Political Elites In Anglo American Democracies International Yearbook For Studies Of Leaders And Leadership:

Political Elites in Anglo-American Democracies Harold D. Clarke, Moshe M. Czudnowski, 1987-01-01 Ulrich's International Periodicals Directory Carolyn Farquhar Ulrich, 1998 Anthropological Journal on European Cultures , 1993

Politische Klasse und politische Institutionen Richard Stöss, 2013-04-17 Im Mittelpunkt der 18 Originalbeiträge steht das für die Entwicklung moderner Gesellschaften zentrale Problem der Wechselbeziehung von politischen Führungsgruppen und politischen Institutionen In theoretischer und empirischer Perspektive wird vor allem ein Thema variiert die Bedeutung politischer Führungsgruppen für die politische Willensbildung der Gesellschaft Neben den klassischen Fragen der Elitenforschung zur Herkunft und Rekrutierung der politischen Klasse sowie Fragen der politischen Repräsentation werdendie Aspekte von Konflikt und Konsens von Innovation und Wandel behandelt Elitism and Democracy Robertino Ghiringhelli, 1992 **Books in Series** , 1985 Vols for 1980 issued in three parts Series Authors and Titles Memories of the Future Wendell Bell, 2017-09-08 Life courses both professional and personal are often directed by unplanned experiences At crossroads which path is followed and which hard choices are made can change the direction of one's future Wendell Bell's life illustrates how totally unforeseen events can shape individual lives As he notes despite our hopes and our plans for the future there is also serendipity feedback twists and turns chance and circumstance all of which shape our futures with sometimes surprising results In Bell's case such twists and turns of chance and circumstance led to his role in developing the new field of futures studies In Memories of the Future Bell recognizes the importance of images of the future and the effect of these images on events to come Such images dreams visions or whatever we call them help to determine our actions which in turn help shape the future although not always in ways that we intend Bell illustrates partly with the story of his own life how people remember such past images of the future and how the memories of them linger and are often used to judge the real outcomes of their lives This is a fascinating view of the work of an important social scientist and the people and events that helped define his life It is also about American higher education especially from the end of World War II through the 1960s and 1970s a period of educational transformation that included the spread of the merit system the increase in ethnic racial gender and social diversity among students and faculty and a massive increase in research and knowledge **Books in Series, 1876-1949** R.R. Bowker Company, 1982 **Foundations of Futures Studies** Wendell Bell, 2017-07-28 Futures studies is a new field of inquiry involving systematic and explicit thinking about alternative futures Wendell Bell's two volume work Foundations of Futures Studies is widely acknowledged as the fundamental work on the subject In Volume 2 Bell goes beyond possible and probable futures to the study of preferable futures He shows that concern with ethics morality and human values follows directly from the futurist purposes of discovering or inventing examining and proposing desirable futures He examines moral judgments as an inescapable aspect of all decision making and conscious action even in the everyday lives of ordinary people Now available in paperback with a new preface from the author Volume 2 of Foundations of

Futures Studies moves beyond cultural relativism to critical evaluation Bell compares depictions of the good society by utopian writers describes objective methods of moral judgment assesses religion and law as sources of what is morally right documents the existence of universal human values and shows that if human beings are to thrive in the global society of the future some human values must be changed Foundations of Futures Studies Jose Valciukas, 2017-07-05 Futures studies is a new field of inquiry involving systematic and explicit thinking about alternative futures It aims to demystify the future make possibilities for the future more known to us and increase human control over the future This book summarizes and expands contributions of futurists to the envisioning power and well being of humanity Bell brings together futurist intellectual tools describing and explaining not only the methods but also the nature concepts theories and exemplars of the field Foundations of Futures Studies fulfills Bell's five main purposes for writing this two volume effort 1 to show that futures studies like other fields from anthropology to zoology exists as an identifiable sphere of intellectual activity 2 to create a teaching instrument that can be used as a basic text for core courses in futures studies 3 to futurize the thinking of specialists in other disciplines 4 to contribute to the further development and improvement of futures studies and 5 to provide tools to empower both ordinary people and leaders to act in ways that create better futures for themselves and their societies Bell maintains that despite its sometimes doomsday rhetorical style and widespread use by special interests futures studies offers hope for the future of humanity and concrete ways of realizing that hope in the real world of our everyday lives It will appeal to all interested in futures studies as well as sociologists economists political scientists and historians **Books in Print**, 1991

The President's Report to the Board of Regents for the Academic Year ... Financial Statement for the Fiscal Year University of Michigan, 1983 Democratic Representation in Europe Maurizio Cotta, Heinrich Best, 2007-11-08 Democratic Representation in Europe Diversity Change and convergence explores representation as a core element of democracies in the modern era Over the past 150 years parliamentary representation has developed into a main link between polity and society and parliamentary representatives have come to form the nucleus of political elites The twenty authors of the 16 chapters follow a comparative and empirical approach by exploiting the unique longitudinal data base of the EURELITE project which has gathered standardized evidence about the structures of parliamentary representation in 11 European countries and their development over time in many countries over 160 years Following on from an earlier book by the same editors *Parliamentary Representatives in Europe 1848 2000* which focused on trends in single European countries *Democratic Representation in Europe* pursues a trans national approach by comparing the mechanisms and modes of parliamentary recruitment and career formation between the main party families and various categories of the population in European societies Such cross national analyses which include a longitudinal account of female representation throughout modern European parliamentary history have not been attempted before The book concludes with longitudinal in depth analyses of cleavage representation in European parliamentary history and of the impact of the institutional factor on political elites

transformations Democratic Representation in Europe contributes to a better understanding of relations between social and political change and of the importance of institutional factors in shaping the political elites of European democracies In so doing it can help substantiate theoretical debates in the social and political sciences on issues such as historical institutionalism and path dependency *Subject Guide to Books in Print*, 1997 **1974 Annual Supplement** Joan Schmitz Bergholt, 2013-12-21 **Forthcoming Books** Rose Arny, 2002 Gaetano Mosca, scienza politica e regime rappresentativo nell'età contemporanea Carlo Mongardini, 1995 Региональные элиты России Алла Евгеньевна Чирикова, 2010 **The Knesset** Gregory S. Mahler, 1981 A study of the Knesset based on a series of interviews with members of the Eighth Knesset 1973 77 this book is a revealing picture of the Israeli political system and the individuals who work within it

Netherlands Yearbook of International Law 2018 Janne E. Nijman, Wouter G. Werner, 2019-10-17 This volume of the Netherlands Yearbook of International Law explores the many faces of populism and the different manifestations of the relationship between populism and international law Rather than taking the so called populist backlash against globalisation international law and governance at face value this volume aims to dig deeper and wonders What backlash are we talking about really While populism is contextual and contingent on the society in which it arises and its relationship with international law and institutions thus has differed likewise this volume assists in our examination of what we find so dangerous about populism and problematic in its relationship with international law The Netherlands Yearbook of International Law was first published in 1970 It offers a forum for the publication of scholarly articles in a varying thematic area of public international law div
