Bombardment, Public Safety and Resilience in English Coastal Communities during the First World War Michael Reeve, 2022-01-01 This book makes the case for a unique coastal urban experience of war on the home front during the First World War focusing on case studies from the north east of England The use of case studies from this region problematises an often assumed national or generalised experience of civilian life during the war by shifting the frame of analysis away from the metropolis This book begins with chapters related to wartime resilience including analysis of pre war fear of invasion and bombardment and government policy on public safety It then moves on to a discussion of power relations and the local implementation of policy related to bombardment including policing Finally the book explores the coastal urban environment focusing on depictions of war damage in popular culture and the wartime and post war commemoration of civilian bombardment This work provides a multi faceted perspective on civilian resilience while responding to a recent call for new histories of the coastal zone

While the City Sleeps Lila Caimari, 2017 While the City Sleeps is an extraordinary work of scholarship from one of Argentina s leading historians of modern Buenos Aires society and culture In the late nineteenth century the city saw a massive population boom and large scale urban development With these changes came rampant crime a chaotic environment in the streets and intense class conflict In response the state expanded institutions that were intended to bring about social order and control Lila Caimari mines both police records and true crime reporting to bring to life the underworld pistoleros the policemen who fought them and the crime journalists who brought the conflicts to light In the process she crafts a new portrait of the rise of one of the world s greatest cities

police in Western Europe and considers how police functions have changed over time Each contributor looks at the experience of one country while having regard to the practices of the other countries The role of the police in maintaining public order had become increasingly important in the early 1980s The activities of terrorists from both Left and Right in Italy Spain and West Germany and the IRA in Great Britain had long been a focus of attention However in many ways a more disturbing phenomenon was the increase in the general level of popular unrest which had produced considerable rioting and looting in British cities as well as often violent confrontation between the police and an increasing range of protesters in other European countries These events received wide media coverage at the time and the issue of public order was one of growing concern for governments the police and the public The role of the police in Western Europe was now firmly political

The Policing of Politics in the Twentieth Century Mark Mazower, 1997 The role of the police has from its beginnings been ambiguous even janus faced This volume focuses on one of its controversial aspects by showing how the police have been utilized in the past by regimes in Europe the USA and the British Empire to check political dissent and social unrest Ideologies such as anti Communism emerge as significant influences in both democracies and dictatorships And by shedding new light on policing continuities in twentieth century Germany and Italy as well as Interpol this volume questions the compatibility of democratic government and political policing

in policy making and police practice and future developments in policing Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy **The Politicization of Police Stops in Europe** Jacques de Maillard, Kristof Verfaillie, Mike Rowe, 2024-04-13 This book examines the timely issue of police stops as a public and political issue focussing on the European states Contrary to much other work it focuses on wider Europe and the social and political context in which the police practice of stopping citizens emerges develops and can be curtailed More specifically the volume analyses public controversies about police stops i e events in which conflicts emerge about how the performance of police stops is explained and justified This book stems from an EU COST Action research network on Police Stops which engages academics and practitioners from 29 countries It appeals to those in law criminology and policing studies with some potential for wider interest in cultural studies history and public policy politics as well as to practitioners in police scrutiny oversight and other professional bodies and in training organisations *Popular Policing* Antoine Renglet, 2019 **Trusting the Police** Silvia Staubli, 2017-03-15 The police can be seen as a governmental institution or as an organizational body where especially the work effectiveness or fairness in encounters is valued Through the combination of these approaches and the inclusion of social trust and criminal victimization Silvia Staubli offers an understanding beyond existing literature on institutional trust and procedural fairness Moreover due to analyses for Eastern and Western Europe she addresses experts from sociology political science criminology and social anthropology equally Beyond the study offers an insight to the public on how public opinions towards institutions are shaped

Police, Policing, Policy and the City in Europe Marc Cools, 2010 The city as an object of criminological research mainly focuses on certain districts or neighborhoods Although ecological criminology is a well known research field empirical research concerning the mutual effects of policing strategies and the urban society is scarce Since a city is a place where

people encounter a variety of social processes the need for more empirical research is apparent In this book scholars from different EU Member States Norway and South Africa focus on the social changes the problems police are confronted with and the involvement of other public and private police actors The book takes a close look at several countries to find out to what extent and how security issues are dealt with It focuses particularly on the discourse and the practice of police and other security actors involved in policing in the city and on the geographical characteristics of policing security
