## **Polish Foreign Policy Reconsidered The Dilemmas Of Independence:**

*The Union for the Mediterranean* Federica Bicchieri, Richard Gillespie, 2014-07-10 This is the first comprehensive analysis of the Union for the Mediterranean UfM launched in 2008 amid great controversy within the European Union Affected from the start by negative fallout from the failure of Middle East peace initiatives its inadequacies have been underlined by the popular movement for regime change in the Arab world Leading experts provide here the first integrated analysis of the significance and shortcomings of the UfM Beginning with critical questioning of the motives and institutional logics informing this venture the collection proceeds to analyse its key actors as well as major policy dossiers such as energy and development The book explains how and why an initiative aiming to depoliticize Euro Mediterranean relations in fact proved wide open to political discord bringing huge disruption to UfM activity While some aspects are found to have merit the volume is critical of the way in which EU Mediterranean policy became driven by a narrow range of national interests lost sight of the political objectives of the preceding Barcelona Process and became overwhelmingly bilateral in approach at the expense of more ambitious region building efforts It concludes by highlighting the need to reform the EU Mediterranean policy framework in the light of the Arab uprisings of 2011 This book was published as a special issue of *Mediterranean Politics*

The Transatlantic Relationship : Problems and Prospects Sabina A. M. Auger, 2003 *Dealing with a Juggernaut* Joanna A. Gorska, 2012-07-10 *Dealing with a Juggernaut* Analyzing Poland's Policy towards Russia 1989-2009 by Joanna A Gorska is the first substantial study of Poland's foreign policy interaction with its more powerful eastern neighbor Russia This study is essential to understanding the prospects for order and peace in Central and Eastern Europe towards Russia during the past twenty years Gorska challenges widely established interpretations of Poland's post 1989 foreign policy by arguing that consecutive Polish governments pursued a largely cooperative policy towards Russia and did so because of material power considerations namely Poland's strengthened power position after the Cold War and moderate security pressures from Russia In analyzing Polish foreign policy *Dealing with a Juggernaut* draws on leading theories in the field of International Relations and Foreign Policy Analysis and develops a comprehensive theoretical framework to guide empirical research Representing a cross section of politically important areas in Poland's most recent Russia policy the analysis is delineated along four case studies the Soviet military withdrawal from Poland in the early 1990s the NATO issue in Polish policy towards Russia Polish energy policy towards Moscow and the Katyn question in Polish foreign policy This book uses previously unpublished archival material interviews with leading Polish officials and a wealth of Polish publications to provide an insight into Warsaw's foreign policy behavior Gorska points to a departure from hostility and imposition a significant change in Poland's policy towards Russia after 1989 As such *Dealing with a Juggernaut* by Joanna A Gorska uncovers important mechanisms of regional cooperation between states with a checkered past **Bridging the European Divide** Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first

