## **Political Participation And Learning:**

*Political Participation and Learning* Kenneth P. Langton, 1980      Education for Civic and Political Participation Reinhold Hedtke, Tatjana Zimenkova, 2013 Participation as an element of active citizenship in democracies is a key project of international and national educational policy Institutionalized approaches for compulsory schools provide participatory access to all young European citizens But does this picture depict the possibilities and practices of participation appropriately Can this standard approach to participation be translated into action in view of diverse polities policies political cultures institutions and practices of participation This book explores what prerequisites must be given for a successful implementation of such a comprehensive international project      **Handbook of Research on Adult Learning and Development** M Cecil Smith, Nancy DeFrates-Densch, Assistant Editor, 2008-11-19 The time is right for this comprehensive state of the art Handbook that analyzes integrates and summarizes theoretical advances and research findings on adult development and learning a rapidly growing field reflecting demographic shifts toward an aging population in Western societies Featuring contributions from prominent scholars across diverse disciplinary fields education developmental psychology public policy gerontology neurology public health sociology family studies and adult education the volume is organized around six themes theoretical perspectives on adult development and learning research methods in adult development research on adult development research on adult learning aging and gerontological research policy perspectives on aging The Handbook is an essential reference for researchers faculty graduate students and practitioners whose work pertains to adult and lifespan development and learning      *Political Learning in Adulthood* Roberta S. Sigel, 1989 In the wake of World War II the issues of political stability in general and the survival of stable democracies in particular captured the attention of American political scientists An inevitable offshoot of this interest was the study of political behavior how it is acquired and how and why it persists In its early stages work on political socialization focused exclusively on childhood and adolescence as if the learning process ends when adulthood begins Only recently has adult socialization emerged as a legitimate field of study within political science In *Political Learning in Adulthood* social scientists for the first time examine the changes in political outlook and behavior that take place during the adult years providing an invaluable overview of the problems theories and methodological approaches that characterize the field of political socialization They consider which political values remain constant and which are subject to change and they explore the ways in which both ordinary and extraordinary life events affect adults political worldviews Among specific topics considered are the effects of age and aging the relation between participation in the work force and the development and expression of political views continuity and change in the wake of revolutionary social and political movements and the effects of such traumatic and life threatening situations as war and terrorist activity      **Civic Education in the Twenty-First Century** Donald M. Gooch, Michael T. Rogers, 2015-09-18 Imagine an America where politicians governmental institutions schools new

technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters
