Separate but Unequal Frances Widdowson, 2019-11-05 Separate but Unequal provides an in depth critique of the ideology of parallelism the prevailing view that Indigenous cultures and the wider Canadian society should exist separately from one another in a nation to nation relationship Using the Final Report of the Royal Commission on Aboriginal Peoples as an example this historical and material analysis shows how the single minded pursuit of parallelism will not result in a more balanced relationship between Indigenous and non Indigenous peoples On the contrary it merely restores archaic economic political and ideological forms that will continue to isolate the Indigenous population This book provides an alternative framework for examining Indigenous dependency This new perspective the political economy of neotribal rentierism shows that Indigenous Peoples circumstances have been inextricably linked to the development of capitalism in Canada While Indigenous Peoples were integral participants in the fur trade the transition from mercantilism to industrial capitalism led to their marginalization This book is published in English Separate but Unequal fournit une analyse approfondie de l'idéologie du parallélisme la vision dominante selon laquelle les cultures autochtones et la société canadienne en général devraient vivre séparément les unes des autres dans une relation de nation à nation En s'appuyant sur le rapport final de la Commission royale sur les peuples autochtones cette analyse historique et matérielle montre que les propositions parallèles visant accroître l'autonomie des Autochtones dans tous les aspects des politiques publiques ne se solderont pas en une relation plus équilibrée entre peuples autochtones et non autochtones tant donné qu'elles ne font que rétablir des formes économiques politiques et idéologiques archaïques qui continueront d'isoler la population autochtone Elle propose de recadrer la question de la dépendance autochtone en ayant recours la notion de rentierisme néotribal Ce cadre d'économie politique met en lumière le fait que les conditions des peuples autochtones ont été inextricablement liées au développement du capitalisme au Canada Ce livre est publié en anglais

The Myth of the Sacred Donald E. Abelson, Patrick James, Michael Lusztig, 2002 In this collection the authors challenge the myth of the sacred the idea that certain aspects of

the constitutional process judicial political behaviour interest group politics and centralization of power are untouchable politically They suggest that certain actors and institutions have contributed to a myth about the normative basis of Canadian constitutional politics a myth perpetuated through the popular media as well as much of the scholarly literature Such actors often disguise their overtly political behavior with a cloak of impartiality presenting their actions as furthering the public good and therefore immune to challenge The Myth of the Sacred seeks to challenge this ideal At its core this myth embodies the Trudeauian ideal of Canadian society one that features a constitution that empowers impartial judges at the expense of politically motivated legislators one that allows each individual to enjoy a uniform range of rights freedoms and means of belonging to the larger Canadian society and one that seeks to ensure the primacy of the national government rather than the provincial Trudeau called his vision the Just Society But justice is an illusive and amorphous concept Defining it much less institutionalizing it is fraught with risk In modern liberal democracies justice is typically understood as the product of some mix of liberty and equality process and substance with the amount of each component varying according to taste It is not unusual for political actors to seek to institutionalize their own formulas for justice but it is also not reasonable to expect these formulas to go unchallenged Such a challenge represents the dominant theme of this volume Contributors include Donald E Abelson Tom Flanagan University of Calgary Patrick James James B Kelly Brock University Michael Lusztig Christopher P Manfredi McGill University Hudson Meadwell McGill University Anthony A Peacock Utah State University Mark Rush Washington and Lee University and Shannon I Smithey Kent State University

Ideology and Hegemony of English Foreign Language Textbooks Ömer Gökhan Ulum, Dinçay Köksal, 2020-01-27 This volume investigates ideological and hegemonic practices in globally and locally written English as a Foreign Language EFL textbooks and explores whether these textbooks reflect the values beliefs and norms of the native speaker society by examining their ideological components and the hegemonic practices by means of which the source society or state seeks to influence learners of the language It also attempts to clarify EFL teachers and students views on the underlying ideology and hegemonic practices in globally and locally written EFL textbooks Studies on the relationship between ideology hegemony and textbooks in applied linguistics have become more prevalent in recent decades as the emergence of critical theory critical pedagogy and critical thinking skills from the 1920s onwards has led scholars to adopt a more critical perspective towards EFL textbooks especially with regard to elements of ideology and hegemony These two terms encompass a plethora of components ranging from nationalism to religion At the same time the importance of metanarratives originating from the tenets of modernism has declined from the 1960s onwards the assumption being that the world has entered a new age called postmodernism and post structuralism that emphasizes the role of individuals and rejects efforts to reinforce post colonialism the effects of which can be seen in EFL textbooks Accordingly taking the elements of ideology and hegemony into account remains a vital aspect in the analysis of EFL textbooks

