Play And Reflection In Donald Winnicott's Writing:

Play and Reflection in Donald Winnicott's Writings Andre Green, 2018-05-08 The third book in the Winnicott Clinic Lecture Series contains a lecture from the author on Winnicott's theory on play. He discusses Winnicott's view on the importance of play and then moves on to presenting his own somewhat contradictory view on it. The author provides an innovative and provocative perspective on the subject, inviting people to think independently rather than accepting theories already laid out for them.

Playing at Work Vincenzo Bonaminio, 2022-05-25 *Playing at Work* offers a thorough guide to the innovative psychoanalytic practices of Vincenzo Bonaminio as he draws on the work of Winnicott, Bollas, and Tustin to demonstrate an effective method for working with adults, adolescents, and children in clinical settings. Using several clinical cases, the book explores central psychoanalytic concepts such as transference and countertransference, identity, and self-embodiment, anxiety, and the role of parental influence on psychic development. By providing extended commentary on his case material, Bonaminio illustrates the significance of writing about clinical practice to the development of techniques that address patients' varying needs. Simultaneously, this text offers a method that cultivates each patient's capacity for intuition and the use of metaphor to form their own interpretations, and thereby invests a sense of freedom into the analytic situation. By its deeply reflective insights and its emphasis on the contribution made by the analyst as an active participant in the therapeutic situation, *Playing at Work* forms essential reading for all practicing psychoanalysts and psychoanalytic psychotherapists who wish to improve their clinical practice with patients of any age.

Finding Winnicott Fadi Abou-Rihan, 2023-03-03 In *Finding Winnicott: Philosophical Encounters with the Psychoanalytic*, Fadi Abou-Rihan expands upon Winnicott's category of the found object and argues that a genuine understanding of the analyst's own thought requires that it be considered in relation to that of another. The essays in this collection are in dialogue with the work of Freud, Deleuze, and Guattari, Laplanche, Bonaventure, Ibn Al Arabi, and Huizinga; these encounters showcase some of Winnicott's yet-unexplored contributions to the questions of subjectivity, time, and language. They weave psychoanalytic theory, clinical vignette, and key moments from the history of ideas in order to shed light on our findings regarding and indeed findings of desire on some of the playful but no less compelling ways in which the subject lives, suffers, understands, questions, and or normalizes desire. Chapters span a range of topics, including rationales, findings, and spaces, and highlight the subject as not only that which finds but that which is found. With clinical vignettes throughout, this book is vital reading for practicing analysts as well as analysts in training and students of both philosophy and psychoanalysis.

Transforming Perspectives in Lifelong Learning and Adult Education Laura Formenti, Linden West, 2018-09-29 Winner of the AAACE Cyril O'Houle Award. This book constructs a deepening interdisciplinary understanding of adult learning and imaginatively reframes its transformative aspects. The authors explore the tension at the heart of current understanding of transformative adult learning: that while it can be framed as both easy and imperative, personal transformation is in fact rooted in the context in which we

live our stories and relationships At its core transformation is never easy nor always desirable and the authors thus draw on interdisciplinary and auto biographical inquiry to explore what it means to change our presuppositions and frames of meaning that guide our thinking Using their linguistic gendered academic and cultural differences the authors illuminate how the social contextual cultural cognitive and psychological dimensions of transformation intertwine In doing so they emphasise the importance of transformation as a contingent struggle for meaning and recognition social justice fraternity and the pursuit of truth This engaging book will be of interest to students and scholars of transformative learning and education

Exploring Psychoanalytic Concepts through Culture, the Arts and Contemporary Life Margaret Lush, Kate Robertson, 2025-04-24 This book explores how psychoanalytic ideas and thinking enhance our understanding and engagement with the creative arts and contemporary life Many of us love to read poetry and novels and enjoy the performing arts All of us take part in contemporary life But how might a psychoanalytic perspective deepen our understanding or enhance our experience in these areas What might we discover when we explore the unconscious dimensions of particular cultural artefacts and activities Based on the work of the longstanding Psychoanalytic Studies course at the Tavistock contributing authors draw on their experience of infant observation and psychoanalytic theory and apply them to explorations of culturally diverse and wide ranging topics such as social work literature the act of littering a Palestinian poem and even a chart topping Korean pop song Blending a deep understanding of clinical work and a broad range of artistic endeavours this book will be key reading for psychoanalysts psychotherapists and anyone interested in understanding how psychoanalysis can inform art and life

Play and Power Liselotte Grunbaum, Karen Vibeke Mortensen, 2018-05-08 The power of play so central to psychoanalytic theory and practice is conjoined to the social psychological or socio politically coloured concept of power giving rise to many fruitful discussions of how these concepts manifest themselves in clinical work with children groups and adults The inspiration for this book was the 3 section EFPP conference in Copenhagen in May 2007 with the main theme Play and Power At the conference and in the book this theme is presented both inside and outside the therapeutic space It is amply illustrated in clinical cases from individual psychotherapies with children and adults and from group analysis Most of the examples are with hateful or resigned children and adults who have been exposed to extremely damaging or unhelpful environments and who demonstrate convincingly some of the devastating consequences that abuse of power in the real world may have Play and power are also explored in the broader context of the community however

A Poetics of Editing Susan L. Greenberg,2018-09-03 This original and authoritative book offers a first ever attempt to define a poetics of the editing arts It proposes a new field of editing studies in which the ideal editor can be understood in relation to the long theorised author and reader The book s premise is that editing like other forms of making is mostly invisible and can only be brought into full view through a comparative analysis that includes the insights of practitioners The argument laid down in careful layers is supported by a panoramic historical narrative that tracks the shifts in textual authority from religious and secular institutions to the romanticised self of the digital present The dangers posed by the anti editing rhetoric of this hybrid romanticism are confronted head on To the traditional perception of editing as the imposition of closure A Poetics of Editing adds a perspective on a dynamic process with a sense of the possible
