Political Liberalization and Democratization in the Arab World, 1998 *Political Liberalization and Democratization in the Arab World* Rex Brynen, Bahgat Korany, Paul Noble, 1995 The Arab world is experiencing a variety of factors internal and external that are leading to change This work examines such factors that are shaping political liberalisation and democratisation in the Arab context as well as the role played by particular social groups The Foreign Policies of Arab States Bahgat Korany, 2010-03-01 The first edition of this book was praised as a milestone for present and future research on Arab and Third World foreign policies American Political Science Review and an indispensable aid for those studying or teaching the foreign policies of the contemporary Middle East International Journal of Middle East Studies It has become a standard textbook in Middle East studies curricula all over the world This third edition now in paperback with new material reflecting the earth shaking events at the end of the Cold War and the continuation of violence and terrorism examines foreign policies of nine Arab states in the context of globalization The editors first establish an analytical framework for assessing foreign policy which they and other contributors then apply chapter by chapter to Egypt Saudi Arabia Jordan Syria Lebanon Sudan the United Arab Emirates Algeria and Iraq Contributors Moataz A Fattah Karen Abul Kheir Ali E Hillal Dessouki Hazem Kandil Bahgat Korany Ann M Lesch Abdul Monem Al Mashat Paul Noble Jennifer Rosenblum Bassel F Salloukh Mohamed Soffar William Zartman Foreign Policy Analysis in the Global Era and the World of the Arabs Bahgat Korany and Ali E Hillal Dessouki Foreign Policy Approaches and Arab Countries A Critical Evaluation and an Alternative Framework Bahgat Korany and Ali E Hillal Dessouki Globalization and Arab Foreign Policies Constraints or Marginalization Ali E Hillal Dessouki and Bahgat Korany From Arab System to Middle Eastern System Regional Pressures and Constraints Paul Noble Regional leadership Balancing off Costs and Dividends Foreign Policy of Egypt Ali E Hillal Dessouki Foreign Policy under Occupation Does Iraq Need a Foreign Policy Mohamed Soffar Does the Successor Make a Difference The Foreign Policy of Jordan Ali E Hillal Dessouki and Karen Abul Kheir The Art of the Impossible The Foreign Policy of Lebanon Bassel F Salloukh The Far West of the Near East The Foreign Policy of Morocco Jennifer Rosenblum and William Zartman Irreconcilable Role Partners Saudi Foreign Policy between the Ulama and the U S Bahgat Korany and Moataz A Fattah From Fragmentation to Fragmentation Sudan s Foreign Policy Ann M Lesch The Challenge of Restructuring Syrian Foreign Policy Hazem Kandil Politics of Constructive Engagement The Foreign Policy of the United Arab Emirates Abdul Monem Al Mashat Conclusion Foreign Policy Globalization and the Arab Dilemma of Change Bahgat Korany and Ali E Hillal Dessouki **The Modern Middle East** Mehran Kamrava, 2011-01-03 Since it was first published in 2006 this concise overview of the making of the contemporary Middle East has become essential reading for students and general readers who want to gain a better understanding of this diverse region Writing for a wide audience Mehran Kamrava takes us from fall of the Ottoman Empire to today exploring along the way such central issues as the dynamics of economic development

authoritarian endurance and the Israel Palestinian conflict For this new thoroughly revised edition he has brought the book fully up to date by incorporating events and issues of the past few years The Modern Middle East now includes information about the June 2009 Iranian presidential elections and their aftermath changes precipitated so far by the Obama administration Israel's attack on Gaza in 2008 the effects of globalization on economic development and more *The Modern Middle East, Third Edition* Mehran Kamrava, 2013-10-05 From the fall of the Ottoman Empire through the Arab Spring this title offers a classic treatise on the making of the contemporary Middle East remains essential reading for students and general readers who want to gain a better understanding of this diverse region Elections in Asia and the Pacific Dieter Nohlen, Florian Grotz, Christof Hartmann, 2001 This work continues the series of election data handbooks published by OUP It presents a compendium of electoral data for all the 62 states in Asia Australia and Oceania from their independence to the beginning of the 21st century **Anatomy of Authoritarianism in the Arab Republics** Joseph Sassoon, 2016-02-24 Examines the system of authoritarianism in eight Arab republics including life under these regimes and the mechanisms underpinning their resilience *Informal Power in the Greater Middle East* Luca Anceschi, Gennaro Gervasio, Andrea Teti, 2014-02-05 Over the last decade or so academic and non academic observers have focussed mainly if not exclusively on the institutions and places of formal power in the Greater Middle East depicting politics in the region as a small area limited to local authoritarian rulers In contrast this book aims to explore the hidden geographies of power i.e the political dynamics developing inside in parallel to and beyond institutional forums arguing that these hidden geographies play a crucial role both in support of and in opposition to official power By observing less frequented spaces of power co option and negotiation and particularly by focusing on the interplay between formal and informal power this interdisciplinary collection provides new insights in the study of the intersection between policy making and practical political dynamics in the Greater Middle East Contributing a fresh perspective to a much discussed topic *Informal Power in the Greater Middle East* will be an invaluable resource for students scholars and those interested in the politics of the region *NGOs and Transnational Networks* William E. DeMars, 2005-04-20 Non Governmental Organisations and their networks are proliferating in all regions of the world They address every transnational issue from population to peace human rights to species rights genocide to AIDS Supporters claim NGOs are effective in achieving their goals while detractors counter that NGO power is paltry compared to governments and corporations Challenging both views DeMars irreverently reveals the political claims implicit in every transnational NGO They are best conceptualised he argues not in terms of either principles or power but through the partners they make in transnational society and politics NGOs and transnational networks institutionalise conflict as much as cooperation and reshape states and societies often inadvertently NGOs have overthrown dictators provided life support for collapsed states and reengineered the family Their historical origins contrast sharply with current realities and show signs of radical change in the future **Religion and Politics in the Developing World** Rolin

