

INTRODUCTION

Plato was a Greek philosopher born in Athens during the Classical period in Ancient Greece. He founded the Platonist school of thought and the Academy, the first institution of higher learning on the European continent. Along with his teacher, Socrates, and his student, Aristotle, Plato is a central figure in the history of Ancient Greek philosophy.

His most famous contribution is the theory of Forms known by pure reason, in which Plato presents a solution to the problem of universals. Unlike the work of nearly all of his contemporaries, Plato's entire body of work is believed to have survived intact for over 2,400 years. Although their popularity has fluctuated, Plato's works have consistently been read and studied.

THEORY OF JUSTICE

Like many other concepts in political science, the concept of justice has been one great contribution of ancient Greece. Plato's work 'Republic' has been titled "on concerning justice". The impact of his work is such that most often scholars aim to imbibe the spirit of this classic in developing their own notion of justice.

To develop his own theory of justice, Plato discusses and critiques the prevailing theories of justice. Three of them are:

1. Theory of Cephalus (Traditional): Cephalus considers justice as speaking the truth and paying what was due to gods and men. This discussion assumes that justice is an art which gives good to friends and evil to enemies. Plato says that true justice means "doing good to all and harm to none". Furthermore, it is not always possible to distinguish between the enemies and the friends. The concept of justice should have a universal application.

2. Theory of Thrasymachus (Radical): Thrasymachus represents justice as the interest of the stronger. Plato outrightly rejects it. Justice is always better than injustice and a just man is wiser, stronger and happier than an unjust man because he also knows his limitations.

3. Theory of Glaucon (Pragmatic): He treats justice as an artificial thing—a product of social convention. Plato criticises it on the ground that it considers justice as something external. He holds that justice is rooted in the human mind.

Plato characterises human behaviour in three main sources:

- Desire (or Appetite)
- Emotion (or Spirit)
- Knowledge (or Intellect)

Plato's Introduction to the Question of Justice Devin Stauffer, 2001-01-01 Plato s Introduction to the Question of Justice uncovers the heart of the Platonic analysis of justice by focusing on the crucial opening sections of the Republic Stauffer argues that the dialectical confrontations with ordinary opinion presented in these sections provide the basis for Plato s view of justice and that they also help to show how Plato s thought remains relevant today especially as a rival to Kantianism

A Socratic Introduction to Plato's Republic Peter Kreeft, 2018 This book is designed for three classes of people Beginners who want an introduction to philosophy Those who have already had an introduction to philosophy and who would like to see it in action now applied to a great book written by a great philosophy but who have never read Plato s Republic the most famous

and influential philosophy book ever written Those who have read Plato's Republic before but did not understand its deepest significance Why is Plato the best introduction to philosophy Peter Kreeft has taught philosophy for over 50 years including one section of a course for beginners every semester He has tried just about everything possible and a few new things that are impossible He has experimented with every one of the many alternative methods available for teaching beginners He has A D D so he easily gets bored and likes to try new things all the time But he has never found anything nearly as successful as Plato Plato is the best writer in the history of philosophy Most philosophers are dull undramatic abstract writers There are a few other exceptions besides Plato Augustine Pascal Nietzsche Kierkegaard But Plato wrote dramatic dialogues in which Socrates his famous teacher interacts with a great variety of fools These dialogues are like intellectual swordfights and even though you know Socrates is going to win they are exciting because you see his ideas come alive like a sword in the hand of a master Plato is a great dramatist a great poet and a great psychologist as well as a great philosopher Nobody else who ever lived combined those four talents as well as Plato did Apprenticeship to a great master is the best way to learn any art The student will understand what philosophy is better by watching a master do it than by reading abstract definitions of it from a second rate philosopher or by a mere scholar Concrete examples are always the easiest way to learn things Plato's dialogues are the world's first and still the best concrete example of philosophizing Kreeft introduces his students to this love affair through a great matchmaker Plato who is a better teacher than the student will ever meet in the land of the living In fact Plato still is in the land of the living He's still alive and kicking in his dialogues He rubs off on those who are wise and humble enough to become a student
