#### Political Representation In England And The Origins Of The American Republic:

**Political** Political Representation in England and the Origins of the American Republic Jack Richon Pole, 1966 Representation in England and the Origins of the American Republic J. R. Pole,1969-10-01 The Origins of the Federal Republic Peter S. Onuf, 1983 Historians have emphasized the founding fathers statesmanship and vision in the development of a more powerful union under the federal constitution In The Origins of the Federal Republic Peter S Onuf clarifies the founders achievement by demonstrating with case studies of New York Pennsylvania Vermont and Virginia that territorial confrontations among the former colonies played a crucial role in shaping early concepts of statehood and union and provided the true basis of the American federalist system Encyclopedia of U.S. Political History Andrew Robertson, Michael A. Morrison, William G. Shade, Robert Johnston, Robert Zieger, Thomas Langston, Richard Valelly, 2010-04-01 Unparalleled coverage of U S political development through a unique chronological framework Encyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history. The three branches of government Elections and political parties Legal and constitutional histories Political movements and philosophies and key political figures Economics Military politics International relations treaties and alliances Regional histories Key Features Organized chronologically by political eras Reader's guide for easy topic searching across volumes Maps photographs and tables enhance the text Signed entries by a stellar group of contributors VOLUME 1 Colonial Beginnings through Revolution 1500 1783 Volume Editor Andrew Robertson Herbert H Lehman College The colonial period witnessed the transformation of thirteen distinct colonies into an independent federated republic This volume discusses the diversity of the colonial political experience a diversity that modern scholars have found defies easy synthesis as well as the long term conflicts policies and events that led to revolution and the ideas underlying independence VOLUME 2 The Early Republic 1784 1840 Volume Editor Michael A Morrison Purdue University No period in the history of the United States was more critical to the foundation and shaping of American politics than the early American republic This volume discusses the era of Confederation the shaping of the U S Constitution and the development of the party system VOLUME 3 Expansion Division and Reconstruction 1841 1877

Volume Editor William Shade Lehigh University emeritus This volume examines three decades in the middle of the nineteenth century which witnessed the emergence of the debate over slavery in the territories which eventually led to the Civil War the military conflict itself from 1861 until 1865 and the process of Reconstruction which ended with the readmission of all of the former Confederate States to the Union and the withdrawal of the last occupying federal troops from those states in 1877 VOLUME 4 From the Gilded Age through the Age of Reform 1878 1920 Volume Editor Robert Johnston University of Illinois at Chicago With the withdrawal of federal soldiers from Southern states the previous year 1878 marked a new focus in American politics and it became recognizably modern within the next 40 years This volume focuses on race and politics economics labor and capitalism agrarian politics and populism national politics progressivism foreign affairs World War I and the end of the progressive era VOLUME 5 Prosperity Depression and War 1921 1945 Volume Editor Robert Zieger University of Florida Between 1921 and 1945 the U S political system exhibited significant patterns of both continuity and change in a turbulent time marked by racist conflicts the Great Depression and World War II The main topics covered in this volume are declining party identification the Roosevelt Coalition evolving party organization congressional inertia in the 1920s the New Deal Congress during World War II the growth of the federal government Franklin D Roosevelt's presidency the Supreme Court's conservative traditions and a new judicial outlook VOLUME 6 Postwar Consensus to Social Unrest 1946 1975 Volume Editor Thomas Langston Tulane University This volume examines the postwar era with the consolidation of the New Deal the onset of the Cold War and the Korean War It then moves into the 1950s and early 1960s and discusses the Vietnam war the era of John F Kennedy the Cuban Missile Crisis the Civil Rights Act Martin Luther King and the Voting Rights Act antiwar movements The War Powers Act environmental policy the Equal Rights Amendment Roe v Wade Watergate and the end of the Vietnam War VOLUME 7 The Clash of Conservatism and Liberalism 1976 to present Volume Editor Richard Valelly Swarthmore College The troubled Carter Administration 1977 1980 proved to be the political gateway for the resurgence of a more ideologically conservative Republican party led by a popular president Ronald Reagan The last volume of the Encyclopedia covers politics and national institutions in a polarized era of nationally competitive party politics and programmatic debates about taxes social policy and the size of national government It also considers the mixed blessing of the change in superpower international competition associated with the end of the Cold War Stateless terrorism symbolized by the 9 11 attacks the continuing American tradition of civil liberties and the broad change in social diversity wrought by immigration and the impact in this period of the rights revolutions are also covered The Oxford Handbook of American Political History Paula Baker, Donald T. Critchlow, 2020-03-06 American political and policy history has revived since the turn of the twenty first century After social and cultural history emerged as dominant forces to reveal the importance of class race and gender within the United States the application of this line of work to American politics and policy followed In addition social movements particularly the civil rights and feminism helped rekindle political and policy

history As a result a new generation of historians turned their attention to American politics Their new approach still covers traditional subjects but more often it combines an interest in the state politics and policy with other specialties urban labor social and race among others within the history and social science disciplines The Oxford Handbook of American Political History incorporates and reflects this renaissance of American political history It not only provides a chronological framework but also illustrates fundamental political themes and debates about public policy including party systems women in politics political advertising religion and more Chapters on economy defense agriculture immigration transportation communication environment social welfare health care drugs and alcohol education and civil rights trace the development and shifts in American policy history This collection of essays by 29 distinguished scholars offers a comprehensive overview of American politics and policy **Encyclopedia of U.S. Political History** Andrew Whitmore Robertson, 2010 Annotation st1 behavior url ieooui Unparalleled coverage of U S political development through a unique chronological frameworkEncyclopedia of U S Political History explores the events policies activities institutions groups people and movements that have created and shaped political life in the United States With contributions from scholars in the fields of history and political science this seven volume set provides students researchers and scholars the opportunity to examine the political evolution of the United States from the 1500s to the present day With greater coverage than any other resource the Encyclopedia of U S Political History identifies and illuminates patterns and interrelations that will expand the reader s understanding of American political institutions culture behavior and change Focusing on both government and history the Encyclopedia brings exceptional breadth and depth to the topic with more than 100 essays for each of the critical time periods covered With each volume covering one of seven time periods that correspond to key eras in American history the essays and articles in this authoritative encyclopedia focus on the following themes of political history. **Politics** John Frederick Martin, 2025-04-01 This book examines the ways in which American habits and politics replaced the traditional European republican canon Before the modern era European republics relied on procedural complexity in office filling to arrive at neutral government They did so with such technical consistency over a long span of time as to create a republican procedural tradition That tradition collided with conditions in the Anglo American world with entrenched social deference in politics quasi representative institutions and an ascendant doctrine of majorities American habits would ultimately overwhelm the European republican canon but not without a fight This book suggests that arguments over the abandonment of the procedural tradition shook politics in early America especially at the federal convention and that it is difficult to understand the convention delegates votes concerning the Great Compromise apportioning the House and Senate and the presidential selection system without reference to those arguments The contest between simple majorities and complexity aiming at comity was not resolved neatly in Philadelphia and continued during the first decades of the republic this book argues that some political institutions to this day bear the stamp of the imperfect arrangements reached at the nation's founding which among other things was a moment of inflection between older and newer concepts of republican architecture This volume will be of interest to students and scholars interested in American Political History Early American History and Political Science The Politics of Liberty in England and Revolutionary America Lee Ward, 2004-07-26 This study locates the philosophical origins of the Anglo American political and constitutional tradition in the philosophical theological and political controversies in seventeenth century England By examining the guarrel it identifies the source of modern liberal republican and conservative ideas about natural rights and government in the seminal works of the Exclusion Whigs Locke Sidney and Tyrrell and their philosophical forebears Hobbes Grotius Spinoza and Pufendorf This study illuminates how these first Whigs and their diverse eighteenth century intellectual heirs such as Bolingbroke Montesquieu Hume Blackstone Otis Jefferson Burke and Paine contributed to the formation of Anglo American political and constitutional theory in the crucial period from the Glorious Revolution through to the American Revolution and the creation of a distinctly American understanding of rights and government in the first state constitutions The Cambridge History of **Eighteenth-Century Political Thought** Mark Goldie, Robert Wokler, 2006-08-31 Publisher description The Political Works of James Harrington: Part One James Harrington, 2012-02-02 James Harrington 1611 1677 was a pioneer in applying the methods of Machiavelli and other civic humanists to English political society and its landed structure In the century after his death his ideas were adapted to become an important ingredient in the vocabulary of both English and American political opposition to the methods of Hanoverian parliamentary monarchy This work includes all of his prose works on political subjects as well as Oceana his best known work The critical introduction attempts to revalue the evidence concerning Harrington's life and writings to locate them in the context of Civil War Commonwealth and Puritan thinking and to trace the development of Harringtonian and neo Harringtonian ideology during subsequent generations **National Identity and** 

