Japan in the American Century Kenneth B. Pyle, 2018-10-15 No nation was more deeply affected by America's rise to power than Japan The price paid to end the most intrusive reconstruction of a nation in modern history was a cold war alliance with the U S that ensured American dominance in the region Kenneth Pyle offers a thoughtful history of this relationship at a time when the alliance is changing

History of Contemporary Japan, 1945-1998 Edward R. Beauchamp, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company

History of Contemporary Japan since World War II Edward R. Beauchamp, 2013-04-11 The best scholarship on the development of contemporary Japan This collection presents well over 100 scholarly articles on modern Japanese society written by leading scholars in the field These selections have been drawn from the most distinguished scholarly journals as well as from journals that are less well known among specialists and the articles represent the best and most important scholarship on their particular topic An understanding of the present through the lens of the

past The field of modern Japan studies has grown steadily as Westerners have recognized the importance of Japan as a leading world economic force and an emerging regional power The post 1945 economic success of the Japanese has however been achieved in the context of that nation's history social structure educational enterprise and political environment It is impossible to understand the postwar economic miracle without an appreciation of these elements Japan's economic emergence has brought about and in some cases exacerbated already existing tensions and these tensions have in turn had a significant impact on Japanese economic life The series is designed to give readers a basic understanding of modern Japan its institutions and its people as we stand on the threshold of a new century often referred to as the Pacific Century

The MIT Encyclopedia of the Japanese Economy Robert C. Hsu, 1999 The MIT Encyclopedia of the Japanese Economy was the first English language encyclopedia to cover all major aspects of Japan's postwar economy The second edition has been fully revised and expanded and includes previously unpublished data as well as coverage of recent developments in the economy The definitional entries concisely explain major economic concepts and include translations of Japanese economic terms and cross references to the longer topical essays The 180 topical essays cover banks financial systems major industries corporate groups management practices labor unions international trade and investments government economic policies and more They also include comprehensive statistics American and Japanese views on economic relations between the two countries and suggestions for further reading A new index contains names of major companies

Economic Planning and Industrial Policy in the Globalizing Economy Murat Yülek, 2014-09-04 This book discusses national development planning in the context of a globalized world economy National economic development planning the process of defining strategic economic objectives for a country and designing policies and institutional frameworks to attain them was popular in many countries in the 1960s and 1970s Over time it lost its appeal More recently with globalization accelerating and economic competition increasing it is making a comeback in different countries under different forms National planning in this new era is different than the earlier quantitative planning approaches It employs different tools such as strategic visions and action plans revived forms of physical infrastructure planning industrial policy and cluster policy Built on the research of international scholars with firsthand knowledge of the countries in question this volume presents and evaluates current national planning strategies and policy worldwide It will be of interest to both academicians who study and teach globalization and development as well as policy makers who may use it as a reference as they contemplate their own strategies
