Political Power In Pre Colonial Buganda

**John Gerring, Brendan Apfeld, Tore
Wig, Andreas Forø Tollefsen**

Political Power In Pre Colonial Buganda:

Political Power in Pre-colonial Buganda Richard J. Reid, 2002 Buganda was one of the most favoured of East Africa's inter-lacustrine kingdoms. Blessed with fertile and well watered soil capable of supporting a relatively dense population it became a major regional power by the mid 19th century. North America: Ohio U Press; Uganda: Fountain Publishers. **African Political Systems Revisited** Aleksandar Bošković, Günther Schlee, 2022-04-08 Reexamining a classical work of social anthropology *African Political Systems* 1940 edited by Fortes and Evans Pritchard this book looks at the colonial and academic context from which the work arose as well as its reception and its subject matter and looks at how the work can help with analysis of current politics in Africa. This book critically reflects upon the history of anthropology. It also contributes to a political anthropology which is aware of its antecedents, self-reflexive as a discipline conscious of pitfalls and biases and able to locate itself in its academic, social and political environment. **A History of Modern Uganda** Richard J. Reid, 2017-02-17 This book is the first major study in several decades to consider Uganda as a nation from its precolonial roots to the present day. Here Richard J. Reid examines the political, economic and social history of Uganda, providing a unique and wide-ranging examination of its turbulent and dynamic past for all those studying Uganda's place in African history and African politics. Reid identifies and examines key points of rupture and transition in Uganda's history, emphasising dramatic political and social change in the precolonial era, especially during the nineteenth century, and he also examines the continuing repercussions of these developments in the colonial and postcolonial periods. By considering the ways in which historical culture and consciousness has been ever present in political discourse, art and literature and social relationships, Reid defines the true extent of Uganda's viable national history. *Crisis of Legitimacy and Political Violence in Uganda, 1890 to 1979* Ogenga Otunnu, 2016-12-26 This book demonstrates that societies experiencing prolonged and severe crises of legitimacy are prone to intense and persistent political violence. The most significant factor accounting for the persistence of intense political violence in Uganda is the severe crisis of legitimacy of the state, its institutions, political incumbents and their challengers. This crisis of legitimacy, which is shaped by both internal and external forces, past and present, accounts for the remarkable continuity in the history of political violence since the construction of the state. *The Palgrave Handbook of African Politics, Governance and Development* Samuel Ojo Olorunmba, Toyin Falola, 2017-10-10 This handbook constitutes a single collection of well-researched articles and essays on African politics, governance and development from the pre-colonial through colonial to the post-colonial eras. Over the course of these interconnected periods, African politics have evolved with varied experiences across different parts of the continent. As politics is embedded both in the economy and the society, Africa has witnessed some changes in politics, economics, demography and its relations with the world in ways that require in-depth analysis. This work provides an opportunity for old and new scholars to engage in the universe of the debate around African politics, governance and development and will serve as a ready reference material for students, researchers, policy makers and

investors that are concerned with these issues **African Kingdoms** Saheed Aderinto, 2017-08-24 This history rich volume details the sociopolitical economic and artistic aspects of African kingdoms from the earliest times to the second half of the 19th century Africa has a long and fascinating history and is a place of growing importance in the world history curriculum This detailed encyclopedia covers the history of African kingdoms from antiquity through the mid 19th century tracing the dynasties ties to modern globalization and influences on world culture before during and after the demise of the slave trade Along with an exploration of African heritage this reference is rich with firsthand accounts of Africa through the oral traditions of its people and the written journals of European explorers missionaries and travelers who visited Africa from the 15th century and onward Alphabetically arranged entries cover a particular kingdom and feature information on the economic cultural religious political social and environmental history of the regime The content references popular culture movies and art that present contemporary reenactments of kingdoms emphasizing the importance of history in shaping modern ideas Other features include primary source documents a selected bibliography of print and electronic resources and dozens of sidebars containing key facts and interesting trivia Before Colonization Charles R. Butcher, Ryan D. Griffiths, 2025-07-08 Prior to European colonization the world was thickly populated with hundreds of independent states and vibrant regional state systems Yet these states are typically excluded from traditional international relations scholarship which has mostly focused on the European experience This book provides a groundbreaking comparative analysis of non Western states and state systems in the nineteenth century Using an original data set on independent states during this period Charles R Butcher and Ryan D Griffiths answer fundamental questions such as how many states there were when they arose and when they died documenting the large number of states that were extinguished as a consequence of European colonialism They explore the structure of nineteenth century state systems in East Asia South Asia maritime Southeast Asia and West Africa examining the effects of war trade and interaction capacity Through these case studies Butcher and Griffiths provide novel perspectives on longstanding debates over state centralization and the choice between indirect and direct forms of rule Shedding new light on the dynamics of non Western interstate relations during the nineteenth century Before Colonization reveals striking similarities between state systems across diverse historical settings A Military History of Africa Timothy J. Stapleton, 2013-10-21 A detailed and thorough chronological overview of the history of warfare and military structures in Africa covering ancient times to the present day A Military History of Africa achieves a daunting task it synthesizes decades of specialized academic research and literature including the most recent material to offer an accessible survey of Africa s military history from the earliest times to the present day The first volume examines the precolonial period beginning with warfare in ancient North Africa including ancient Egypt and Carthage and continues through the cavalry based Muslim empires of the trans Sahara trade and the wars of the slave trade in West and East Africa The second volume focuses on the wars of European colonial conquest and African resistance during the late 19th century African participation

