*Political and Social Inquiry* Dickinson McGaw, George Watson, 1976      **Political and Social Inquiry** Dickinson McGaw, 1986-01-01      **The Practical Import of Political Inquiry** Brian Caterino, 2016-06-19 This book examines a basic problem in critical approaches to political and social inquiry in what way is social inquiry animated by a practical intent This practical intent is not external to inquiry as an add on or a choice by the inquirer but is inherent to the process of inquiry The practical intent in inquiry derives from the connection between social inquiry and the participant s perspective The social inquirer in order to grasp the sense of those who are the subject of inquiry has to adopt the perspective of the participant in the social world Caterino opposes the view that research is an autonomous activity distinct from or superior to a participant s perspective He argues that since the inquirer is on the same level as the participant all inquiry should be considered mutual critique in which those who are addressed by inquiry have an equal right and an equal capacity to criticize addressors

strikes a middle path between troublesome dualisms such as those of realism and relativism rationality and imagination power and justification To do so the book draws on the resources of the pragmatist tradition claiming that this tradition offers solutions that have for the most part been neglected by the contemporary debate To prove this claim the book provides a large account of debates within this tradition and engages its best solutions with contemporary philosophical theories such as perfectionism critical theory moral realism and liberalism The question of the nature of disagreement is addressed both at the general theoretical level and more specifically with reference to moral and political forms of disagreement At the more general level the book proposes a theory of practical rationality based upon the notion of rationality as inquiry At the second more specific level it aims to show that this conception can solve timely problems that relates to the nature of moral and political reasoning