Mainuddin,2018-01-12 This title was first published in 2002 What is the relationship between religion and politics How are they associated in the developing world When does the interface between them result in violence This volume attempts to answer these questions In particular the objective is to understand the circumstances that lead to explosive interactions between religion and politics in the developing world However this focus does not imply a perpetual tension between the religious and political spheres Rather it explores those historical moments when the relationship does break down and often ends in violent conflicts The contributors have expertise in fields such as anthropology history and political science False Dawn Steven A. Cook,2017-05-01 Half a decade after Arabs across the Middle East poured into the streets to demand change hopes for democracy have disappeared in a maelstrom of violence and renewed state repression Egypt remains an authoritarian state Syria and Yemen are in the midst of devastating civil wars Libya has descended into anarchy and the self declared Islamic State rules a large swath of territory Even Turkey which also experienced large scale protests has abandoned its earlier shift toward openness and democracy and now more closely resembles an autocracy How did things go so wrong so quickly across a wide range of regimes In False Dawn noted Middle East regional expert Steven A Cook looks at the trajectory of events across the region from the initial uprising in Tunisia to the failed coup in Turkey to explain why the Middle Eastern uprisings did not succeed Despite appearances there were no true revolutions in the Middle East five years ago none of the affected societies underwent social revolutions and the old structures of power were never eliminated Even supposed successes like Tunisia still face significant barriers to democracy because of the continued strength of old regime players Libya the state that came closest to revolution has fragmented into chaos and Turkey s president Recep Tayyip Erdogan has used the recent coup against him as grounds for a widespread crackdown on his opponents reinforcing the Turkish leader s personal power After taking stock of how and why the uprisings failed to produce lasting change Cook considers the role of the United States in the region What Washington cannot do Cook argues is shape the politics of the Middle East going forward While many in the policymaking community believe that the United States must get the Middle East right American influence is actually quite limited the future of the region lies in the hands of the people who live there Authoritative and powerfully argued False Dawn promises to be a major work on one of the most important historical events of the past quarter century The Greater Middle East in Global Politics Mehdi Parvizi Amineh,2007 This anthology unites in one volume two studies of the Greater Middle East in global politics each conceptual and empirical First it is a historical comparative study of politics and societies in selected Greater Middle Eastern countries Second it is an empirical case study of states and societies of the Greater Middle East in global politics Of Empires and Citizens Amaney A. Jamal,2012-09-09 In the post Cold War era why has democratization been slow to arrive in the Arab world This book argues that to understand support for the authoritarian status quo in parts of this region and the willingness of its citizens to compromise on core democratic principles one must factor in how a strong U S presence and popular anti Americanism weakens democratic

voices Examining such countries as Jordan Kuwait Morocco Palestine and Saudi Arabia Amaney Jamal explores how Arab citizens decide whether to back existing regimes regime transitions and democratization projects and how the global position of Arab states shapes people s attitudes toward their governments While the Cold War s end reduced superpower hegemony in much of the developing world the Arab region witnessed an increased security and economic dependence on the United States As a result the preferences of the United States matter greatly to middle class Arab citizens not just the elite and citizens will restrain their pursuit of democratization rationalizing their backing for the status quo because of U S geostrategic priorities Demonstrating how the preferences of an international patron serve as a constraint or an opportunity to push for democracy Jamal questions bottom up approaches to democratization which assume that states are autonomous units in the world order Jamal contends that even now with the overthrow of some autocratic Arab regimes the future course of Arab democratization will be influenced by the perception of American reactions Concurrently the United States must address the troubling sources of the region s rising anti Americanism

Democratization Tatu Vanhanen, 2004-02-24 This book examines the relationship between indicators of resource distribution and democratization in the group of 170 countries with data ranging from the 1850s to the present day Vanhanen constructs a compelling argument concluding that the emergence of democracy is closely linked to resource distribution