in both world wars and the early violent struggles for independence from the 1950s and early 1960s The third volume explores warfare in postcolonial Africa including coverage of the impact of the global Cold War conflicts in Southern Africa from the 1960s to 1980s the development of postcolonial African armed forces and civil wars sparked by the discovery of precious resources such as diamonds in Sierra Leone Readers of this three volume work will understand how warfare and military structures have been consistently central to the development of African societies *The African Revolution* Richard Reid, 2025-01-28 A panoramic global history of Africa in the age of imperialism Africa's long nineteenth century was a time of revolutionary ferment and cultural innovation for the continent's states societies and economies Yet the period preceding what became known as the Scramble for Africa by European powers in the decades leading up to World War I has long been neglected in favor of a Western narrative of colonial rule The African Revolution demonstrates that the Scramble and the resulting imperial order were as much the culmination of African revolutionary dynamics as they were of European expansionism In this monumental work of history Richard Reid paints a multifaceted portrait of a continent on the global stage He describes how Africa witnessed the emergence of new economic and political dynamics that were underpinned by forms of violence and volatility not unlike those emanating from Europe Reid uses a stretch of road in what is now Tanzania one of the nineteenth century's most vibrant commercial highways as an entry point into this revolutionary epoch weaving a broader story around characters and events on the road He integrates the African experience with new insights into the deeper currents in European societies before and after conquest and he shows how the Africans themselves created opportunities for European expansion Challenging the portrayal of Africa's transformative nineteenth century as a mere prelude to European colonialism The African Revolution reveals how this turbulent yet hugely creative era for Africans intersected with global intrusions to shape the modern age *Africa and World War II* Judith Ann-Marie Byfield, Carolyn A. Brown, Timothy Parsons, Ahmad Alawad Sikainga, 2015-04-20 This volume offers a fresh perspective on Africa's central role in the Allied victory in World War II Its detailed case studies from all parts of Africa enable us to understand how African communities sustained the Allied war effort and how they were transformed in the process Together the chapters provide a continent wide perspective *Communal Labor in Colonial Kenya* O. Okia, 2012-07-25 This book advances research into the government forced labor used widely in colonial Kenya from 1930 to 1963 after the passage of the International Labor Organization's Forced Labour Convention While the 1930 Convention intended to mark the suppression of forced labor practices various exemptions meant that many coercive labor practices continued in colonial territories Focusing on East Africa and the Kenya Colony this book shows how the colonial administration was able to exploit the exemption clause for communal labor thus ensuring the mobilization of African labor for infrastructure development As an exemption communal labor was not defined as forced labor but instead justified as a continuation of traditional African and community labor practices Despite this ideological justification the book shows that communal labour was indeed an intensification of coercive

