**Plants, Power, and Profit** Lawrence Busch, 1991-01      **Plants, Power, and Profit**, 1991      **Food and Agricultural Biotechnology in Ethical Perspective** Paul B. Thompson, 2020-11-09 This 3rd edition of *Food and Agricultural Biotechnology in Ethical Perspective* updates Thompson's analysis to reflect the next generation of biotechnology including synthetic biology gene editing and gene drives The first two editions of this book published as *Food Biotechnology in Ethical Perspective* in 1997 and 2007 were the first comprehensive philosophical studies of genetic engineering applied to food systems The book is structured with chapter length treatments of risk in four categories food safety to animals to the environment and socio economic risks These chapters are preceded by two chapters providing orientation to the uses of gene technology in food and agriculture and to the goals methods and background assumptions of technological ethics There is also a chapter covering all four types of risk as applied to the first US technology recombinant bovine somatotropin The last four chapters take up 1 intellectual property debates 2 religious metaphysical and intrinsic objections to biotechnology 3 issues in risk and trust and 4 a review of ethical issues in synthetic biology gene editing and gene drives the three key technologies that have emerged since the book was last revised      *Biotechnology, Commercialization, and Economic Aspects* Kim Guenther, 1994      **Biotechnology and Bioethics** Daniel Cabirac, 1993      *Economic Aspects of Agricultural Bio/technology* Nalini Basavaraj, 1992      **Biotechnology** Kim Guenther, 1996-09 A complete bibliography on the issues of commercialization economics in biotechnology Includes cost benefit analysis market research forecasting economic impact market trends etc Each of the 209 entries includes title author language An abstract is included for some books Subject author indices      *Biotechnology and Bioethics*, 1996      **Food Biotechnology in Ethical Perspective** Paul B. Thompson, 2007-05-05 Agrifood biotechnology the genetic transformation of plants and animals through recombinant means has created controversy in the food system for more than twenty years This thoroughly revised and amended edition of Paul B Thompson's path breaking study of ethical and philosophical issues raised by this technology up to date The original 1997 edition was the first book length treatment by a philosopher to focus on food and agricultural biotechnology covering ethical issues associated with risk assessment labelling animal transformation patents and the impact of biotechnology on traditional farming communities in both the developed and developing world The new edition reflects lessons from the hotly contested debates over those issues in the intervening decade and includes wholly new discussions on ethical issues associated with livestock cloning the Precautionary Principle and the transatlantic debate between United States and European perspectives on biotechnology Thompson's unique and insightful approach to addressing the risks and questions of public acceptability associated with novel technology stands as a model for anyone interested in technological innovation and social change The book should be of interest to scholars and citizens interested in the Internet or nanotechnology while it remains an essential resource for understanding the twists and turns of debate over the role of molecular genetics in the transformation of the

global food system      **The Race to Commercialize Biotechnology** Steven Collins,2004-07-31 This comparative study looks at the early development of biotechnology in the US and Japan Drawing on primary and secondary sources it traces the historical roots of recombinant DNA technology discusses the tensions between regulation and promotional policies and identifies the major actors and strategies that launched biotechnology in both countries Developing several strands of theory in economic history science and technology policy the book proposes a simple model that relates the differences in the two countries responses to variations in the availability of institutional financial and organizational resources needed to commercialize the new technology      **Commercialization of Biotechnology** United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Technology and Competitiveness,1992      **Food Biotechnology** Ulf Stahl,Ute E.B. Donalies,Elke Nevoigt,2008-08-05 This resource examines trends in modern biotechnology covering all aspects of this interdisciplinary field      **Bovine Somatotropin And Emerging Issues** Milton C Hallberg,2019-04-09 Bovine somatotropin or bST a growth hormone genetically engineered to increase milk production in dairy cows highlights the controversial issues of biotechnology and its widespread use Focusing on the problems inherent in new and radically different technologies this book develops a methodology for examining bST and other biotechnological deve      The International Politics of Biotechnology Alan M. Russell,John Vogler,2000 There are three sections The first considers the nature of the science itself the normative questions rasied and the significance of gender responses Following these broad issues the second section addresses biotechnology in relation to international policial economy trade and the environment highlighting the politics of food and patents The final section tackles the question of biological knowledge applied to weapons and the global responses      **Bibliographies and Literature of Agriculture** ,1978      **Anti-GenetiX** Derrick A. Purdue,2017-11-01 This title was first published in 2000 The development of genetically modified foods has given rise to much widespread and heated debate on the possible consequences both positive and negative of this new technology This book not only addresses the broad issues involved outlining the connections between gene patenting and biotechnology and their impact on international relations but also for the first time examines the social movement emerging against GM food Anti GenetiX traces this movement from its emergence and shows how and why it expanded from a small expert concern to the current huge political uproar It explores the contribution this movement makes to shaping global civil society and argues that such global social movements will become increasingly common in the global age      *Science, Seeds, and Cyborgs* Finn Bowring,2003 Exploring the wide reach of modern biotechnology from the genetic modification of plants and animals to medical genetics assisted reproduction and human cloning it suggests that we are losing sight of the human being in favour of adapting that being to an inhuman world BOOK JACKET      **International Crimes** Nikos Passas,2017-07-05 This volume makes accessible a selection of the most significant journal articles dealing with international crimes The studies collected here will be an invaluable aid to teaching and research      *Technological Change In Agriculture* D. Hogg,2000-02-11 Why do

modern agricultural techniques which are environmentally damaging continue to be used This path breaking book seeks the answer to that question in an understanding of evolution of agricultural research in its cultural context Proceedings and Minutes, Annual Meeting of the Agricultural Research Institute Agricultural Research Institute (U.S.),Agricultural Research Institute (U.S.).
