Policy Planning and Local Government Robin Hambleton, 1978 *Policy Planning and Local Government* Robin Hambleton, 1979 *Strategic Planning in Local Government* Roger L. Kemp, 2018-01-12 This book shows how and why strategic planning is working in cities around the country. It illustrates how this technique enables a city to plan its future proactively and shows how local governments use it to solve current problems and make sure they continue to reach their goals. Using seventeen case studies from a diverse mix of cities, it outlines the components of successful strategic planning, including program design, needs and capabilities assessment, implementation, and ongoing evaluation. In this book, you will see how planners use strategic planning to synthesize population trends, economic conditions, business trends, strategies, and objectives. The authors emphasize that the planning process is not entirely theoretical; real-world factors like support from politicians are crucial. This casebook includes discussion questions with each case. Also included is a chapter devoted solely to a strategic planning model. These features make the book valuable not only to planners on the job but also to students in planning and public administration.

Comprised of 10 chapters, the book discusses about the use of development plans as procedural tools used by government agencies as an element in programs for intervening in the way a land is used and developed. Chapter 1 discusses land policy, land use planning, and development plans, while Chapter 2 covers the British land policy and land use planning. Chapter 3 and 4 tackle structure and local plans, respectively. The fifth chapter attempts to answer the question: Why prepare a local plan? and the next three chapters tackle local plan production, form, and content, and use. The Reorganisation of British Local Government John Dearlove, 1979-09-20 This volume was first published in 1979 just a few years after the Local Government Act of 1972 redrew the map of British local government Local authorities were also encouraged to change their organization and methods of work anxiety was expressed about finance councillor calibre and the credibility of the whole system itself and neighbourhood councils and public participation in planning were introduced John Dearlove's aim is to make sense of these changes and the discussion they generated He does this by showing that both the official case for reorganization and the academic discussion of it have hindered their own understanding by uncritically accepting superficial traditional wisdoms which fail to reveal the concealed ideological positions behind reorganization Thus he aims to develop a truly political perspective on reorganisation which is rounded out and given greater depth by the insertion at appropriate points of comparative material drawn from American experience and studies
