The Poison Oracle Peter Dickinson, 2013-07-29 I think Peter Dickinson is hands down the best stylist as a writer and the most interesting storyteller in my genre Sara Paretsky author of Breakdown Praise for *The Poison Oracle* I have no idea if any of this talk and action is authentic and I don't care Either way it's marvellous Rex Stout Intelligent elegantly written a thoroughly enjoyable read Sunday Times Praise for Peter Dickinson's mysteries He is the true original a superb writer who revitalises the traditions of the mystery genre incapable of writing a trite or inelegant sentence a master P D James Consummate storytelling skill Peter Lovesey Take a medieval Arab kingdom add a ruler who wants to update the kingdom's educational facilities include an English research psycholinguist an Oxford classmate of the ruler invited to pursue his work on animal communication and then add a touch of chaos in Dinah a chimpanzee who has begun to learn to form coherent sentences with plastic symbols When a murder is committed in the oil rich marshes Dinah is the only witness and Morris has to go into the marshes to discover the truth *The Poison Oracle* is a novel of its time that exposes in the everyday language people use humanity's thinking and unthinking cruelties to one another and to the animals with whom we share this earth Peter Dickinson has twice received the Crime Writers Association's Gold Dagger His novels include *Death of a Unicorn* *A Summer in the Twenties* and many more He lives in England and is married to the novelist Robin McKinley *Mambila* *Divination* David Zeitlyn, 2020-02-20 This book offers a major contribution to the study and analysis of divination based on continuing fieldwork with the Mambila in Cameroon It seeks to return attention to the details of divinatory practice using the questions asked and life histories to help understand the perspective of the clients rather than that of the diviners Drawing on a corpus of more than 600 cases David Zeitlyn reconsiders theories of divination and compares Mambila spider divination with similar systems in the area A detailed case study is examined and analysed using conversational analytic principles The regional comparison considers different kinds of explanation for different features of social organization leading to a discussion of the continuing utility of moderated functionalism The book will be of interest to area specialists and scholars concerned with religion rationality and decision making from disciplines including anthropology African studies and philosophy *Witchcraft, Oracles, and Magic Among the Azande* Edward Evan Evans-Pritchard, Eva Gillies, 1976 *Witchcraft Oracles and Magic among the Azande* first published in 1977 was based on anthropological researches carried out in the Southern Sudan during the late 1920s For a decade or so the book had little discernable impact but from the early 1950s to present day its influence has grown incalculably so that it is now difficult even to discuss beliefs about witchcraft or sorcery without reference to it This abridgement of E E Evans Pritchard's acknowledged masterpiece is intended to make it more accessible to students and the general reader **Divination's Grasp** Richard Werbner, 2015-11-15 A work of rare depth and profound insight that is destined to become a classic in African Studies and the anthropology of religion Paul Stoller author of *Yaya's Story* *The Quest for Well Being in the World* Richard Werbner takes readers on a journey through contemporary

charismatic wisdom divination in southern Africa Beginning with the silent language of the divinatory lots Werbner deciphers the everyday metaphorical and poetic language that is used to reveal their meaning Through Werbner's skillful interpretations of the language of divination a picture of Tswapong moral imagination is revealed Concerns about dignity and personal illumination witchcraft pollution the anger of dead ancestors as well as the nature of life truth cosmic harmony being and becoming emerge in this charged African setting Werbner's Divination's Grasp documents a long and distinguished career in the service of anthropology It will be a touchstone for anthropological studies of divination for years to come American Ethnologist Richard Werbner's superb account of moral imagination and the poetics of divination grasps the density of its subject matching the insights of the diviner with those of the ethnographer The book takes its place among the very best works of Africanist anthropology as a new classic in the tradition of ethnographic divination and a necessary reminder of live and deep traditions of African wisdom Michael Lambek University of Toronto Scarborough