labor practices and one that penalized Africans for non compliance with fines or imprisonment The use of forced labor before and after the passage of the Convention is examined with a focus on its use during World War II as well as in efforts to combat soil erosion in the rural African reserve areas in Kenya The exploitation of female labor the Mau Mau war of the 1950s civilian protests and the regeneration of communal labor as harambee after independence are also discussed *The Names of the Python* David L. Schoenbrun,2021-05-11 David Schoenbrun examines groupwork the imaginative labor that people do to constitute themselves as communities in an iconic and influential region in East Africa The Names of the Python supplements and redirects current debates about ethnicity in ex colonial Africa and beyond **Encyclopedia of African History 3-Volume Set** Kevin Shillington,2013-07-04 Covering the entire continent from Morocco Libya and Egypt in the north to the Cape of Good Hope in the south and the surrounding islands from Cape Verde in the west to Madagascar Mauritius and Seychelles in the east the Encyclopedia of African History is a new A Z reference resource on the history of the entire African continent With entries ranging from the earliest evolution of human beings in Africa to the beginning of the twenty first century this comprehensive three volume Encyclopedia is the first reference of this scale and scope Also includes 99 maps The Oxford Handbook of Modern African History John Parker,Richard Reid,2013-10-10 The Oxford Handbook of Modern African History represents an invaluable tool for historians and others in the field of African studies This collection of essays produced by some of the finest scholars currently working in the field provides the latest insights into and interpretations of the history of Africa a continent with a rich and complex past An understanding of this past is essential to gain perspective on Africa s current challenges and this accessible and comprehensive volume will allow readers to explore various aspects political economic social and cultural of the continent s history over the last two hundred years Since African history first emerged as a serious academic endeavour in the 1950s and 1960s it has undergone numerous shifts in terms of emphasis and approach changes brought about by political and economic exigencies and by ideological debates This multi faceted Handbook is essential reading for anyone with an interest in those debates and in Africa and its peoples While the focus is determinedly historical anthropology geography literary criticism political science and sociology are all employed in this ground breaking study of Africa s past **The Deep Roots of Modern Democracy** John Gerring,Brendan Apfeld,Tore Wig,Andreas Forø Tollefsen,2022-08-25 Explores the deep roots of modern democracy focusing on geography and long term patterns of global diffusion Islam in Uganda Joseph Kasule,2022 Examines the historical political religious and social dynamics of Muslim minority status in Uganda and important themes of pre and post colonial political community religion and national identity Between 2012 and 2016 several Muslim clerics were murdered in Uganda there is still no consensus as to who was responsible In this book Joseph Kasule seeks to explain this by examining the colonial and postcolonial history of the Muslim minority and questions of Muslim identity within a non Muslim state Challenging prevalent scholarship that has homogenized Muslims political identity Kasule demonstrates that Muslim responses to power have been varied and multiple

Beginning with the pre colonial political community in Buganda and Muteesa I's attempted Islamization of the country using Islam as a centralizing ideology the author discusses how the political status of Islam and Muslims in Uganda has been defined under successive regimes Muteesa I's Islamization faltered when Christianity entered Buganda in the latter half of the 19th century resulting in division between Muslim and Christian sections The colonial period created a new type of political project that defined the Muslim question as one of representation and Kasule discusses how this laid the foundation for a politics of Muslim containment within a predominantly Christian power He examines contrasting urban based Muslim organizations and rural expressions of Islam tension between representative claims of Muslim leaderships within the demand for Muslim autonomy and the rise of new reform groups As these splits turned violent new Muslim publics emerged around opposing centres of Muslim power which sought different resolutions to their minority situation East Africa Kenya Uganda Tanzania Rwanda Burundi Makerere Institute of Social Research [Changing Theory](#) Dilip M Menon, 2022-05-02 This book is an original systematic and radical attempt at decolonizing critical theory Drawing on linguistic concepts from 16 languages from Asia Africa the Arab world and South America the essays in the volume explore the entailments of words while discussing their conceptual implications for the humanities and the social sciences everywhere The essays engage in the work of thinking through words to generate a conceptual vocabulary that will allow for a global conversation on social theory which will be necessarily multilingual With essays by scholars across generations and from a variety of disciplines history anthropology and philosophy to literature and political theory this book will be essential reading for scholars researchers and students of critical theory and the social sciences [Uganda](#) Philip Briggs, 2024-12-13 Bradt's Uganda has for many years been considered the go to source of information for travellers interested in this extraordinary country which boasts Africa's most biodiverse and arguably most exciting safari circuit Written by Philip Briggs the world's foremost guidebook writer on Africa this new tenth edition of the most detailed travel guidebook available to Uganda has been thoroughly updated by local resident and experienced travel writer Andrew Roberts Uganda excels for wildlife watching and recent transport improvements now make for relatively easy year round access to key sites Visit the lush montane forests of Bwindi which protect one of the world's largest remaining populations of mountain gorillas watch habituated chimpanzees in Kibale and tree climbing lions in Queen Elizabeth National Park or enjoy outstanding birdwatching throughout with more than a thousand bird species in a country similar in size to Great Britain As well as treating readers to a dedicated wildlife chapter with over 100 colour wildlife photographs Bradt's Uganda guides visitors around key wildlife watching experiences It provides up to date coverage of gorilla tracking options describing gorilla groups and their locations everything anyone who dreams of encountering these remarkable primates needs to know Uganda is not just about wildlife Hikers love some of Africa's tallest mountains notably the snow capped Rwenzori the Mountains of the Moon the massive collapsed caldera that tops Mount Elgon and the forest swathed volcanic peaks of the Virungas A highlight for adrenaline junkies is rafting the

