Neither Liberal nor Conservative Donald R. Kinder, Nathan P. Kalmoe, 2017-05-24 Congress is crippled by ideological conflict The political parties are more polarized today than at any time since the Civil War Americans disagree fiercely about just about everything from terrorism and national security to taxes and government spending to immigration and gay marriage Well American elites disagree fiercely But average Americans do not This at least was the position staked out by Philip Converse in his famous essay on belief systems which drew on surveys carried out during the Eisenhower Era to conclude that most Americans were innocent of ideology In Neither Liberal nor Conservative Donald Kinder and Nathan Kalmoe argue that ideological innocence applies nearly as well to the current state of American public opinion Real liberals and real conservatives are found in impressive numbers only among those who are deeply engaged in political life The ideological battles between American political elites show up as scattered skirmishes in the general public if they show up at all If

ideology is out of reach for all but a few who are deeply and seriously engaged in political life how do Americans decide whom to elect president whether affirmative action is good or bad Kinder and Kalmoe offer a persuasive group centered answer Political preferences arise less from ideological differences than from the attachments and antagonisms of group life
