Liberal Democracy and Its Critics in Africa Tukumbe Lumumba-Kasonga, 2013-07-04 Democratic institutional forms and processes are increasingly widespread in Africa as dictatorial regimes have been forced to give way as a result of popular mobilization and external donor pressure. However, the premises of the African scholars whose empirical research and analytical explorations are included in this volume are that democratic form and democratic substance are two different things. Western-derived institutional forms are neither necessarily the most appropriate nor the most practical in the current African context and rooting democratic norms in the political cultures of African polities raises socio-cultural issues with which political scientists must engage. This book explores various critical questions in the context of particular elections and particular countries as diverse as Ghana, Nigeria, Kenya, the Congo, Cameroon and the Central African Republic. They include the continuing impact of police state apparatuses following democratic transition, factors influencing African voters' attitudes and behaviour, the impact of incumbency on electoral competition, women's electoral participation, the phenomenon of often very limited party programmatic choice in the context of huge social diversity and multi-party competition and the controversial issues around the transplantation of liberal democratic institutions. Underlying these issues is the fundamental question of whether democratic processes as currently practised in Africa are really making any significant difference to the African struggle for economic, social and cultural progress. This volume is valuable for the original perspectives of its African contributors, the issues it explores and the concrete democratic experiences it analyses and the challenges it makes to the existing concepts, paradigms and practices of liberal democracy

The Political Economy of the Cambodian Transition Caroline Hughes, 2003-09-02 Cambodia underwent a triple transition in the 1990s from war to peace, from communism to electoral democracy and from command economy to free market. This book addresses the political economy of these transitions, examining how the much publicised international intervention to bring peace and democracy to Cambodia was subverted by the poverty of the Cambodian economy and by the state's manipulation of the move to the free market. This analysis of the material basis of obstacles to Cambodia's democratisation suggests that the long-established theoretical link between economy and democracy stands even in the face of new strategies of international democracy promotion

Civil-military Relations David R. Mares, 2018-02-12 This book analyses the

normative and institutional aspects of the civil military relationship to demonstrate that it is the politics of the relationship rather than its form that influences the likelihood of democracy and regional peace. It is useful for policymakers, academics and general readers.

Democracy in Transition Kyriakos N. Demetriou, 2012-12-22. The papers in this collection, written by a cross-regional group of experts, provide insights into the causes of declining levels of citizen participation and other distinct forms of civic activism in Europe and explore a range of factors contributing to apathy and eventually disengagement from vital political processes and institutions. At the same time, this volume examines informal or unconventional types of civic engagement and political participation corresponding to the rapid advances in culture, technology and social networking. The volume is divided into three interrelated parts. Part I consists of critical essays in the form of theoretical approaches to analysing weakening political participation and citizen estrangement. Part II is dedicated to an exploration of the role and deployment of technologically advanced media such as the internet as determinants of changing patterns of political participationist behaviour. Finally, Part III presents findings of empirical research on the issue of political participation. Combining theoretical and empirical perspectives, the book contributes towards a better understanding of the disquieting trend of voter apathy and disenchantment with politics in the context of the ongoing process of European integration and offers a variety of analytical tools for decoding both the emergence of alternative conceptualizations of citizenship and other forms of meaningful civic and political engagement.

Political Culture and Institutional Development in Costa Rica and Nicaragua Consuelo Cruz, 2005-08-22. Democracy's checkered past and uncertain future in the developing world still puzzles and fascinates. In Latin America, attempts to construct resilient democracies have been as pervasive as reversals have been cruel. This book is based on a wealth of original historical documents and contemporary interviews with prominent political actors and analyses five centuries of political history in these paradigmatic cases of outstanding democratic success and abysmal failure. It shows that while factors highlighted by standard explanations matter, it is political culture that configures economic development, institutional choices and political pacts in ways that directly affect both democracy's chances and its quality. But it also claims that political culture is a dynamic combination of rational and normative imperatives that define actors' views of the permissible, shape their sense of realism, structure political struggles and legitimate the resulting distribution of power.

Political Trust and Disenchantment with Politics, 2014-12-04. That the publics of Western democracies are becoming increasingly disenchanted with their political institutions is part of the conventional wisdom in Political Science. This trend is often equated with the expectation that all forms of political attachment and participation show similar patterns of decline. Based on empirical underpinnings derived from a range of original and sophisticated comparative analyses from Europe and beyond, this collection shows that no such universal pattern of decline exists. Nor should it be expected, given the diversity of reasons that citizens have to place or withdraw trust and to engage in conventional political participation or in protest. Contributors are Christoph Arndt, Wiebke Breustedt, Christina Eder.

Political Culture in Libya Amal S M Obeidi, Amal Obeidi, 2013-09-05 Few empirical studies of Arab countries have dealt with political culture and political socialisation or focused on people's beliefs values and attitudes towards the government or political leaders mainly because the regimes have been reluctant to allow opinion to be tested The significance of this book is that it assesses the influence of state ideology on the new generation of Libyans and examines their political culture
