Reconstructing Urban Economics Franklin Obeng-Odoom, 2016-08-15 Neoclassical economics the intellectual bedrock of modern capitalism faces growing criticisms as many of its key assumptions and policy prescriptions are systematically

challenged Yet there remains one field of economics where these limitations continue virtually unchallenged the study of cities and regions in built environment economics In this book Franklin Obeng Odoom draws on institutional Georgist and Marxist economics to clearly but comprehensively show what the key issues are today in thinking about urban economics In doing so he demonstrates the widespread tensions and contradictions in the status quo showing how to reconstruct urban economics in order to create a more just society and environment

The Soviet System George Fischer, 2017-07-12 Many things make up a modern society its history culture natural setting wealth classes and peoples For some the power structure the political system lies at the heart of the social order Russia has long been a political society and its future may also be decided in large part by the power structure A good way to understand Russia and other modern societies is to examine the ties between the Soviet system and the rest of the country s life George Fischer argues that it is these ties that explain much about the consequences of a communist state The Soviet System originally published in 1968 presents a provocative challenge to prevailing theories of modernization throughout the world In this book Fischer takes issue with current assumptions that societies developing an advanced fully modern economy and culture must inevitably adopt Western type social and political institutions The author holds that our understanding of contemporary nations is impeded by assessing them in terms of the prevailing American theory of pluralism The notion that a pluralist division of labor pervades all of modern society is challenged and tested in the context of the former Soviet Union as a modern society The emergence of the dual executive a leader with a special mixture of political and economic know how is emphasized as a trend toward a monist model of society Fischer demonstrates how this model in which all power is public and both industry and culture remain part of a non capitalist non liberal state structure can prove useful in studying social change today The result is a book of value to all scholars and students dealing with the social and political systems of both developing and advanced societies long after the Soviet system of rule dissolved

The Future of the Mass Audience W. Russell Neuman, 1991-11-29 This book focuses on how the changing technology and economics of the mass media in post industrial society will influence public communication

Positivist and Political-Economic Theories of International Relations Amartya Mukhopadhyay, 2023-10-20 This book provides an introduction to positivist pluralist theories of international relations IR which emerged during the early and mid 1950s along with Marxist political economic and non Marxist economic theories of IR Positivist and Political Economic Theories of International Relations is an in depth critical study of texts and literature

which highlight IR's methodological pluralism even after it gained maturity. It examines how pluralist political status quo and radical economic criticism coexist in discrete areas of the discipline. Insights are provided into key positivist liberal pluralist theories namely decision making approaches and theories of integration regionalism interdependence and regime. It discusses the four political economic and critical theories of Marxism dependency world systems and international political economy. The book as an advanced supplementary reader will be of great interest to researchers and students of international relations history law and the multidisciplinary social scientific field of political economy.

The Global Covenant Robert Jackson, 2000-08-03. The Global Covenant a ground breaking work by one of the leading scholars in international relations rejuvenates the classical international society approach and brings it into contact with the new era of world politics. This major study presents a comprehensive analysis of the most important international issues of our time including peace and security war and intervention human rights failed states territories and boundaries and democracy. It profitably draws on diplomatic and military history international legal studies and international political theory to address basic methodological questions and to present the elements of a human sciences approach to the study of world politics. The Global Covenant endeavors to justify the world wide state system as a foundation of political freedom and envisions the future of international society in the 21st century.

Contemporary Issues in Heterodox Economics Arturo Hermann, Simon Mouatt, 2020-10-07. Heterodox economics can provide a more complete and robust explanation of economic realities than orthodox or mainstream economics. Contemporary Issues in Heterodox Economics Implications for Theory and Policy Action argues that this greater explanatory power gives heterodox economics the ability to illuminate appropriate policy for the major crises of our time as well as proffer the basis for a more rounded pluralist approach to economic theory. The chapters in this wide ranging volume address some of the key issues facing the global economy including the growing disparity of income wealth between persons and economic areas environmental degradation issues associated with employment and the regularity of economic financial crises. The authors examine potential policy responses such as modern monetary theory models of public ownership and the need to move beyond standard concepts of growth. They also explore the deficiencies of orthodox economics and contend that a more pluralist approach to economics is required in the public sphere in academia and in the classroom in order to help face the challenges of the twenty first century. This book is invaluable reading for students and scholars across the social sciences who are interested in alternatives to mainstream economic thinking.