century threats from nation states or nonstate actors Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11 2001 *The Russian Military Today and Tomorrow* : ,2010 **Politics of Stigmatization** Molly Krasnodebska,2020-10-27 This book studies how the pursuit of becoming an established insider in an international community shapes a state s foreign policy It looks at Poland s response to three international crises that called for joint action of the EU and its members the Iraq war of 2003 the Russo Georgian war of 2008 and the Ukraine crisis beginning in 2013 The book develops the concept of strategic culture as a collection of historically informed narratives that guide a state s pursuit of ontological security a basic sense of certainty about the state s role and place in the international environment Building on this concept the author argues that Poland s behavior reflects the awareness of its stigma as a late arrival in the EU and more generally in the West as an identity community The study thus provides insight into how stigmatization and struggle for recognition shape international dynamics **Demokratizatsiya** ,1996 *National and European Foreign Policy* Reuben Wong,Christopher Hill,2012-04-27 Examines how national foreign policies in the EU affect common EU positions in international politics **Ideology and National Identity in Post-communist Foreign Policies** Rick Fawn,2003 This collection of essays examines the extent to which nationalism has replaced communist ideology in the foreign policy of communist states The Limits of Alliance Andrew A. Michta,2006-04-10 The Limits of Alliance surveys the security policies of the states in North and Central Europe in the context of a declining North Atlantic Treaty Organization and the emerging European Security and Defense Policy It analyzes U S policy toward the region and examines the con **Russian National Security** Michael H. Crutcher,2001 This is an anthology of papers presented at a conference titled Russian National Security Perceptions Policies and Prospects conducted from 4 6 December 2000 The book organizes the papers into six sections The Russian National Security Community Russia and Europe Russian Policy Towards the Caucasus and Central Asia Russia and Asia Russia and the United States and Russia s Military Transformation *Middle Powers and Regional Influence* Joshua B. Spero,2018-11-16 In the growing literature on middle powers this book contributes by expanding case study analysis and extending international relations theory in its application to foreign policy decisions Thus this book builds on prominent middle power literature and aims to advance our theoretical understanding for why crucial foreign policies were made by the pivotal middle powers this book examines Poland South Korea and Bolivia For this book s three case studies and their first term leadership s critical junctures from first term post communist Poland post authoritarian post ruling party South Korea and post colonial Bolivia we have the antecedents for contemporary middle powers essential for realizing the regional evolution for cooperative change with greater powers systemically we may then grasp today why those historical foreign policies albeit not so long ago give us crucial antecedents for adapting and trying yet again to resolve seemingly perennial power dilemmas regionally peacefully Here are why middle power impact matters not only regionally for stronger dominant greater power neighbours but also for transformative middle

power leaderships which proved pivotal geopolitically for their region's challenges and changes *The Polish Quarterly of International Affairs*, 1995 *The Consolidation of Democracy in East-Central Europe* Karen Dawisha, Bruce Parrott, 1997-06-13 Edited by two of the world's leading analysts of post communist politics this book brings together distinguished specialists on the Baltic states Estonia Latvia and Lithuania Poland the Czech Republic Slovakia and Hungary The authors analyse the patterns of post communist democratization in these countries paying particular attention to the process of party formation electoral politics the growth of civil society and the impact of economic reform on the emergence of interest groups Karen Dawisha and Bruce Parrott provide theoretical and comparative chapters on post communist political development across the region This book will provide students and scholars with detailed analysis by leading authorities plus the latest research data on recent political and economic developments in each country *National Identity and Foreign Policy* Ilya Prizel, 1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society's evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity's collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel's study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe *Europa im Ostblock* José M. Faraldo, Paulina Gulińska-Jurgiel, Christian Domnitz, 2008 Poland's Foreign and Security Policy Ryszard Zięba, 2019-11-06 This book analyses determinants and the evolution of Poland's foreign and security policy in the changing international order By studying historical geopolitical and domestic factors the author offers a better understanding of Poland's national interests and sheds new light on its foreign relations with the USA Russia and the European Union Furthermore the author also discusses Poland's cooperation within international organisations such as NATO and the EU Party Systems and Foreign Policy Change in Liberal Democracies Angelos Chrysogelos, 2020-12-23 How do political parties affect foreign policy This book answers this question by exploring the role of party politics as source of foreign policy change in liberal democracies The book shifts the focus from individual political parties to party systems as the context in which parties' ideologies receive precise content and their preferences are formed The central claim is that foreign policy change arises from within transformed discursive contexts of party competition when a new language of politics that constitutes anew parties' self understanding of what they stand for and compete over emerges in a party system By comparing cases of contested foreign policy change the book shows how such transformations in party competition determine whether and when international pressures on a state will translate into decisions to institute foreign policy change and what degree of change will be ultimately implemented With a novel framework which bridges concepts of international relations and comparative politics the book will be of interest to

researchers and students in the areas of international relations theory foreign policy analysis and comparative politics and generally to anyone wanting to understand how and when parties elections and voters contribute to international change

Congressional Record United States. Congress,1967      **Poland and European Integration** T. Lane,M.
