Plantation Societies In The Era Of European Expansion:

Plantation Societies in the Era of European Expansion Judy Bieber, 2018-11-07 The emergence of a widespread plantation complex in which slave labour produced crops such as sugar on large estates funded by European capital was a phenomenon of the New World This book shows how the institution of slavery was transformed by the demand for labour in the Americas to fill the gap between conquerors and vanquished Indians and to work in mines workshops ranches and above all on the new plantations that were established to exploit the empty lands The essays use quantitative methodology to draw conclusions about slave existence and demography and examine the profitability and varying degrees of harshness of slave systems in different regions They also consider the questions of manumission and slave resistance

The Sugar Masters Richard Follett, 2007-02-01 Focusing on the master slave relationship in Louisiana s antebellum sugarcane country The Sugar Masters explores how a modern capitalist mind set among planters meshed with old style paternalistic attitudes to create one of the South s most insidiously oppressive labor systems As author Richard Follett vividly demonstrates the agricultural paradise of Louisiana s thriving sugarcane fields came at an unconscionable cost to slaves Thanks to technological and business innovations sugar planters stood as models of capitalist entrepreneurship by midcentury But above all labor management was the secret to their impressive success Follett explains how in exchange for increased productivity and efficiency they offered their slaves a range of incentives such as greater autonomy improved accommodations and even financial remuneration These material gains however were only short term According to Follett many of Louisiana s sugar elite presented their incentives with a facade of paternal reciprocity that seemingly bound the slaves interests to the apparent goodwill of the masters but in fact the owners sought to control every aspect of the slaves s lives from reproduction to discretionary income Slaves responded to this display of paternalism by trying to enhance their rights under bondage but the constant bargaining process invariably led to compromises on their part and the grueling production pace never relented The only respite from their masters demands lay in fashioning their own society including outlets for religion leisure and trade Until recently scholars have viewed planters as either paternalistic lords who eschewed marketplace values or as entrepreneurs driven to business success Follett offers a new view of the sugar masters as embracing both the capitalist market and a social ideology based on hierarchy honor and paternalism His stunning synthesis of empirical research demographics study and social and cultural history sets a new standard for this subject

Biological Consequences of the European Expansion, 1450-1800 Stephen V. Beck, 2022-02-16 Wherever the European has trod death seems to pursue the aboriginal So wrote Charles Darwin in 1836 Though there has been considerable discussion concerning their precise demographic impact reflected in the articles here there is no doubt that the arrival of new diseases with the Europeans such as typhus and smallpox had a catastrophic effect on the indigenous population of the Americas and later of the Pacific In the Americas malaria and yellow fever also came with the slaves from Africa themselves

imported to work the depopulated land These diseases placed Europeans at risk too and with some resistance to both disease pools Africans could have a better chance of survival Also covered here is the controversy over the origins of syphilis while the final essays look at agricultural consequences of the European expansion in terms of nutrition both in North America and in Europe

Families in the Expansion of Europe, 1500-1800 Maria Beatriz Nizza da Silva, 2018-10-26 Published in 1998 this volume presents legal religious and demographic aspects of the transfer of European family organisations to new environments in the overseas colonies and illustrates the impacts of contact with other ethnic groups In Africa the focus is on the Cape the principal area of European settlement in the 17th 18th centuries in the Americas the analysis includes indigenous and black families Inheritance dowry marriage divorce illegitimacy are topics covered but the emphasis is above all on women's roles and voices

Local Government in European Overseas Empires, 1450-1800 A.J.R. Russell-Wood, 2018-12-18 First published in 1999 this volume is an ambitious attempt to provide a wide ranging introduction to local government in the overseas empires of Portugal Spain England and France with further reference to the English East India Company and the Dutch East and West India Companies In an exercise in compensatory history the book examines government of empire not from the metropolitan perspective but at the local level where government was most likely to impact on the everyday lives of both persons of European birth and indigenous peoples The first part examines the institutional framework of local and regional government at the municipal parish and county levels extending this to include law and order social welfare and education The second part examines the social dimension of local government governance in pluricultural societies elite formation creolization representation and oligarchies oversight and negotiated authority The work includes a comprehensive introduction together with an extensive bibliography and a detailed index

