James, 2021-03-11 Written over a period of more than two decades *Colour Matters* is a collection of essays that shows how race informs the aspirational pursuits of Black youth in the Greater Toronto Area *Policing Citizens* Guy Ben-Porat, Fany Yuval, 2019-08-01 What does police violence against minorities or violent clashes between minorities and the police tell us about citizenship and its internal hierarchies Indicative of deep seated tensions and negative perceptions incidents such as these suggest how minorities are vulnerable suffer from or are subject to police abuse and neglect in Israel Marked by skin colour negatively stigmatized or rendered security threats their encounters with police provide a daily reminder of their defunct citizenship Taking as case studies the experiences and perceptions of four minority groups within Israel including Palestinian Arab citizens ultra Orthodox Jews and Ethiopian and Russian immigrants Ben Porat and Yuval are able to explore different paths of citizenship and the stratification of the citizenship regime through relations with and perceptions of the police in Israel Touching on issues such as racial profiling police brutality and neighbourhood neglect their study questions the notions of citizenship and belonging shedding light on minority relationships with the state and its institutions *Latinos in a Changing Society* Edwin Meléndez, Martha Montero-Sieburth, 2007-02-28 Given the importance of Latino issues in the current social and economic times the publication of *Latinos in a Changing Society* is both timely and prescient in its contributions to the current discourse of how Latinos are being influenced by U S norms and culture and how Latinos are also affecting U S society This volume contributes to our need for comprehensive analysis of how Latin communities compare and contrast with other underserved groups It also examines how changes are taking place within specific Latino groups particularly between first and second generation Cubans returning Puerto Ricans Dominican poverty and emergent Mexican leaders in the New England area The opportunities that Latinos and dominant mainstream interests share are identified in this volume but so are the many areas in need of change In this current atmosphere of anger and suspicion toward immigrants this volume presents an analytical perspective that is too often absent from politically motivated debates about Latinos and their role in a changing society Undocumented immigrants are often portrayed as people who come to this country to take advantage of a generous welfare system contributing little to the economic and social

development of the country This volume critically examines issues such as the Latino commitment to labor participation the ways that Latino parents engage in schools and in their communities health access and social programs the policing concerns within the Latino community the academic adjustments made by Latino college students as well as the educational opportunities that exist for Latinos across the country Unlike publications that seek to summarize knowledge about the Latino population in the United States *Latinos in a Changing Society* provides a broader range of insights into the types of policy analysis research and public consciousness needed to advance the educational social cultural and political participation and incorporation of Latinos in the new century This volume critically examines such issues as the disparity in poverty among Latino groups the lack of access to health services the Latino commitment to labor participation the ways that Latino parents engage in schools and in their communities and the educational dropout rates of Latinos across the country and the underlying causes of those rates Unlike publications that seek to summarize knowledge about the Latino population in the United States *Latinos in a Changing Society* provides a broader range of insights into the types of policy analysis research and public consciousness needed to advance the educational social cultural and political participation and incorporation of Latinos in the new century

Racial Profiling Steven J. Muffler, 2006. In recent years, racial profiling has drawn the attention of state and federal governments. In this book, racial profiling is defined as the practice of targeting individuals for police or security interdiction, detention, or other disparate treatment based primarily on their race, ethnicity, or national origin in the belief that certain minority groups are more likely to engage in unlawful behaviour. Assertions that law enforcement personnel at all levels unfairly target certain racial and ethnic groups, particularly but not exclusively for traffic stops and searches, have raised concerns about violations of the Constitution. The major debate on racial profiling centres on whether the practice should be prohibited entirely and whether data on traffic stops and searches should be collected to determine if the practice is occurring. This book gathers, presents the major issues, available data, and analyses important to understanding the most dangerous and divisive practices of our time.