Grade Five white water rapids on the Nile shortly after it emerges from the inland sea that is Lake Victoria In this tenth edition carefully selected accommodation listings have been updated providing critical appraisals of optimum options in each price bracket While tourism has long focussed on western Uganda this edition strengthens attention on the country's remote northeast corner which is emerging as a popular destination that includes the untrammelled savannah of Kidepo National Park and offers opportunities to interact with traditional Karamojong pastoralists Boasting detailed maps of the country updated or created from scratch using GPS and all the travel advice a visitor might want Bradt's Uganda remains the essential companion guide to this compelling country

The Right to Rule Bruce Gilley, 2009-03-03 Popular perceptions of a state's legitimacy are inextricably bound to its ability to rule Vast military and material reserves cannot counter the power of a citizen's belief and the more widespread the crisis of a state's legitimacy the greater the threat to its stability Even such established democracies as France and India are losing their moral claims over society while such highly illiberal states as China and Iran enjoy strong showings of public support Through a remarkable fusion of empirical research and theory Bruce Gilley makes clear the link between political consent and political rule Fixing a definition of legitimacy that is both general and particular he is able to study the role of legitimacy as it has been maintained and lost in a diverse selection of societies He begins by detailing the origins of state legitimacy and the methods governments have used to wield it best He then considers the habits of less successful states exploring how the process works across different styles of government Gilley's unique approach merges a broad study of legitimacy and performance in seventy-two states with a detailed empirical analysis of the mechanisms of legitimation The results are tested on a case study of Uganda a country that after 1986 began to recover from decades of civil war Considering a range of explanations of other domestic and international phenomena as well Gilley ultimately argues that because of its evident real world importance legitimacy should occupy a central place in political analysis

A History of Modern Africa Richard J. Reid, 2020-01-09 The new fully updated edition of the acclaimed textbook covering 200 years of African history A History of Modern Africa explores two centuries of the continent's political economic and social history This thorough yet accessible text helps readers to understand key concepts recognize significant themes and identify the processes that shaped the modern history of Africa Emphasis is placed on the consequences of colonial rule and the links between the precolonial and postcolonial eras Author Richard Reid a prominent scholar and historian on the subject argues that Africa's struggle for economic and political stability in the nineteenth century escalated and intensified through the twentieth century the effects of which are still felt in the present day The new third edition offers substantial updates and revisions that consider recent events and historiography Greater emphasis is placed on African agency particularly during the colonial period and the importance of the long term militarization of African political culture Discussions of the postcolonial period have been updated to reflect recent developments including those in North Africa Adopting a long term approach to current African issues this text Explores the legacies of the nineteenth century and the

colonial period in the context of the contemporary era Highlights the role of nineteenth century and long term internal dynamics in Africa s modern challenges Combines recent scholarship with concise and effective narrative Features maps illustrations expanded references and comprehensive endnotes A History of Modern Africa 1800 to the Present 3rd Edition is an excellent introduction to the subject for undergraduate students in relevant courses and for general readers with interest in modern African history and current affairs

Decoding **Political Power In Pre Colonial Buganda**: Revealing the Captivating Potential of Verbal Expression
