Political Parties In The Irish Free State

R. Kenneth Carty

Political Parties In The Irish Free State:

Political Parties in the Republic of Ireland Michael Gallagher, 1985 The Irish Free State Nicholas Mansergh, 2022-11-14 Originally published in 1936 this book provides an accurate and critical analysis of government in the Irish Free State its principles structure philosophy and direction It discusses clearly and impartially not only the failure of the Treaty settlement but also the electoral system the legislature the increase of executive power and the growth of administrative law and justice **Political Parties in the Irish Free State** Warner Moss, 1933 **Politics in the Republic of Ireland** John Coakley, Michael Gallagher, 2009-09-10 Politics in the Republic of Ireland is now available in a fully revised fifth edition Building on the success of the previous four editions it continues to provide an authoritative introduction to all aspects of politics in the Republic of Ireland Written by some of the foremost experts on Irish politics it explains analyzes and interprets the background to Irish government and contemporary political processes Bringing students up to date with the very latest developments Coakley and Gallagher combine real substance with a highly readable style providing an accessible textbook that meets the needs of all those who are interested in knowing how politics and government operate in Ireland **Politics in Ireland** Maura Adshead, Jonathan Tonge, 2009-04-21 Politics in Ireland is the first major text to provide an accessible and systematic analysis of the politics of Ireland North as well as South With the development of a new Northern Irish political system and increasing links across the island the authors argue that the time is ripe to study together the two polities which share so much of a common history but which have had very different evolutions through the 20th century Drawing upon an exceptionally wide range of sources and their own original research the authors deploy a thematic approach to the study of political institutions political behaviour and public policy in both the Republic and Northern Ireland in order to produce a detailed but highly readable assessment of governance and politics in both political systems This approach enables them both to outline the differences and similarities between the polities and to explain how they relate to the wider world in particular to the UK and to Europe **European Political Parties** Stanley Henig, John Pinder, 2025-09-12 European Political Parties 1969 looks at the parties of Western Europe on a country by country basis examining their roles in the increasing political integration in the European Economic Community The party system is described with a structural functional analysis of individual parties Particular emphasis is given to the relationship between the parties and their respective parliamentary groups and between leaders and members *Parties and Party Systems in Liberal Democracies* Steven B Wolinetz, 2023-07-14 First published in 1988 Parties and Party Systems in Liberal Democracies considers the extent and ways in which Western European and North American parties and party systems changed in the 1970s and 1980s after decades of relative stability It examines changes in the nature and organisation of parties and relates this to changes in electoral behaviour and to wider social and economic change It concentrates on political parties as actors and the ways in which they maintain themselves and respond to the moves and gambits of both established and newer parties

and to the increasingly numerous and vociferous single interest pressure groups One important argument put forward is that many social and economic changes have had a minimal impact because established parties have been able to adapt by redefining issues in their favour and have also been able to rely on residual support and access to patronage This engaging volume will have strong appeal for courses in political science government political behaviour and history *Drafting the Irish Free State Constitution* Laura Cahillane,2016-07-01 This book provides an account of the drafting of the Irish Free Constitution of 1922 analysing the document in its historical context and exploring the reasons for its lack of success The Government Party R. Kenneth Carty,2022-03-30 Democracy thrives on vigorous competition between political parties However in several established democracies one party manages to dominate national politics for decades at a time seemingly creating a democratic one party unnatural democracy This book examines five such countries Canada Ireland India Japan Italy to understand what kind of party comes to dominate democratic competition and how and why they do so In different countries with different political challenges an analysis of their Government Parties reveals their common relationship with the origins and operations of the states they dominate and the nation and or state building challenges they face Democratic dominance cannot last forever how a government party responds to the seemingly inevitable decline of long term support defines the prospects for its unnatural democracy *Comparative Politics* is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Susan Scarrow John and Rebecca Moores Professor of Political Science at the University of Houston and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich Party and Parish Pump R.K. Carty,2006-01-01 My attention was drawn to Ireland by footnotes writes the author Over and over again the literature of comparative politics noted simply except in Ireland The question that puzzled me was Why should this be so Professor Carty's answers to the question appear in this detailed study that sheds new light on the question of establishing democratic politics after a war of independence on the impact of electoral laws on party competition on the social bases of political competition and on the way political machines work in modern democracies As a case study the book also analyzes the peculiarly conservative syndrome into which Irish politics has fallen Carty concludes that political institutions and the activities of politicians make a considerable difference to the organization and conduct of public life The book will interest students of comparative politics history and political sociology as well as those concerned with the shape and direction of society and politics in contemporary Ireland *Historical Dictionary of Ireland* Frank A. Biletz,2013-11-14 All places undergo change but in few has this change been quite as sweeping as Ireland both the independent Republic of Ireland and dependent Northern Ireland so it is good to see where it is heading at present Obviously that has to be judged on the background of

where it is coming from not only over the past decade or so but over centuries and indeed millennia This new edition of Historical Dictionary of Ireland is an excellent resource for discovering the history of Ireland This is done through a chronology an introductory essay and an extensive bibliography The cross referenced dictionary section has over 600 entries on significant persons places and events political parties and institutions including the Catholic church with period forays into literature music and the arts This book is an excellent resource for students researchers and anyone wanting to know more about Ireland

Ireland at the Polls, 1981, 1982, and 1987 Howard Rae Penniman, Brian Farrell, 1987 Ireland at the Polls 1981 1982 and 1987 A Study of four General Elections is another in the series of national election studies prepared by the American Enterprise Institute for Public Policy Research AEI Books in the series include volumes on some thirty national democratic elections around the world Distinguished foreign and American scholars have contributed to the studies

A New History of Ireland Volume VII J. R. Hill, Theodore William Moody, Francis X. Martin, Francis John Byrne, 2010-08-26 Volume VII covers a period of major significance in Ireland s history the division of Ireland and the eventual establishment of the Irish Republic

The Metamorphosis of War , 2012-01-01 In the last few decades the practice purpose and the very language of warfare have been radically transformed This volume mobilizes the resources of a range of disciplines across the social sciences and humanities in combination with the insights of military practitioners to understand the metamorphosis of war
