The Poison Plot Elaine Forman Crane, 2018-05-15 An accusation of attempted murder rudely interrupted Mary Arnold's dalliances with working men and her extensive shopping sprees When her husband Benedict fell deathly ill and then asserted she had tried to kill him with poison the result was a dramatic petition for divorce The case before the Rhode Island General Assembly and its tumultuous aftermath during which Benedict died made Mary a cause célèbre in Newport through the winter of 1738 and 1739 Elaine Forman Crane invites readers into the salacious domestic life of Mary and Benedict Arnold and reveals the seamy side of colonial Newport The surprise of *The Poison Plot* however is not the outrageous acts of Mary or the peculiar fact that attempted murder was not a convictable offense in Rhode Island As Crane shows with style Mary's case was remarkable precisely because adultery criminality and theft and even spousal homicide were well known in the New England colonies Assumptions of Puritan propriety are overturned by the facts of rough and tumble life in a port city money was to be made pleasure was to be had and if marriage became an obstacle to those pursuits a woman had means to set things right *The Poison Plot* is an intimate drama constructed from historical documents and informed by Crane's deep knowledge of elite and common life in Newport Her keen eye for telling details and her sense of story bring Mary Benedict and a host of other characters including her partner in adultery Walter Motley and John Tweedy the apothecary who sold Mary toxic drugs to life in the homes streets and shops of the port city The result is a vivid tale that will change minds about life in supposedly prim and proper New England