Arresting Development Craig Johnson, 2008-11-28 Scholars have become increasingly

concerned about the impact of neo liberalism on the field of development Governments around the world have for some time been exposed to the forces of globalization and macro economic reform reflecting the power and influence of the world s principal international economic institutions and a broader commitment to the principles of neo classical economics and free trade Concerns have also been raised that neo classical theory now dominates the ways in which scholars frame and ask their questions in the field of development This book is about the ways in which ideologies shape the construction of knowledge for development A central theme concerns the impact of neo liberalism on contemporary development theory and research The book s main objectives are twofold One is to understand the ways in which neo liberalism has framed and defined the meta theoretical aims and assumptions of what is deemed relevant important and appropriate to the study of development A second is to explore the theoretical and ideological terms on which an alternative to neo classical theory may be theorized idealized and pursued By tracing the impact of Marxism postmodernism and liberalism on the study of development Arresting Development contends that development has become increasingly fragmented in terms of the theories and methodologies it uses to understand and explain complex and contextually specific processes of economic development and social change Outside of neo classical economics and related fields of rational choice the notion that social science can or should aim to develop general and predictive theories about development has become mired in a philosophical and political orientation that questions the ability of scholars to make universal or comparative statements about the nature of history cultural diversity and progress To advance the debate a case is made that development needs to re capture what the American sociologist Peter Evans once called the comparative institutional method At the heart of this approach is an inductive methodology that searches for commonalities and connections to broader historical trends and problems while at the same time incorporating divergent and potentially competing views about the nature of history culture and development This book will be of interest to scholars and students of Development Social and Political Studies and it will also be beneficial to professionals interested in the challenge of constructing knowledge for development

Amentahru Wahlrab, Michael J. Islamic centrism and drawing from examples throughout the MENA region the book deals with the perception of Arabs and Arab culture in the American psyche and its effect on East West relations By analyzing both Western responses to uprisings and the reactions of the protestors themselves the contributors expose theoretical and practical inconsistencies that suggest a rising tension between those that promote democracy and those who practice it **After the new social democracy** Tony Fitzpatrick,2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Social democracy has made a political comeback in recent years especially under the influence of the Third Way Not everyone is convinced however that Third Way social democracy is the best means of reviving the Left s project This book considers this dissent and offers an alternative approach Bringing together a range of social and political theories it engages with some contemporary debates regarding the present direction and future of the Left Drawing upon egalitarian feminist and environmental ideas the book proposes that the social democratic tradition can be renewed but only if the dominance of conservative ideas is challenged more effectively It explores a number of issues with this aim in mind including justice the state democracy new technologies future generations and the advances in genetics Global Jihad in Muslim and non-Muslim Contexts Jonathan Matusitz,2020-06-12 This book examines ten reasons for global jihad today Specifically the reasons are 1 radicalization 2 group dynamics and socialization 3 social alienation 4 religious motivations 5 legal motivations 6 political motivations 7 a Clash of Civilizations 8 economic conditions 9 transformative learning and 10 outbidding and internal rifts To investigate these points all chapters include the historical background specific case studies both past and current statistics and theoretical approaches to the subject of global jihad The main purpose of jihad is to achieve global domination through any means including violence and establish the Caliphate The Caliphate is a Muslim system of world government that seeks to establish a new world order by overthrowing the current order effectively creating an all encompassing Islamic state *Law Books in Print: Author index* Nicholas Triffin,1997