Why Muslims Rebel Mohammed M. Hafez, 2003 Rejecting theories of economic deprivation and psychological alienation Mohammed Hafez offers a provocative analysis of the factors that contribute to protracted violence in the Muslim world today Hafez combines a sophisticated theoretical approach and detailed case studies to show that the primary source of Islamist insurgencies lies in the repressive political environments within which the vast majority of Muslims find themselves Highlighting when and how institutional exclusion and indiscriminate repression contribute to large scale rebellion he provides a crucial dimension to our understanding of Islamic politics

Religion, Secularism and Politics Jeffrey Haynes, Guy Ben-Porat, 2018-10-24 Political debates in many Mediterranean countries today are increasingly framed in dichotomous terms highlighting divisions between religious and secular worldviews The role of religion in public life or put another way the public return of religion is a pertinent and controversial political question everywhere in the Mediterranean region How do we explain this phenomenon On the one hand we can point to both economic and demographic changes while on the other we can trace the impact of continuing secularisation Together these two sets of developments produce new challenges to existing political arrangements This book examines the contemporary interaction of religion and politics in the Mediterranean region with a specific focus on democratization and democracy and the role in this context of selected religious actors Individual contributions focus on several European countries France Italy and Turkey while others are concerned with states in the Middle East and North Africa Egypt Israel Morocco and Tunisia Among European countries France is widely regarded as a highly secular country with over 50% of people regarding themselves as without religion Morocco on the other hand is a much more religious

country measured by the fact that an estimated 94.5% of Moroccans self identify themselves as Muslims. The specific country studies were selected because whether they are religious or not, each case has current controversies involving both religious and secular actors which impact upon key political relationships centrally involving religion, secularization and democratization, democracy. This book was published as a special issue of *Mediterranean Politics*. **Quest for Democracy** Line Khatib, 2022-11-03. Examines the underground and overlooked actors and activities of liberal activism and liberal counter cultures in the modern Arab world.

Inside the Arab State Mehran Kamrava, 2018-08-15. The 2011 Arab uprisings and their subsequent aftermath have thrown into question some of our long held assumptions about the foundational aspects of the Arab state. While the regional and international consequences of the uprisings continue to unfold with great unpredictability, their ramifications for the internal lives of the states in which they unfolded are just as dramatic and consequential. States historically viewed as models of strength and stability have been shaken to their foundations. Borders thought impenetrable have collapsed, sovereignty and territoriality have been in flux. This book examines some of the central questions facing observers and scholars of the Middle East concerning the nature of power and politics before and after 2011 in the Arab world. The focus of the book revolves around the very nature of politics and the exercise of power in the Arab world: conceptions of the state, its functions and institutions, its sources of legitimacy and basic notions underlying it such as sovereignty and nationalism. *Inside the Arab State* adopts a multi disciplinary approach examining a broad range of political, economic and social variables. It begins with an examination of politics and more specifically political institutions in the Arab world from the 1950s on, tracing the travail of states and the wounds they inflicted on society and on themselves along the way until the eruption of the 2011 uprisings. The uprisings, the states' responses to them and efforts by political leaders to carve out for themselves means of legitimacy are also discussed, as are the reasons for the emergence and rise of Daesh and the Islamic State. Power, I argue, and increasingly narrow conceptions of it in terms of submission and conformity remain at the heart of Arab politics, popular protests and yearnings for change notwithstanding. Much has changed in the Arab world over the last several decades. But even more has stayed the same.

Palgrave Advances in Development Studies J. Haynes, 2005-04-21. *Palgrave Advances in Development Studies* aims to provide readers with an understanding of the disparate theories concerning development, their assumptions and the intellectual forces underpinning them. In thirteen specially commissioned essays, leading contributors from the field of Development Studies present the relevant material to analyze and evaluate current debates about development together with the intellectual tools to judge contemporary arguments concerning development across the world and the ability to relate theories of development to contemporary policy issues.

Inter-Arab Alliances Curtis R. Ryan, 2009-01-04. There is a method to the apparent madness of Arab politics. In a region where friends can become enemies and enemies become friends seemingly at the drop of the hat, Curtis Ryan argues that there is logic to be found. Through fourteen years of field research and interviews with key policy makers, Ryan examines

the remarkably stable Jordan as a microcosm of the region's politics. He traces the last four decades of Jordanian foreign policy in an attempt to better understand what seems like chaos. What Ryan finds is an approach that is fundamentally different from alliances made in the West in both how and why they are made. With governmental change and upheaval occurring on a seemingly regular basis, Arab nations approach diplomacy with much different means and potential ends. The impact of this diplomacy is arguably the most immediate in the world today as conflict with words and conflict with weapons are sometimes separated by mere days. The topic of international relations in the Arab world is as complex as it is important. Ryan gives the reader the theoretical background and shows its direct applicability through the foreign policy of Jordan.
