Policing Surveillance And Social Control:

Policing, Surveillance and Social Control Tim Newburn, Stephanie Hayman, 2002 This book reports the results of research carried out in a London police station on the role and impact of closed circuit television CCTV in the management and surveillance of suspects the most thorough example of the use of CCTV by the police in the world Research methods involved the analysis of CCTV footage analysis of suspect s backgrounds and extensive interviews of both suspects and police officers The research is situated in the context of concerns about the human rights implications of the use of CCTV and challenges criminological and social theory in its conceptualisation of the role of the police their governance and the use of CCTV It raises key questions about both the future of policing and the treatment of suspects in custody A key theme of this book is the need to move away from a narrow focus on the negative intrusive face of surveillance as this study demonstrates CCTV has another face one that potentially watches and protects Both faces need to be examined and analysed simultaneously in order to understand the impact and implications of electronic surveillance Key points this book is about Big Brother and the police presenting the results of research into a unique experiment carried out in a London police station which involved blanket CCTV coverage of suspects in custody the authors situate their findings about this unique experiment in the context of the key questions it raises about human rights and privacy the treatment of prisoners and suspects the use of CCTV and the way in which the police operate

Policing, Surveillance and Social Control Tim Newburn, Stephanie Hayman, 2012-12-06 This book focuses on the use of CCTV in a very different environment to that in which its impact has previously been studied that of a busy London police station and draws upon the analysis of CCTV footage suspects backgrounds and extensive interviewing of both police officers and suspects The research raises key questions about both the future of policing and the treatment of suspects in custody

CCTV and Policing Benjamin Jervis Goold, 2004 CCTV and Policing is the first major published work to present a comprehensive assessment of the impact of CCTV on the police in Britain Drawing extensively upon empirical research the volume examines how the police in Britain first became involved in public area surveillance and how they have since attempted to use CCTV technology to prevent respond to and investigate crime In addition the volume also provides a detailed analysis of the legality of CCTV surveillance in light of recent changes to the Data Protection Act and the incorporation of the European Convention on Human Rights Challenging many existing accounts of the relationship between the police and new surveillance technologies CCTV and Policing breaks new ground in policing and surveillance theory and argues that it is time for a major reassessment of both our understanding of how the police respond to technological change and of the role played by such technologies in our society

Surveillance, Crime and Social Control Dean Wilson, Clive Norris, 2017-05-15 Post 9 11 the need for an expansion of surveillance and greater expenditure on surveillance capabilities has been argued for by government and industry to help combat terrorism This has been coupled with increasing incorporation of surveillance technologies into the routine practice of criminal justice This important

collection draws together key contemporary writings to explore how the surveillance gaze has been directed in the name of crime control Key issues include theories on surveillance CCTV undercover police surveillance bodies databases and technologies and surveillance futures It will be an essential collection for law librarians and criminologists

Technology-led Policing Evelien De Pauw,Paul Ponsaers,Kees van der Vijver,Willy Bruggeman,Piet Deelman,2011

Technology has always played an important role in the performance of police tasks In recent years that role has not only expanded but has also been renewed On one hand technology plays a role in supporting policing closed circuit television scanning equipment technical methods of detection etc On the other hand new technology offers opportunities to commit crime particularly in the sphere of information technology which requires constant adjustments of the police in their investigation methods The use of technology raises many interesting questions There are important privacy issues There are also consequences of investing in technology Additionally are police investigations keeping sufficiently up to date with technological developments including advances in computer technology as well as strong developments in the sphere of natural science This book originally a volume of the Journal of Police Studies examines the concerns and necessity for technology in poli *Understanding Social Control* Martin Innes,2003-12-16 Provides a clear yet panoramic analysis of how the concept of social control has been used by different theoretical traditions in the social sciences Connects contemporary changes in areas such as policing penal systems and surveillance with wider and deeper changes in the constitution of society Employs empirical examples to illustrate key conceptual points Develops an innovative argument about the nature and scope of social control in late modern societies *Understanding Social Control* investigates how the concept of social control has been used to capture the ways in which individuals communities and societies respond to a variety of forms of deviant behaviour In so doing the book demonstrates how an appreciation of the meanings of the concept of social control is vital to understanding the dynamics and trajectories of social order in contemporary late modern societies Through an analysis of a range of different modes of social control including policing imprisonment surveillance risk management audit and architecture this book explores how and why the mechanisms and processes of social control are changing The book will be of interest to those studying courses in criminology and the social sciences researchers with interests in the sociology of deviance and social control and readers who want to understand the social forces that are shaping the world they live in