The Experience of Science I.F. Goldstein, M. Goldstein, 2013-06-29 Our earlier book How We Know An Exploration of the Scientific Process was written to give some conception of what the scientific approach is like how to recognize it how to distinguish it from other approaches to understanding the world and to give some feeling for the intellectual excitement and aesthetic satisfactions of science These goals represented our concept of the term scientific literacy Though the book was written for the general reader to our surprise and gratification it was also used as a text in about forty colleges and some high schools for courses in science for the non scientist in methodology of science for social and behavioral sciences and in the philosophy of science As a result we were encouraged to write a textbook with essentially the same purpose and basic approach but at a level appropriate to college students We have drawn up problems for those chapters that would benefit from them described laboratory experiments that illustrate important points discussed in the text and made suggestions for additional readings term papers and other projects Throughout the book we have introduced a number of chapters and appendices that provide examples of the uses of quantitative thinking in the sciences logic mathematics probability statistics and graphical representation

technologies of primitive societies to the private mental worlds of great philosophers from spiritualism to science and from New York to New Guinea In clear lucid prose this little book takes on an enormous subject and makes it understandable to anyone The Structure of Social Theory Anthony King,2012 Over the last three decades social theory has become an increasingly important subdiscipline within sociology Social theory has attempted to elucidate the philosophical basis of sociology by defining the nature of social reality According to social theory society consists of objective institutions structure on the one hand and individuals agency on the other it promotes human social relations insisting that in every instance social reality consists of these relations **Religion and Ideology** Robert Boccock,Kenneth Thompson,1985 Science for Social Scientists John Law,Peter Lodge,1984-09-01 *Identifying the Mind* U. T. Place,2004-04-08 This is the one and only book by the pioneer of the identity theory of mind The collection focuses on Place s philosophy of mind and his contributions to neighbouring issues in metaphysics and epistemology It includes an autobiographical essay as well as a recent paper on the function and neural location of consciousness **The Production of Reality** Jodi O'Brien,2021-12-02 This popular text reader for the social psychology courses in sociology departments is distinguished by the author s engaging framing essays that open each part and an eclectic set of edited readings that introduce students to major thinkers and perspectives in this field Through the combination of essays and original works the book demonstrates how we make and remake our social worlds through our everyday interactions with one another The Seventh Edition features 10 new readings from the contemporary social psychology literature a streamlined organization and the option of either e book or print versions

The Inspiration Machine Eitan Y. Wilf,2023-11-27 Explores how creative digital technologies and artificial intelligence are embedded in culture and society In *The Inspiration Machine* Eitan Y Wilf explores the transformative potentials that digital technology opens up for creative practice through three ethnographic cases two with jazz musicians and one with a group of poets At times dissatisfied with the limitations of human creativity these artists do not turn to computerized algorithms merely to execute their preconceived ideas Rather they approach them as creative partners delegating to them different degrees of agentive control and artistic decision making in the hopes of finding inspiration in their output and thereby expanding their own creative horizons The algorithms these artists develop and use however remain rooted in and haunted by the specific social predicaments and human shortfalls that they were intended to overcome Experiments in the digital thus hold an important lesson although Wilf s interlocutors returned from their adventures with computational creativity with modified novel and enriched capacities and predilections they also gained a renewed appreciation for and at times a desire to re inhabit non digital creativity In examining the potentials and pitfalls of seemingly autonomous digital technologies in the realm of art Wilf shows that computational solutions to the real or imagined insufficiencies of human practice are best developed in relation to rather than away from the social and cultural contexts that gave rise to those insufficiencies in the first place *The Rhetoric of Signs* Robert Perinbanayagam,2018-05-04 *The Rhetoric of Signs* is a

collection of essays that seeks to integrate the ideas of Charles Sanders Pierce Mikhail Bakhtin and Kenneth Burke to develop a comprehensive theory of communication It examines how Piercian semiotics Bakhtinian dialogism and Burkes dramatism are used jointly in the construction of various genres of speech to achieve successful communication in both everyday interactions and in momentous international relations **Mundane Reason** Melvin Pollner,2010-06-10 This book assumes that an objective world exists independently of the knower and shows that it is historically emergent culturally contingent and situationally constructed

Logic and African Philosophy Jonathan O. Chimakonam,2020-10-06 Logic and African Philosophy Seminal Essays on African Systems of Thought aims to put African intellectual history in perspective with focus on the subjects of racism logic language and psychology The volume seeks to fill in the gaps left by the exclusion of African thinkers that are frequent in the curricula of African schools concerning history sociology philosophy and cultural studies The book is divided into four parts that are preceded by an introduction to link up the essays and emphasise their sociological implications Part one is comprised of essays that opened the controversy of whether logic can be found in traditional African cultures as well as other matters like the nature of the mind and behaviour of African peoples The essays in part two are centred on the following question are the laws of thought present in African languages and cultures Part three brings together essays that sparkle the debate on whether there can be such a thing as African logic which stems from the discussions in part two Part four is concerned on the theme of system building in logic contributions are written by members of the budding African philosophy movement called the Conversational School of Philosophy based at the University of Calabar and the main objective of their papers is to formulate systems of African logic

