Robins, Barbara J.

Fraser, 2020-07-01 The natural wealth of the Amazon and Andes has long attracted fortune seekers from explorers farmers and gold panners to multimillion dollar mining oil and gas and timber operations Modern demands for commodities have given rise to new development schemes including hydroelectric dams open cast mines and industrial agricultural operations The history of human habitation in this region is intimately tied to its rich biodiversity and the Amazon basin is home to scores of indigenous groups many of whom have populations so small that their cultural and physical survival is endangered Landscapes of Inequity explores the debate over rights to and use of resources and addresses fundamental questions that inform the debate in the western Amazon basin from the Andes Mountains to the tropical lowlands Beginning with an examination of the divergent conceptual interpretations of environmental justice the volume explores the issue from two interlocking perspectives of indigenous peoples and of economic development in a global economy The volume concludes by examining the efficacy of laws and policies concerning the environment in the region the viability and range of judicial recourse and future directions in the field of environmental justice **The Politics of Economic Reforms in India** Jos

Mooij, 2005-03-24 The economic reforms that were initiated in India in the early nineties are the subject of intense debate Much of this debate centres around the scope of the reforms their progress and their impact on growth poverty reduction and sectoral development In contrast this volume focuses on the various political dimensions of the Indian economic reform process The contributors emphasize the political shaping of the reforms the politics of implementation and the impact of

reforms on political structures and processes Two major themes run through the book the relationship between policy reforms and democratic politics and the impact of reforms on the quality of governance Bringing together both theoretical contributions and case studies pertaining to particular states or sectors this volume provides insights into various important questions including How was a radical shift in policy possible in a democracy where the opposition can easily mobilize resistance How can reforms be sustained in a context where the majority of the voters are poor and attracted by handouts and where political parties are accustomed to attracting voters through populist policies Do the reforms contribute to more efficient and inclusive administrative and political governance or do they lead to new forms of corruption bureaucratic mismanagement and or undemocratic politics

Landscape as Territory Clara Olóriz, 2020-01-28 *Landscape as Territory* is a cartographic book project that critically addresses the agency of architects in the so called Urban Age understanding the notion of territory as a field of design praxis through which Interconnected landscapes are produced Territory understood as a political technology has the capacity to involve architects and designers into complex social political technical legal strategic and economic processes that are both historical and geographical engines of contemporary urbanization Islands in Northern Norway Territorial praxis is interrogated in a collection of threaded theory and design contributions where essays pose key questions that are addressed through projective cartographies unfolding arguments related to three sections 1 territory 2 critical cartographies and 3 agency

Monstrous Politics Ben Gerlofs, 2023-01-16 The birth of the world's great megacities is the surest and starkest harbinger of the urban age inaugurated in the twentieth century As the world's urban population achieves majority for the first time in recorded history theories proliferate on the nature of urban politics including the shape and quality of urban democracy the role of urban social and political movements and the prospects for progressive and emancipatory change from the corridors of powerful states to the routinized rhythms of everyday life At stake are both the ways in which the rapidly changing urban world is understood and the urban futures being negotiated by the governments and populations struggling to contend with these changes and forge a place in contemporary cities

Transdisciplinary by design Monstrous Politics first moves historically through Mexico City's turbulent twentieth century driven centrally by the contentious imbrication of the Institutional Revolutionary Party PRI and its capital city Participant observation expert interviews and archival materials demonstrate the shifting strategies and alliances of recent decades provide the reader with a sense of the texture of contemporary political life in the city during a time of unprecedented change and locate these dynamics within the history and geography of twentieth century urbanization and political revolution Substantive ethnographic chapters trace the emergence and decline of the political language of the right to the city the establishment and contestation of a postpolitical governance regime and the culmination of a century of urban politics in the processes of political reform by which Mexico City finally wrested back significant political autonomy and local democracy from the federal state A four fold transection of the revolutionary structure of feeling that pervades the city in this historic

moment illustrates the complex and contradictory sentiments appraisals and motivations through which contemporary politics are understood and enacted Drawing on theories of social revolution that embrace complexity and espousing a methodology that foregrounds the everyday nature of politics Monstrous Politics develops an understanding of revolutionary urban politics at once contextually nuanced and conceptually expansive and thus better able to address the realities of politics in the urban age even beyond Mexico City

The Digital Citizenship in the European Union framework. Political, Economic, Sociological, and Legal Issues Raffaele Torino, 2024-12-31

Fra i principali risultati del Modulo Jean Monnet La Cittadinanza Digitale per l'Unione Europea coordinato da Raffaele Torino il volume analizza il tema della cittadinanza digitale nel contesto del processo di integrazione europea non solo da una prospettiva giuridica ma anche nei suoi aspetti politici economici e sociologici La scelta metodologica di ricercare e insegnare la Cittadinanza Digitale attraverso una pluralità di approcci epistemologici si rivela la naturale conseguenza dell'attitudine degli studenti di Scienze Politiche a costruire il proprio sapere in maniera multidisciplinare Il volume esplora molteplici sfaccettature della cittadinanza digitale e l'impatto della digitalizzazione sulle relazioni di cittadinanza intese in senso ampio in una realtà in continua evoluzione sebbene ormai non più del tutto nuova di relazioni giuridiche economiche e sociali in cui l'individuo europeo diventa cittadina e cittadino di un mondo digitale DOI 10.13134/9791259774033
