Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 *Books in Print* ,1991 **Forthcoming Books**
Rose Army, 1997 Index translationum ,1969 Philosophy Religion Social sciences Law Education Economy Exact and natural sciences Medicine Science and technology Agriculture Management Architecture Art History Sport Biography Literature Thinking Difference with Heidegger and Levinas Rozemund Uljée, 2020-06-01 Tracing the relationship between truth and justice as articulated by Heidegger and Levinas Rozemund Uljée presents the relation between the two thinkers as a subtle profound and complex rapport which includes both their proximity and radical difference This rapport is conceived not as a confrontation but rather as a transformation as Levinas's notion of justice does not renounce Heidegger's account of truth and its deployment Thinking Difference with Heidegger and Levinas shows how the ethical relation transforms the essence and task of philosophy in its entirety since it shifts the orientation of philosophy and the task of thinking from its concern with truth as ground or foundation to a question of justice As a result philosophy is no longer riveted to Being and its truth but answers to the call for justice and must be conceived of as infinite commencement where its impossibility to totalize meaning ensures that it remains open to the alterity of transcendence **The Metaphysics of Love** Stella Sandford, 2001-11-01 Emmanuel Levinas is best known for having reintroduced the question of ethics into the Continental philosophical tradition In The Metaphysics of Love however Stella Sandford argues that an over emphasis on ethics in the reception of Levinas's thought has covered over both the basis and the details of his philosophical project a metaphysics which affirms the necessity to think of an unqualified transcendence as a first principle Sandford's book is at the same time a powerful feminist critique of both Levinas's gendered philosophical categories and the attempt to reclaim aspects of this philosophy for feminist theory To the Other Adriaan Theodoor Peperzak, 1993 The best introduction available for students of one of the most important philosophers of this century American Catholic Philosophical Quarterly Philosophy **Levinas, Hegel and the Approach to the Other** Stephen Robinson, 2001 TOTALITE ET INFINI EMMANUEL. LEVINAS, 2010-03 Totality and Infinity is Emmanuel Levinas's masterpiece and a major philosophical work in the twentieth century There Levinas defines a new meaning of ethics the happy life of the isolated egoist I is challenged by the encounter with the Other The philosophical description of this experience of this revelation of Alterity is the main goal of Levinas analyses in which the key word is the face of the other human Levinas conducts a critical examination of the Western philosophical tradition Plato Descartes Hegel Bergson Rosenzweig Buber Husserl and Heidegger The publication of Totality and Infinity's Hebrew translation is a significant contribution to the reception of Levinas in Israel both in academic circles and for broader audiences **Between Levinas and Heidegger** John E. Drabinski, Eric S. Nelson, 2014-08-25 Although both Levinas and Heidegger drew inspiration from Edmund Husserl's phenomenological method and helped pave the way toward the post structuralist movement of the late twentieth century very little scholarly attention has been paid to the

relation of these two thinkers There are plenty of simple and accurate oppositions and juxtapositions French and German ethics and ontology and so on But there is also a critical intersection between Levinas and Heidegger on some of the most fundamental philosophical questions What does it mean to be to think and to act in late modern life and culture How do our conceptions of subjectivity time and history both reflect the condition of this historical moment and open up possibilities for critique resistance and transformation The contributors to this volume take up these questions by engaging the ideas of Levinas and Heidegger relating to issues of power violence secularization history language time death sacrifice responsibility memory and the boundary between the human and humanism **Essential Vulnerabilities** Deborah

Achtenberg,2014-06-30 In *Essential Vulnerabilities* Deborah Achtenberg contests Emmanuel Levinas's idea that Plato is a philosopher of freedom for whom thought is a return to the self Instead Plato like Levinas is a philosopher of the other Nonetheless Achtenberg argues Plato and Levinas are different Though they share the view that human beings are essentially vulnerable and essentially in relation to others they conceive human vulnerability and responsiveness differently For Plato when we see beautiful others we are overwhelmed by the beauty of what is by the vision of eternal form For Levinas we are disrupted by the newness foreignness or singularity of the other The other for him is new or foreign not eternal The other is unknowable singularity By showing these similarities and differences Achtenberg resituates Plato in relation to Levinas and opens up two contrasting ways that self is essentially in relation to others **The Philosophical**

Sense of Transcendence Sarah Allen,2009 **From the Other to the Totally Other** Andrius Valevičius,1988 Emmanuel Levinas was born in Lithuania in 1906 He went to France in 1923 and later became the initiator of Husserlian phenomenology in that country His influence in the works of many contemporary French intellectuals has been great His most significant contribution has been to reintroduce the question of the existence of God into philosophical debate This book examines just how Levinas does this It is a study of his philosophy of religion his phenomenology of the other person and his critique of Western ontology Levinas and the Night of Being Raoul Moati,2016-10-03 Can we say that metaphysics is over That we live as post phenomenology claims after end of metaphysics Through a close reading of Levinas's masterpiece *Totality and Infinity* Raoul Moati shows that things are much more complicated *Totality and Infinity* proposes not so much an alternative to Heidegger's ontology as a deeper elucidation of the meaning of being beyond Heidegger's fundamental ontology The metaphor of the night becomes crucial in order to explore a nocturnal face of the events of being beyond their ontological reduction to the understanding of being The deployment of being beyond its intentional or ontological reduction coincides with what Levinas calls nocturnal events Insofar as the light of understanding hides them it is only through deformalizing the traditional phenomenological approach to phenomena that Levinas leads us to their exploration and their systematic and mutual implications Following Levinas's account of these nocturnal events Moati elaborates the possibility of what he calls a metaphysics of society that cannot be integrated into the deconstructive grasp of the metaphysics of presence

Ultimately Levinas and the Night of Being opens the possibility of a revival of metaphysics after the end of metaphysics

Good Infinity Anthony Gorman, 1994

Outside the Subject

Emmanuel Lévinas, 1993 From the author of *Difficult Freedom* Essays on Judaism these essays present Levinas most recent thinking The book is a critical dialogue between Levinas and important contemporary intellectuals where he takes up major issues of philosophical religious and literary concern