the Agrarian Republic Manuela Albertone, 2016-04-22 With a few exceptions historiography has paid little attention to the impact of French economic thought during the American Revolution focusing instead on the Revolution's links with Britain This book outlines how from the mid eighteenth to the early nineteenth century the political and social dimension of French economic thought and particularly of Physiocracy spurred American Republicans to a radical shaping of American agrarian ideology Such a perspective allows for a reconsideration of several questions that lie at the heart of contemporary historiographic debate the connection between politics and economics the meaning of republicanism the foundations of representation the role of Europe in the Atlantic world and the interaction between national histories and global context In particular the research methodology adopted here makes it possible to reconstruct how American national identity conceived as an expression of society in economic terms emerged through a cosmopolitan way of thinking focused on the uniqueness of **The Royalist Revolution** Eric Nelson, 2014-10-06 The founding fathers were rebels against the British the new state Parliament Eric Nelson argues not the Crown As a result of their labors the 1787 Constitution assigned its new president far more power than any British monarch had wielded for 100 years On one side of the Atlantic were kings without monarchy on the other monarchy without kings Toleration and the Constitution David A. J. Richards, 1989-04-06 Why have the issues of religious liberty free speech and constitutional privacy come to figure so prominently in our society What are the origins of the basic principles of our constitutional law This work develops a general theory of constitutional interpretation based on an original synthesis of political theory history law and a larger approach to the interpretation of culture Presenting both historical and theoretical arguments in support of a theory that affirms the moral sovereignty of the people Richards maintains that toleration or respect for conscience and individual freedom is the central constitutional ideal He discusses such current topics of constitutional controversy as church state relations the scope of free speech and the application of the constitutional right to privacy to abortion and consensual adult sexual relations The Virtues of Liberalism Kloppenberg, 2000 This spirited analysis and defense of American liberalism demonstrates the complex and rich traditions of political economic and social discourse that have informed American democratic culture from the seventeenth century to the present The Virtues of Liberalism provides a convincing response to critics both right and left Against conservatives outside the academy who oppose liberalism because they equate it with license James T Kloppenberg uncovers ample evidence of American republicans and liberal democrats commitments to ethical and religious ideals and their awareness of the difficult choices involved in promoting virtue in a culturally diverse nation Against radical academic critics who reject liberalism because they equate it with Enlightenment reason and individual property holding Kloppenberg shows the historical roots of American liberals dual commitments to diversity manifested in institutions designed to facilitate deliberative democracy and to government regulations of property and market exchange in accordance with the public good In contrast to prevailing tendencies to simplify and distort American liberalism Kloppenberg shows how the multifaceted virtues of liberalism have

inspired theorists and reformers from Thomas Jefferson and James Madison through Jane Addams and John Dewey to Martin Luther King Jr and then explains how these virtues persist in the work of some liberal democrats today Endorsing the efforts of such neo progressive and communitarian theorists and journalists as Michael Walzer Jane Mansbridge Michael Sandel and E J Dionne Kloppenberg also offers a more acute analysis of the historical development of American liberalism and of the complex reasons why it has been transformed and made more vulnerable in recent decades An intelligent coherent and persuasive canvas that stretches from the Enlightenment to the American Revolution from Tocqueville's observations to the New Deal's social programs and from the right to worship freely to the idea of ethical responsibility this book is a valuable contribution to historical scholarship and to contemporary political and cultural debates Between Authority and Liberty Marc W. Kruman, 2014-03-24 In a major reinterpretation of American political thought in the revolutionary era Marc Kruman explores the process of constitution making in each of the thirteen original states and shows that the framers created a distinctively American science of politics well before the end of the Confederation era Suspicious of all government power state constitution makers greatly feared arbitrary power and mistrusted legislators ability to represent the people's interests For these reasons they broadened the suffrage and introduced frequent elections as a check against legislative self interest This analysis challenges Gordon Wood's now classic argument that at the beginning of the Revolution the founders placed great faith in legislators as representatives of the people According to Kruman revolutionaries entrusted state constitution making only to members of temporary provincial congresses or constitutional conventions whose task it was to restrict legislative power At the same time Americans maintained a belief in the existence of a public good that legislators and magistrates when properly curbed by one another and by a politically active citizenry might pursue Iohn Adams and the Constitutional History of the Medieval British Empire James Muldoon, 2017-11-03 This book contributes to the increasing interest in John Adams and his political and legal thought by examining his work on the medieval British Empire For Adams the conflict with England was constitutional because there was no British Empire only numerous territories including the American colonies not consolidated into a constitutional structure Each had a unique relationship to the English In two series of essays he rejected the Parliament's claim to legislate for the internal governance of the American colonies His Dissertation on the Canon and Feudal Law 1765 identified these claims with the Yoke Norman tyranny over the defeated Saxons after 1066 Parliament was seeking to treat the colonists in similar fashion The Novanglus essays 1774 75 traced the origin of the colonies demonstrating that Parliament played no role in their establishment and so had no role in their internal governance without the colonists subsequent consent The State and Social Investigation in Britain and the United States Michael J. Lacey, Mary O. Furner, 1993-06-25 The State and Social Investigation in Britain and the United States addresses the historical development of the knowledge base upon which the public policies of the democratic state depend This comparative study stretches from the Enlightenment origins of the impulse to base legislation on scientific knowledge to the twentieth century

development of specialised institutions and professions engaged in social investigation and public policy making It probes investigators biases and omissions as well as their strengths as factors shaping social learning It illuminates the vital link between social empiricism and the late nineteenth century emergence of the New Liberalism in both Britain and the United States And it ponders the impact on social investigation and social policy today of relativism antistatism devolution and privatisation as these currents have developed in both societies since the 1970s 

The Revolution in America

1754-1788 J. R. Pole,1970-08-20 

Thomas Paine Gregory Claeys,2020-09-23 This book investigates Thomas Paine s social and political thought in both its British and American moments It examines the ways in which Paine s ideas were understood The book restores him to the position his contemporaries accorded him that of an important writer on politics and society
