Police Suicide Tactics For Prevention:

POLICE SUICIDE Dell P. Hackett, John M. Violanti, 2003-01-01 The range of information in this book is broad and offers strategies and tactics that may help to prevent suicides. It was written by several skilled and caring professionals and it was their aim to give law enforcement officers, administrators and mental health professionals additional information and skills in dealing with law enforcement officers in crisis. It will be interesting and useful to those who would read it with the intention of understanding this dilemma faced by law enforcement and who have a desire to continue the search for possible solutions. The book contains far more than that which would usually come to mind concerning the subject of self-destructive behavior. Its main focus concerns such diverse and very important areas as the police culture, the supervisor's role in intervention, departmental denial of the problem, getting officers to seek help, family issues and survivor issues. All are intended to get the reader closer to being able to identify officers who may be in harm's way, offer solutions to those who seek help and hopefully prevent police suicides. Only recently has the identification of police stress and the subsequent counterproductive behaviors been exposed and accepted within the culture. We have learned that the police occupation is different from all others and that it is all right to be different. This new understanding may also provide a potential remedy for some of law enforcement's greatest ills: alcohol abuse, family abuse and the subsequent consequences. It is the hope therefore that the information in this book will prevent future suicides and even reverse the thinking that leads to such life-ending decisions. It is a must read for law enforcement officers, probation and parole officers, supervisors, mental health professionals, educators, criminal justice students and professors. It is complete and well researched, a cooperative effort, not a competitive one, a journey of discovery and hope.

Police Suicide John M. Violanti, 2007 From the Back Cover In this second edition of *Police Suicide Epidemic in Blue*, the author brings together old and new information on police suicide and he introduces some promising findings. In doing so, he clarifies some issues and provides a source of information for police officers, administrators and academic researchers. In this lucidly written book of ten chapters, Doctor Violanti discusses the classical studies in suicide, the accuracy and validity of police suicide rates, probable precipitating factors associated with police suicide, the impact of retirement, the idea of suicide by suspect, the antecedents of murder suicide, the plight of survivors of police suicide and information and suggestions for police suicide prevention. Also discussed is the relationship between suicide and the reluctance of police officers to seek professional help. Suggestions are made for police suicide prevention that includes intervention programs and suicide awareness training. The author stresses that the first and most important step in preventing suicide is to recognize the problem. It is hoped that this new edition will provide an additional resource to help prevent these deaths.

Police Suicide Michael J. Alicea, 2015-05-13 According to the CDC, 2005 suicide claims approximately 30,000 lives each year in the United States. The law enforcement profession is a dangerous profession that oftentimes dramatically influences an officer's perceptions of incidents often related to the repeated exposure to trauma. The intention of this research project was to

explore the lived understanding of police officers regarding their acuity with respect to the subject of officer suicides A qualitative phenomenological research was conducted consisting of nine demographic and nine open ended interview questions Data were audio recorded and transcribed throughout the interview process The research project examined the awareness levels of police officers in a local metropolitan agency in Miami Dade County Florida A review of the information provided by this research study resulted in five major themes focusing on a suicide prevention b talking about suicide c prevention training d identifying available outside resources and e understanding the police culture The conclusions reached as a result of this research project could broaden the existing literature of suicide and may assist police administrators who may face the issue of police officers considering suicide **FBI Law Enforcement Bulletin** ,1984 **Police Science:**

Police Responses to People with Mental Illnesses Duncan Chappell, 2014-07-16 According to the World Health Organisation during their lifetime more than one quarter of all individuals will develop one or more mental or behavioural disorders Given prevalence data like this it is not surprising that wherever they reside on the planet many persons suffering from a mental disorder or as is more commonly termed in popular parlance a mental illness are likely to come into contact with police at some stage in their lives Indeed research conducted in a number of countries suggests that about 10 per cent of all community police work involves some form of interaction with a person with a mental illness From a police perspective these encounters are not only frequent but also often sensitive and challenging Despite the difficulties associated with this important aspect of community policing surprisingly scant attention has been given to the development of empirically tested and established best practice approaches to managing police interactions with persons with mental illnesses The literature that does exist is principally derived from North American sources although more recent and interesting developments have been reported in Australia and the United Kingdom The principal aim of *Police Responses to People with Mental Illnesses* is to seek to reduce this gap in the literature by providing an international overview of some of the latest research and policy developments in the field and the challenges still to be confronted in many places in overcoming cultural and associated barriers to protecting the rights of the mentally ill This book was originally published as a special issue of *Police Practice and Research* An International Journal

