Governing Integrated Water Resources

Management Oliver Fritsch, David Benson, 2020-01-23 Integrated Water Resources Management IWRM has become a global paradigm for the governance of surface coastal and groundwaters This Special Issue contains twelve articles related to the transfer of IWRM policy principles The articles explore three dimensions of transfer causes processes outcomes and offer a theoretically inspiring methodologically rich and geographically diverse engagement with IWRM policy transfer around the globe As such they can also productively inform a future research agenda on the dimensional aspects of IWRM governance Regarding the causes the contributions apply criticise extend or revise existing approaches to policy transfer in a water governance context asking why countries adopt IWRM principles and what mechanisms are in place to understand the adoption of these principles in regional or national contexts When it comes to processes articles in this Special Issue unpack the process of policy transfer and implementation and explore how IWRM principles travel across borders levels and scales Finally this set of papers looks into the outcomes of IWRM policy transfer and asks what impact IWRM principles once implemented gave on domestic water governance water quality and water supply and how effective IWRM is at addressing critical water issues in specific countries

Men Educators of Color in U.S. Public Schools and Abroad Ashley N.

Woodson, Travis J. Bristol, 2023-12-11 This book reflects the diversity and possibility of critical research in education with an emphasis on the examination of the intersections of social identities for men teachers of color and the relationship between social identity and struggles for political and professional agency The authors address race and race inequality in education and provide a strong theoretical foundation for filling the empirical gap on men teachers of color by engaging in questions such as How do critical considerations of the intersection of race gender and profession inform the future of teacher education What does it mean to be men or of color in the context of the teaching profession in the U S and abroad What are the aims of ethnoracial diversity in the field of education The research included in this edited volume explores topics including but not limited to men teachers of color and their perceived pathways to the profession their perceptions of and partnerships with colleagues of other genders their sexual and gendered identities and performances and how they embrace reject or negotiate the expectations of performing as a role model in classrooms Moreover the chapters provide explicit implications for teachers teacher educators university and PK 12 administrators education activists and or education policymakers In sum this volume charts a new landscape in education research for all men teachers of color The chapters in this book were originally published as a special issue of the journal *Race Ethnicity and Education*

Interviewing as

Qualitative Research Irving Seidman, 2019 This popular text provides step by step guidance for new and experienced researchers who want to use interviewing as a research method Appropriate for individual and classroom use this expanded edition explains the rationale for interviewing and the complexity of selecting interview participants important interviewing

techniques and how to work with the results of interviews For four editions readers have turned to *Interviewing as Qualitative Research* for its practical and straight forward presentation of a powerful interviewing model With updated examples new sections on ethics and much more this new edition remains a must read for any graduate student or experienced researcher interested in the art of qualitative interviewing Nancy Dana University of Florida Praise for Previous Editions A comprehensive perspective of the nature of qualitative inquiry and the art of interviewing Theory and Research in Social Education A good starting point for training new researchers The Journal of Higher Education I have used Seidman's text with great success with graduate students new to qualitative research Its complex yet readable treatment is an essential part of the toolbox for both novice and experienced qualitative interviewers Mark R Warren University of Massachusetts Boston This is a thoughtful and well written introduction to the topic I assign it in multiple undergraduate and graduate classes I teach Highly recommended Amy Bruckman Georgia Institute of Technology **Journal of College Student**

World Society John W. Meyer, Georg Krücken, Gili S. Drori, 2009 This book brings together some of Meyer's widely scattered work reviewing four decades of scholarship and adding several original pieces from his current work It gathers substantive commentary on social processes from stratification to globalization to socialization and on key social institutions from science to religion to law to education *America, History and Life*, 1985 *Reforma y democracia*, 1997 *Social Sciences Index*, 1997 **E-Agriculture and E-Government for Global Policy Development: Implications and Future Directions** Maumbe, Blessing M., 2009-09-30 This book provides critical research and knowledge on electronic cultivation and political development experiences from around the world Provided by publisher *Neighborhood and Life Chances* Harriet B. Newburger, Eugenie L. Birch, Susan M. Wachter, 2011-02-17 Does the place where you lived as a child affect your health as an adult To what degree does your neighbor's success influence your own potential The importance of place is increasingly recognized in urban research as an important variable in understanding individual and household outcomes Place matters in education physical health crime violence housing family income mental health and discrimination issues that

determine the quality of life especially among low income residents of urban areas Neighborhood and Life Chances How Place Matters in Modern America brings together researchers from a range of disciplines to present the findings of studies in the fields of education health and housing The results are intriguing and surprising particularly the debate over Moving to Opportunity an experiment conducted by the Department of Housing and Urban Development designed to test directly the effects of relocating individuals away from areas of concentrated poverty Its results while strong in some respects showed very different outcomes for boys and girls with girls more likely than boys to experience positive outcomes Reviews of the literature in education and health supplemented by new research demonstrate that the problems associated with residing in a negative environment are indisputable but also suggest the directions in which solutions may lie The essays collected in this volume give readers a clear sense of the magnitude of contemporary challenges in metropolitan America and of the role that place plays in reinforcing them Although the contributors suggest many practical immediate interventions they also recognize the vital importance of continued long term efforts to rectify place based limitations on lifetime opportunities