Surveillance and Governance Mathieu Deflem,2008-04-08 Presents insights in the sociological study of surveillance and governance in the context of criminal justice and other control strategies This volume provides a varied set of theoretical perspectives and substantive research domains on the qualities and quantities of some of the transformations of social control

The Politics of the Police Benjamin Bowling,Robert Reiner,James W. E. Sheptycki,2019 *The Politics of the Police* offers a geographical and historical overview of the law and politics of the police This fifth edition covers a wider range of empirical and theoretical issues encompassing a transnational scope and reflecting the growing diversity of policing

forms in today's globalized world **The SAGE Dictionary of Policing** Alison Wakefield, Jenny Fleming, 2008-12-22 The SAGE Dictionary of Policing is the definitive reference tool for students, academics and practitioners in police studies. Jenny Fleming is Professor at the Tasmanian Institute of Law Enforcement Studies, University of Tasmania.

Surveillance and Crime Roy Coleman, Michael McCahill, 2010-10-15 Surveillance has a long-standing relationship with crime and its identification, prevention, detection and punishment. With information on each citizen spanning up to 700 databases and over 4 million CCTV cameras in the United Kingdom alone, this book explores how new technologies have given rise to new forms of monitoring and control. Offering a comprehensive understanding of the relationship between surveillance, crime and criminal justice, this book explores the development of surveillance technologies within a broad historical context, how new surveillance technologies are shaped by existing social relations, political practices, cultural traditions and organizational contexts, the implications of the use of surveillance in responding to crime, including biometrics, DNA samples and electronic monitoring, how new surveillance technologies reinforce old social divisions, particularly along the lines of class, race, gender and age. The book draws upon theoretical debates from a range of disciplines to shed light on this topical subject. Engaging and authoritative, this is an important read for advanced students and academics in criminology, criminal justice, social policy and sociology. The Key Approaches to Criminology series celebrates the removal of traditional barriers between disciplines and specifically reflects criminology's interdisciplinary nature and focus. It brings together some of the leading scholars working at the intersections of criminology and related subjects. Each book in the series helps readers to make intellectual connections between criminology and other discourses and to understand the importance of studying crime and criminal justice within the context of broader debates. The series is intended to have appeal across the entire range of undergraduate and postgraduate studies and beyond, comprising books which offer introductions to the fields as well as advancing ideas and knowledge in their subject areas **Surveillance Practices and Mental Health** Suki Desai, 2021-12-30 This book examines how CCTV cameras expose the patient body inside the mental health ward, especially the relationship between staff and patients as surveillance subjects. A key aspect of the book is that existing surveillance

literature and mental health literature have largely ignored the influence of CCTV cameras on patient and staff experiences inside mental health wards Research findings for this book suggest that camera use inside mental health wards is based on a perception of the violent nature of the mental health patient This perception not only influences ethical mental health practice inside the ward but also impacts how patients experience the ward It is not known how and why CCTV camera use has expanded to its uses inside mental health wards These include not only communal areas of the ward but also patient bedrooms The research therefore examines how and why camera technology was introduced inside three Psychiatric Intensive Care Mental Health Units located in England UK Aimed at both undergraduate and postgraduate students this book will appeal to sociology mental health and surveillance studies students as well as practitioners in mental health nursing caseworkers and social caregivers

Undercover Police Surveillance in Comparative Perspective Cyrille Fijnaut, Gary T. Marx, 2023-08-14 The United States and Europe have recently experienced a significant expansion in the use of undercover police tactics and technological means of surveillance In a democratic society such tactics raise significant questions for public policy and social research New and sophisticated forms of crime and social control and their internationalization represent an important and neglected topic Realizing this the leading scholars in this field created a European and American working group for the comparative study of police surveillance This collaborative landmark volume reports the results of their work It is the first book ever devoted to the comparative study of the topic and includes articles on the historical development of covert policing in Europe and its spread to the United States where it was extended and recently exported back to Europe plus detailed accounts of the use of covert tactics in France Germany the Netherlands Belgium the United Kingdom Iceland Sweden Canada and the United States Audience Social scientists historians policy makers lawyers and criminal justice practitioners