Facing Each Other (2 Volumes) Anthony Pagden, 2017-09-08 The perception of Europeans of the world and of the peoples beyond Europe has become in recent years the subject of intense scholarly interest and heated debate both in and outside the academy So too has the concern with how it was that those peoples who were variously discovered and then as often as not colonised understood the strangers in their midst This volume attempts to cover both these topics as well as to provide a number of crucial articles on the difficulties faced by modern historians in understanding the complex relationship between them and us Inevitably such relationships not only changed over time they also varied greatly from culture to culture The articles therefore cover most of the areas with which the European world came into contact from the earliest Portuguese incursions into Africa in the mid fifteenth century until the explorations of Cook and Bougainville in the Pacific in the late eighteenth It ranges too from Brazil to Russia from Tahiti to China

Textiles: Production, Trade and Demand Maureen Fennell Mazzaoui, 2016-12-05 This volume examines the role of textiles within the expanding global economy in the Age of European Exploration Major themes include the opening of new markets and responses to competition in the cloth trade evolving techniques and modes of production and changes in the patterns of consumption of local and imported cloth in a comparative

cross cultural context **Warfare and Empires** Douglas M. Peers, 2022-02-16 It is commonplace that warfare was integral to the European expansion pitting the superiorities of the European against the inferiorities of the native The aim of this book is to look deeper and to examine the technological political and economic structures and capacities of the competing forces that shaped their ability to wage war and the impact that colonial wars had on European and non European states and societies alike Questions of the extent to which one side could adapt its military institutions tactics and technology to those of its opponents figure prominently This was far from an inevitable one way process and environment and disease remained vital factors The studies also situate these conflicts within the broader debate concerning the so called military revolution and show that our ideas of this need to be reconsidered in the light of what was happening outside Europe *European Intruders and Changes in Behaviour and Customs in Africa, America and Asia before 1800* Evelyn S. Rawski, 2017-09-08 European intrusions had many impacts on invaded peoples but less attention has often been paid to changes brought about by the encounter in everyday life and behaviour both for the Europeans and the other cultures What changed in diet dress agriculture warfare and use of domesticated animals for example To what degree were attitudes and thus behaviours affected How did changes in the use of types of firearm reorder power structures indeed lead to the rise and fall of competing local states Even the design and planning of houses and cities were affected This volume looks at such changes in the early centuries of European expansion **Theories of Empire, 1450-1800** David Armitage, 2016-12-14 Theories of Empire 1450 1800 draws upon published and unpublished work by leading scholars in the history of European expansion and the history of political thought It covers the whole span of imperial theories from ancient Rome to the American founding and includes a series of essays which address the theoretical underpinnings of the Spanish Portuguese French British and Dutch empires in both the Americas and in Asia The volume is unprecedented in its attention to the wider intellectual contexts within which those empires were situated particularly the discourses of universal monarchy millenarianism mercantalism and federalism and in its mapping of the shift from Roman conceptions of imperium to the modern idea of imperialism

European and Non-European Societies, 1450-1800 Robert Forster, 1997 Two volumes contain facsimile reprints of articles selected to avoid treatment of colonization dominance and exploitation as the only themes although they are represented of course The editor's idea was to elucidate the interaction of societies and cultures initially alien to each other not only the conflict but also the accommodation mutual adaptation and institutional and behavioral synthesis Volume 1 contains an introductory essay and 13 articles on the longue duree Eurocentrism and encounters on the periphery of Africa and Asia Volume 2 comprises 12 articles on religion class gender and race No index Annotation copyrighted by Book News Inc Portland OR Administrators of Empire Mark A. Burkholder, 2018-08-13 Published in 1998 the expansion of Europe overseas required the creation of institutions for governing the conquered peoples as well as the conquerors their descendants and later immigrants As a group bureaucrats were essential for the preservation of extensive and long lasting

European colonies This volume looks in particular at the Americas and sets out the differing responses of Portugal Spain Britain and France and the systems they elaborated A notable theme is the conflict between the demands of the centre and the local pressures and the extent to which the bureaucrats often came to identify with these

