

The Planters

- Antebellum South image - nothing but wealthy plantations.
- Reality - most southerners were still poorer farmers, very small merchant class in the few Southern "cities".
 - 25% of southern families owned slaves.
 - Most of these owned 1 to 4.
 - 2% owned plantations with more than 50 slaves.
- The wealthy plantation owners - dominant group.
 - Southern politics worked more like an oligarchy (rich planters controlling most southern governments).
- Poorer white farmers - "hillbillies" or "poor white trash" supported the slave system (one day they could buy a slave and their supposed racial superiority).
- Appalachian white groups - despise the plantation system and slavery itself.

Plantation Politics James Earl Williams,1972 **The Transformation of Plantation Politics** Sharon D. Wright Austin,2012-02-16 The Transformation of Plantation Politics explores the effects of black political exclusion the sharecropping system and white resistance on the Mississippi Delta s current economic and political situation Sharon D Wright Austin s extensive interviews with residents of the region shed light on the transformations and legacies of the Delta s political and economic institutions While African Americans now hold most of the major political offices in the region and are no longer formally excluded from political participation educational opportunities or lucrative jobs Wright Austin shows that white wealth and black poverty continue to be the norm partly because of the deeply entrenched legacies of the Delta s history Contributing to a greater theoretical understanding of black political efforts this book demonstrates a need for a strong level of black social capital intergroup capital financial capital political capital and a human capital of educated and skilled workers **The Seven Diagrams, Or A Practical Lesson in Plantation Political Economy** Mechanician of Louisville,1872 The Seven Diagrams, Or a Practical Lesson in Plantation Political Economy William Deering,1872