Policing Contingencies Peter K. Manning, 2010-02-15 Despite constant calls for reform policing in the United States and Britain has changed little over the past thirty years In Policing Contingencies Peter K Manning draws on decades of fieldwork to investigate how law enforcement works on the ground and in the symbolic realm and why most efforts to reform the way police work have failed so far Manning begins by developing a model of policing as drama a way of communicating various messages to the public in an effort to enforce moral boundaries Unexpected outcomes or

contingencies continually rewrite the plot of this drama requiring officers to adjust accordingly New information technologies media scrutiny and representations and community policing also play important roles and Manning studies these influences in detail He concludes that their impacts have been quite limited because the basic structure of policing officer assessments based on encounters during routine patrols has remained unchanged For policing to really change Manning argues its focus will need to shift to prevention Written with precision and judiciously argued Policing Contingencies will be of value to scholars of sociology criminology information technology and cultural theory Tides and Currents in Police Theories Elke Devroe,Paul Ponsaers,Lodewijk Gunther Moor,Jack Greene,Lieselot Bisschop,Layla Skinns,Antoinette Verhage,Matthew Bacon,2012 This volume of the Journal of Police Studies reflects on theoretical developments concerning police The book is focused on a paper by Jack R Greene titled The Tides and Currents Eddies and Whirlpools and Riptides of Modern Policing Connecting Thoughts The paper was the outcome of a seminar organized at Ghent University in the framework of the working group on policing of the European Society of Criminology ESC held in September 2010 Greene s contribution refers to original background papers which were published earlier This book pushes the analysis further starting from the observations Greene makes in his provocative roundup The book s themes include collective action and crime policing and social democracy the role of the law in policing violence and police the militarization and demilitarization of police politics and policing the transformation of policing the evaluation of research methodology buzz words and basics in policing the history of theory the emerging new policing role and its implications police education and training the erosion of community policing the complexity of policing dirty crime global crime and policing the central tasks of the police democratic policing

Opening the Black Box Gavin Smith,2014-10-03 Closed Circuit Television CCTV cameras are a prominent if increasingly familiar feature of urbanism They symbolize the faith that spatial authorities place in technical interventions for the treatment of social problems CCTV was principally introduced to sterilize municipalities to govern conducts and to protect properties Vast expenditure has been committed to these technologies without a clear sense of how precisely they influence things CCTV cameras might appear inanimate but Opening the Black Box shows them to be vital mediums within relational circulations of supervision The book principally excavates the social relations entwining the everyday application of CCTV It takes the reader on a journey from living beneath the camera to working behind the lens Attention focuses on the labour exerted by camera operators as they source and process distanced spectacles These workers are paid to scan monitor screens in search of disorderly vistas visualizing stimuli according to its perceived riskiness and or allurement But the projection of this gaze can draw an unsettling reflection It can mean enduring behavioural extremities as an impotent witness It can also entail making spontaneous decisions that determine the course of justice Opening the Black Box therefore contemplates the seductive and traumatic dimensions of monitoring telemediated riskscape through the prism of camera circuitry It probes the positioning of camera operators as vicarious custodians of a precarious social order and engages their

subjective experiences It reveals the work of watching to be an ambiguous practice as much about managing external disturbances on the street as managing internal disruptions in the self

The SAGE Encyclopedia of Surveillance, Security, and Privacy Bruce A. Arrigo, 2016-06-15 In all levels of social structure from the personal to the political to the economic to the judicial The SAGE Encyclopedia of Surveillance Security and Privacy uncovers and explains how surveillance has come to be an integral part of how our contemporary society operates worldwide

Policing World Society Mathieu Deflem, 2002 This book offers a sociological analysis of the history of international police cooperation in the period from the middle of the 19th century until the end of World War II It is a detailed exploration of international cooperation strategies involving police institutions from the United States and Germany as well as other European countries

Genetic Policing Robin Williams, Paul Johnson, 2013-05-13 This book is about the increasing significance of DNA profiling for crime investigation in modern society It focuses on developments in the UK as the world leader in the development and application of forensic DNA technology and in the construction of DNA databases as an essential element in the successful use of DNA for forensic purposes The book uses data collected during the course of Wellcome Trust funded research into police uses of the UK National DNA Database NDNAD to describe the relationship between scientific knowledge and police investigations It is illustrated throughout by reference to some of the major UK criminal cases in which DNA evidence has been presented and contested