Legacies of Slavery Maria Suzette Fernandes Dias, 2021-03-04 The proclamation by the United Nations General Assembly of the International Year to Commemorate the Struggle against Slavery and its Abolition during 2004 marked the culmination of recent efforts to reengage with slavery's past and create an intellectual social political and ethical climate conducive to a sustained and meaningful dialogue among cultures and civilisations The past decade witnessed an upsurge of national and international exhibitions and conferences on the impact of slavery and the overwhelming and enduring cultural miscegenation and the demographic socio political and spiritual hybridisation that the phenomenon consciously or unconsciously initiated the celebration of efforts by Abolitionists to publicise the savagery of this inhumane practice a revival of interest in and the glorification of the often ignored or historically negatively represented resistance to slavery by slaves themselves and numerous endeavours to address the negative legacies of slavery like racism racial discrimination xenophobia and related intolerance which continue to impinge upon our present as part of contemporary politics Yet these ventures aimed at raising awareness of the horrors of slave trade and slavery at honouring struggles for the emancipation of the enslaved at examining the aftermath of slavery like the emergence of a new historic consciousness at restoring broken links and solidarity between the historically dislocated diasporas and their countries of origin at commemorating sites of memory and at celebrating artistic and cultural m tissage such as the UNESCO's Slave Route Project have largely focused on the Atlantic World and the deportation of slaves from Africa to other parts of the World raising questions about the legacy of slavery in other societies like those in Asia the Pacific and Europe where slavery still remains on the margins of national and post colonial histories This edited volume is an attempt to reconsider slavery as a global human institution which has coexisted with other socio political economic legal and cultural institutions As a temporally and spatially ubiquitous phenomenon it has generated and continues to engender legacies be they historical oral or visual which need to be compared and discussed to facilitate dialogue between cultures and civilisations and to mitigate the wounds of the past which continue to scar our present It brings together writings by scholars from history literature anthropology and cultural studies who examine the indelible mark left by slavery in its various forms on societies cultures and peoples all over the world and attempts by artistes and writers to alleviate this stigmata of History This volume consists of two sections The first section entitled Connecting Histories explores some of the varied forms in which slavery presented itself in the last four centuries and the need to reengage with its legacies Adhering to Manning's contention that slavery is an enduring metaphor for inequities in the treatment of humans this section focuses on identifying the legacy of slavery and its significance in scholarship Manning alternate perspectives on slavery through the examination of forced labour and the dehumanising treatment of indigenous

people in Australia Read enforced migration and labour exploitation of convicts in penal colonies Maxwell Stewart and a historical overview of Lusitanian slavery in India D Souza and the hybridisation of pre colonial slavery traditions in the perpetuation of the *perkerniersstelse* or a profitably managed European settler colony based on the global monopoly of nutmeg production by the Dutch Winn The second section of the book entitled *Centering Discourses Identity Image and Text* begins with a postcolonialist reading of Caribbean slavery as a legacy of capitalism imperialism and plantation culture and above all the globalization of sugar consumption Ashcroft The two chapters that follow resuscitate two of the many categories of slaves who were victims of historical silence namely children in the sugar plantations of the West Indies Teelucksingh and Martiniquan maroons Fernandes Dias Articulating with the discourse on identity and cultural appropriation introduced in the preceding essay chapter nine provides an overview of the power struggle at work in the construction of Creole identity and its political legitimization through a topical analysis of the process of commemoration of a site of memory Le Morne Brabant symbol of slavery and marronage in the Mauritian collective memory Carmignani The final two chapters explore the problematics of presenting slavery through the adoption of a counter hegemonic discourse particularly through the arts Aphra Behn's *Oroonoko* which exalts the Black slave as a hero without making any explicit case for the abolition of slavery continues to occupy the terrain of sympathist abolitionist ambiguity Landford while the *Amistad* case despite its numerous positive legacies demonstrates how excessive popularization of the incident as an Abolitionist cause c l bre resulted in an overload of historical memory to the point of obscuring historical reality Fernandes Dias Despite the volume's overarching desire to provide a global and comparative overview of the historical ideological economical and cultural factors that contributed to the evolution of slavery and the legacies that the institution generated this volume is limited in the thematic chronological and geographic terrain that it has covered We attribute this shortcoming to the complexity of slavery itself as an institution the problematic of defining what constitutes slavery and the historical silence maintained over its dehumanizing effects Yet the story of slavery is also a tale of survival of resistance and of the resilience of the human spirit to transcend oppression and preserve its inherent dignity It is the celebration of the rich cultural fusion and m tissage that rose from the ashes of human suffering The wounds of the past need to be healed perhaps initially at a mythopoetic level through the articulation of repressed collective angst and its legacies through the arts and through scholarship