Science and Relativism Larry Laudan,2012-08-06 In recent years many members of the intellectual community have embraced a radical relativism regarding knowledge in general and scientific knowledge in particular holding that Kuhn Quine and Feyerabend have knocked the traditional picture of scientific knowledge into a cocked hat Is philosophy of science or mistaken impressions of it responsible for the rise of relativism In this book Laudan offers a trenchant wide ranging critique of cognitive relativism and a thorough introduction to major issues in the philosophy of knowledge

The Oxford Encyclopedia of African Thought Abiola Irele,2010 From St Augustine and early Ethiopian philosophers to the anti colonialist movements of Pan Africanism and Negritude this encyclopedia offers a comprehensive view of African thought covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse philosophy political thought religion literature important social movements that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience The Encyclopedia is a large scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements producing a collection that is an essential resource for teaching an invaluable companion to independent research and a solid guide for further study

Redefining Reason Bradley W. Patterson, 2018-11-16 Throughout the twentieth century Western thinkers engaged in a politically charged often highly personal and acrimonious debate over the mental and rational capacity of people from traditional nonliterate societies The issue was a question of whether or not humanity was at bottom psychologically and rationally unified and equal as a species *Redefining Reason* offers the first in depth critical history of that debate and its repercussions in modern Western thought and society Divided into three sections this book first sets the twentieth century primitive mentality debate within its historical context so that it may be better understood It then focuses on some of the highlights of the debate The next section suggests that this debate was in reality a chapter itself in or in an aspect of a much larger story the story of what may be appropriately referred to as the hyperrationalization of human society To conclude this book follows the debate into the twenty first century and offers the clarification and resolutions developed in earlier chapters to contemporary students scholars and educated lay readers

Embracing the Tune of Phrase: An Psychological Symphony within **Poison Oracle By**

In some sort of eaten by displays and the ceaseless chatter of immediate connection, the melodic beauty and mental symphony produced by the written word often fade in to the background, eclipsed by the constant noise and interruptions that permeate our lives. But, situated within the pages of **Poison Oracle By** a marvelous fictional value full of natural emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, this fascinating masterpiece conducts readers on an emotional journey, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths of the moving analysis, we will examine the book is central harmonies, analyze their enthralling writing design, and submit ourselves to the profound resonance that echoes in the depths of readers souls.

inertial navigation systems with geodetic applications open - Sep 19 2022

web feb 25 2022 imported from better world books record inertial navigation systems with geodetic applications by christopher jekeli 2012 de gruyter gmbh walter edition in english

inertial navigation systems with geodetic applications de gruyter - Jul 30 2023

web jul 24 2023 this book covers all aspects of inertial navigation systems ins including the sensor technology and the estimation of instrument errors as well as their integration with global navigation satellite systems specifically the global positioning system gps for geodetic applications

inertial navigation systems with geodetic applications - Aug 19 2022

web jun 19 2023 this book covers all aspects of inertial navigation systems ins including the sensor technology and the estimation of instrument errors as well as their integration with global navigation satellite systems specifically the global positioning system gps for geodetic applications

inertial navigation systems with geodetic applications - Jul 18 2022

web jul 24 2023 this book covers all aspects of inertial shipping systems ins including the temperature technology and this assessment about instrument errors as now as their integration by global navigation satellite systems specifically the global slide system gps for geodetic applications

inertial navigation systems with geodetic applications - Apr 26 2023

web this book covers all aspects of inertial navigation systems ins including the sensor technology and the estimation of instrument errors as well as their integration with the global

inertial navigation systems with geodetic applications - Nov 21 2022

web publisher s summary this text covers all aspects of inertial navigation systems ins including the sensor technology and the estimation of instrument errors as well as their integration with the global positioning system gps for geodetic applications

inertial navigation system an overview sciencedirect topics - Apr 14 2022

web inertial navigation systems ins are navigational systems capable of calculating position either relative to some reference system point or to absolute coordinates an ins system is composed of at least three gyros and three accelerometers enabling the system to derive a navigation solution

inertial navigation systems with geodetic applications jekeli - Mar 14 2022

web inertial navigation systems with geodetic applications by jekeli christopher isbn 10 3110159031 isbn 13 9783110159035
