Jerry F. Hough

Political Leadership In The Soviet Union:

Political Leadership in the Soviet Union Archie Brown, 1989-10-13 The central leadership of the Soviet political system in Moscow is analyzed by a group of Western political researchers The text covers the entire Soviet period from 1917 to the present day but special emphasis is placed on the post Stalin years and new developments of the 1980s **Collective Leadership in Soviet Politics** Graeme Gill, 2018-03-21 This book studies the way in which the top leadership in the Soviet Union changed over time from 1917 until the collapse of the country in 1991 Its principal focus is the tension between individual leadership and collective rule and it charts how this played out over the life of the regime The strategies used by the most prominent leader in each period Lenin Stalin Khrushchev Brezhnev and Gorbachev to acquire and retain power are counterposed to the strategies used by the other oligarchs to protect themselves and sustain their positions This is analyzed against the backdrop of the emergence of norms designed to structure oligarch politics The book will appeal to students and scholars interested in the fields of political leadership Soviet politics and Soviet history Soviet Politics Richard Sakwa, 2012-11-12 Soviet Politics in Perspective is a new edition of Richard Sakwa's successful textbook Soviet Politics an introduction Thoroughly revised and updated it builds on the previous editions comprehensive and accessible exploration of the Soviet system from its rise in 1919 to its collapse in 1991 The book is divided into five parts which focus on key aspects of Soviet politics They are historical perspectives beginning with the Tsarist regime on the eve of Revolution the rise and development of Stalinism through to the decline of the regime under Brezhnev and his successors and Gorbachev's attempts to revive the system institutions of Government such as the Communist Party security apparatus the military the justice system local government and participation theoretical approaches to Soviet politics including class and gender politics the role of ideology and the shift from dissent to pluralism key policy areas the command economy and reform nationality politics and foreign and defence policy an evaluation of Soviet rule and reasons for its collapse Providing key texts and bibliographies this book offers the complete history and politics of the Soviet period in a single volume It will be indispensable to students of Soviet and post Soviet politics as well as the interested general reader **Political Leadership in Eastern Europe and the Soviet Union** Northwestern University (Evanston, Ill.), 1970 **The Separation of the Party and the State** Vinayank N. Srivastava, 2019-05-29 First published in 1999 this volume is the first full length study of one of the most important political institutions of the erstwhile Soviet political system the Central Committee of the Communist Party of the Soviet Union CPSU The originality of this work lies in its main argument that the central reform during Perestroika was that of the Party and the State a reform which ultimately resulted in the CPSU and its institutions the Central Committee being one of the most vital among them firstly surrendering the monopoly over political power and control over the instrumentalities of the State and secondly systematically de institutionalising and dismantling the formidable Soviet political system The seeds of transformation and the shape of politico economic and socio cultural systems that emerged in successor States were laid

down during the Soviet era in particular during Perestroika itself The continuity is therefore as striking as the change if not more so

Global Political Leadership Małgorzata Zachara-Szymańska ,2022-01-01 Global Political Leadership explores contemporary shifts in leadership and the related leadership crisis in the global world Globalization is now perceived as a threatening and hostile force with many of its advocates and political supporters turning away from it but its processes cannot be reversed New powers emerge old ones re emerge and uncertainty about the future global order is increasing This book tells the inside stories of global power games and asks important questions about the leadership crisis in the western world The author provides an interpretative framework for contemporary shifts within the western political sphere based on the concept of global leadership This framework presents the nature of the transformation caused by global processes as part of which force and coercion have ceased to be the main modus operandi of the international realm The issue of global political leadership has often been neglected in international relations literature while being widely exploited by managerial and organizational studies However all social organizations have gone global within the last several decades they are more interconnected and more dependent on global processes so the question of effective leadership strategies matching these new realities is highly necessary even or especially at a time when globalization is no longer seen as a leading political programme This book will be of great interest to students and scholars of global affairs politics and international relations leadership and development and diplomatic studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

A Psychoanalytic Study of Political Leadership in the United States and Russia Karyne E. Messina,2024-05-20 A Psychoanalytic Study of Political Leadership in the United States and Russia

Searching for Truth provides psychoanalytic insight into the motives of this complex and contradictory figure. The contributors from different professional and academic backgrounds use a range of methods including quantitative research and literary analysis to shed light on Putin's background, outlook and current actions. Reflecting a range of perspectives on how Putin's background may have informed his beliefs and his actions, particularly with respect to the invasion of Ukraine, the book brings together diverse viewpoints. A Psychoanalytic Study of Political Leadership in the United States and Russia will be of great interest to psychoanalysts and to readers seeking to understand the complex dynamics of populist leadership.

Political Leadership in a Global Age Jean-Pascal Daloz, 2019-06-11. Title first published in 2003. Responses to globalisation in politics and governance at national, regional and local levels of government in France and Norway are explored in this engaging study.

Local Politics in Communist Countries Daniel N. Nelson, 2021-11-21. There are many reasons why it is important to study local politics: political culture, government, political process in Communist party states. As in all politics, local politics in Communist party states are the political articulation of the local community. This is the political arena where policies concerning local issues are formulated by the officials. This is where the officials are approached by citizens with their particular demands. This is where citizens articulate their preferences, aspirations and values through political participation. And this is where officials, both elected and appointed, are recruited. In this volume, Daniel N. Nelson has assembled a team of international scholars to consider local politics in Communist party states including the U.S.S.R., China, Poland, Yugoslavia and Romania. Together they explore how local social and political forces are articulated in the national and party organizations; they also reveal how the study of comparative local politics provides vitality for the study of national politics. Rather than treating local communities as receivers and translators of national inputs, the contributors demonstrate that the local dimension and national politics mutually influence one another and illuminate the social reality in communist societies.

Political Leadership Between Democracy and Authoritarianism Jerzy J. Wiatr, 2022-01-17. In diesem Buch wird die Theorie der politischen Führung, die ein noch wenig erforschtes Feld der Politikwissenschaft ist, beleuchtet. Sie ist verwandt mit dem philosophischen Streit um Determinismus versus Aktivismus und hilft den Grundkonflikt des 21. Jahrhunderts zwischen liberaler Demokratie und neuem Autoritarismus zu verstehen. Das Buch befasst sich mit Max Webers Typologie politischer Herrschaft und seinem Konzept der Verantwortungsethik, welche der Schlüssel zur Theorie der Führung sind. Der Autor zeigt auf, dass der unvollendete Wettstreit zwischen Demokratie und neuem Autoritarismus im 21. Jahrhundert die Bedeutung von Führung in alten und neuen Demokratien sowie in den neoautoritären Regimen bestärkt und einen neuen Typus politischer Führungskraft fordert.