Traumatic Stress in Police Officers Douglas Paton, 2009 The objective of this book is to demonstrate how adopting a

career perspective can provide a more comprehensive conceptualization of traumatic stress processes as they apply to police officers and agencies and provide a framework that can be used to guide research and intervention agenda in ways that reflect the changes that can occur over the course of a police career that can span decades The book examines the nature and effectiveness of the police role in dealing with adverse events as they unfold within a career perspective It begins with pre employment experiences and their implications for operational well being and concludes with a discussion of the implications of a police career for disengagement or retirement from this role It draws upon empirical research to provide an evidence based approach to traumatic stress risk management and well being in contemporary policing Based on state of the art research the book provides a framework that police agencies can use to develop their officers and their organizations in ways that enhance their capability to confront an increasingly uncertain future in ways that maximize the interests of front line policing Areas of discussion include incorporation of police trauma into a life career course perspective changing context and nature of police work recruitment selection and socialization in the context of critical incident and terrorist work changing gender balance training in uncertain times managing risk and vulnerability organizational context family dynamics inter and intraorganizational teams health and mental health consequences of long term exposure to hazards and disengagement and retirement The text will be of significant interest to police organizations and agencies whose officers face a high risk of experiencing disaster and traumatic stress law enforcement managerial and supervisory personnel human resource and health and safety professionals and mental health professionals and consultants The text will also be relevant to those researching traumatic stress disaster stress and emergency management as well as other protective services

Policing and the Mentally Ill Duncan Chappell, 2013-05-14 Police departments in many parts of the world have set up specific programs with crisis intervention teams to facilitate police contact with the mentally ill Focusing chiefly on jurisdictions in Australia this volume also examines several of these programs in North America Europe and parts of the developing world The 16 chapters in this book offer a wide range of cross cultural perspectives on this essential aspect of policing enabling police practitioners to develop a best practices approach to managing their interactions with this vulnerable segment of the community

Cops, Cons, and Grace Brian Cahill, 2018-01-08 A decade ago Brian Cahill became the victim of the greatest tragedy any parent can endure with the loss of his firstborn son a veteran police officer in the aftermath of a painful divorce to suicide Far from the carefree retirement he had envisioned the devastated father faced a journey back from the brink of utter despair As the author of numerous opinion pieces and essays on religion the lifelong Catholic was familiar with the concept that the cross is followed by the resurrection and that from death comes new life In the devastating years following his beloved son's suicide the abstract became very real Cahill's work volunteering with two different groups cops and cons saved him allowing him to eventually experience a measure of grace The unlikely combination of working with SFPD officers on suicide prevention and leading a spirituality group for San Quentin lifers brought him

enough of a sense of peace and acceptance to truly want to continue living

Practical Considerations for Preventing Police Suicide Olivia Johnson, Konstantinos Papazoglou, John Violanti, Joseph Pascarella, 2021-11-24 This book takes an in depth look at the phenomenon of police officer suicide Centered on statistical information collected from cases of officer suicide from 2017 to 2019 this volume helps readers understand the circumstances surrounding death by suicide amongst law enforcement personnel and makes recommendations for identification and prevention Through interview and case presentations this volume examines the lives and last days and weeks of several officers using findings from social media departmental surveys medical examiner reports toxicology reports and interviews with loved ones and colleagues to create a psychological autopsy With 14 chapters contributed by former law enforcement researchers and mental health professionals it addresses national state and local policy implications and strategies presenting a theory for better understanding and preventing the phenomenon of officer suicide This volume will be of interest to researchers in policing to law enforcement and first responder leadership and administrative professionals and to mental health practitioners and clinicians working with this unique population

Blue Wall of Silence Olivia N. Johnson, 2010-04-26 Suicide has been declared an epidemic and rates of suicide increase within occupational subcultures experiencing increased levels of stress and trauma such as law enforcement Explored in the qualitative phenomenological study were the lived experiences of White male law enforcement officers concerning perceptions of care by administrators and peers and the influence of mental health training in the incidence of officer suicide The study population was chosen because of the resemblance to the segment of the general population deemed at risk for suicide Officers provided perceptions of care in dealing with difficult situations police culture police training and police suicide Interviews allowed officers to reveal perceptions and beliefs about the affects of training on perceptions of care and on the incidence of officer suicide Officer interviews revealed five major themes and two minor themes Major themes included stress stress relief trust loyalty training and change Minor themes included generational issues and organizational administration The largest stressor for the study population included crimes and incidents against children The results of the study can help further educate administrators and officers about the emotional dangers facing law enforcement officers and the importance of organizational administration in assisting officers in acknowledging and overcoming issues concerning mental health
