Political Repression In 19th Century Europe

Robert Justin Goldstein

Political Repression In 19th Century Europe:

Political Repression in 19th Century Europe Robert Justin Goldstein, 2013-06-17 Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815 1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries **Political Repression in 19th Century Europe** Robert Goldstein, 2013 *Political Repression in 19th Century Europe* Robert J. Goldstein, 1983 *Europe 1850-1914* Jonathan Sperber, 2014-01-14 This innovative survey of European history from the middle of the nineteenth century to the outbreak of the First World War tells the story of an era of outward tranquillity that was also a period of economic growth social transformation political contention and scientific and artistic innovation During these years the foundations of our present urban industrial society were laid the five Great Powers vied in peaceful and violent fashion for dominance in Europe and throughout the world and the darker forces that were to dominate the twentieth century violent nationalism totalitarianism racism ethnic cleansing began to make themselves felt Jonathan Sperber sets out developments in this period across the entire European continent from the Atlantic to the Urals from the Baltic to the Mediterranean To help students of European history grasp the main dynamics of the period he divides the book into three overlapping sections covering the periods from 1850 75 1871 95 and 1890 1914 In each period he identifies developments and tendencies that were common in varying degrees to the whole of Europe while also pointing the unique qualities of specific regions and individual countries Throughout his argument is supported by illustrative material tables charts case studies and other explanatory features and there is a detailed bibliography to help students to explore further in those areas that interest them **Immigration and Exile Foreign-Language Press in the UK and in the US** Stéphanie Prévost, Bénédicte Deschamps, 2023-12-14 Both Britain and the United States have had a long history of harbouring foreign political exiles who often set up periodicals which significantly contributed to community building and political debates However this varied and complex journalism has received little attention to date particularly regarding the languages in which it was produced This wide ranging edited volume brings together for the first time interdisciplinary case studies of the exile foreign language press in French German Italian Spanish Russian Flemish Polish among other languages across Britain and the US establishing a useful comparative framework to explore how periodicals tackled key political linguistic and literary issues from the 19th century to the present day Building on the existing literature on the exile foreign language press in the United States and developing the study of

this phenomenon in the British context Immigration and Exile Foreign Language Press in the UK and in the US offers fresh perspectives into how these marginalised periodicals influenced the political economic and social contexts that brought them into existence This is a major contribution to the burgeoning field of transnational periodicals and will be of interest to anyone studying the history of the Anglo American press the history of immigration and cultural history

The Political in Rimsky-Korsakov's Operas John Nelson, 2022-02-06 During the 19th and early 20th centuries opposition to the tsarist autocracy grew in Russia To counter this Tsar Nicholas I instigated the Official Nationality Decree of 1833 basing this on Orthodoxy Autocracy Nationality Subsequent tsars who enforced repression censorship and the suppression of the peripheral counties of the Empire upheld this policy Nikolai Rimsky Korsakov questioned whether this Official Nationality truly represented the views of the Russian people and through his operas he demonstrated that the interpretation of these three premises was questionable This book examines each of these facets of nationality and how Rimsky Korsakov presents them in a new light in his operas It also shows how the composer's socio political views supported by his use of politically radical Russian writers and as expressed through his correspondence and discussions with family and colleagues clearly demonstrate that his political ideology as well as his opposition to the tsar and his bureaucracy gave a new interpretation of Russian nationality

Becoming a Subject Polymeris Voglis, 2002 Voglis New York U examines the relationship between the specific subject of political prisoners and certain practices of punishment in the context of a polarization that led to civil war in Greece from 1946 to 1949 He asks what impact an exceptional situation such as a civil war has on practices of punishment how the category of political prisoners is constructed how a social and political subject is made and how political prisoners experienced their internment Annotation copyrighted by Book News Inc Portland OR

Killing Strangers T. K. Wilson, 2020-09-02 A bewildering feature of so much contemporary political violence is its stunning impersonality Every major city centre becomes a potential shooting gallery and every metro system a potential bomb alley Victims just happen as the saying goes to be in the wrong place at the wrong time We accept this contemporary reality at least to some degree But we rarely ask where has it come from historically Killing Strangers tackles this question head on It examines how such violence became unchained from inter personal relationships It traces the rise of such impersonal violence by examining violence in conjunction with changing social and political realities In particular it traces both push and pull the ability of modern states to force the violence of their challengers into niche forms and the disturbing new opportunities that technological changes offer to cause mayhem in fresh and original ways Killing Strangers therefore aims to highlight the very strangeness of contemporary experience when it is viewed against a long term perspective Atrocities regularly capture media attention and just as quickly fade from public view That is both tragic and utterly predictable Deep down we expect no different And that is why such atrocities must be repeated if our attention is to be re engaged Deep down we expect that too So Killing Strangers deliberately asks the very simplest of questions How on earth did we get here

Bourgeois Liberty and

the Politics of Fear Marc Mulholland, 2012-10-04 An examination of state building class conflicts revolutions and fear of revolutions from the English Civil War of the 1640s to the invasion of Iraq in 2003 and the Great Recession from 2003 Sheds new light on key topics and events and offers a fully substantiated argument about the interplay of bourgeois liberty and proletarian democracy

The European Revolutions, 1848-1851 Jonathan Sperber, 2005-07-07 In this second edition Jonathan Sperber has updated and expanded his study of the European Revolutions that brought millions of people across the European continent into political life between 1848 1851 The book offers an inclusive narrative of the revolutionary events and a structural analysis of the reasons for the revolutions ultimate failure A wide reaching conclusion and a detailed bibliography make the book ideal both for classroom use and for a general reader wishing a better knowledge of this major historical event

Democracy and the Politics of Electoral System Choice Amel Ahmed, 2013 This book explores the dynamics of electoral system choice and raises questions about the democratic credentials of the early processes of democratization

American History through Hollywood Film Melvyn Stokes, 2013-12-05 American History through Hollywood Film offers a new perspective on major issues in American history from the 1770s to the end of the twentieth century and explores how they have been represented in film Melvyn Stokes examines how and why representation has changed over time looking at the origins underlying assumptions production and reception of an important cross section of historical films Chapters deal with key events in American history including the American Revolution the Civil War and its legacy the Great Depression and the anti communism of the Cold War era Major themes such as ethnicity slavery Native Americans and Jewish immigrants are covered and a final chapter looks at the way the 1960s and 70s have been dealt with by Hollywood This book is essential reading for anyone studying American history and the relationship between history and film

Alienation and Emancipation in the Work of Karl Marx George C. Comninel, 2018-08-18 This book considers Karl Marx s ideas in relation to the social and political context in which he lived and wrote It emphasizes both the continuity of his commitment to the cause of full human emancipation and the role of his critique of political economy in conceiving history to be the history of class struggles The book follows his developing ideas from before he encountered political economy through the politics of 1848 and the Bonapartist farce the maturation of the critique of political economy in the Grundrisse and Capital and his engagement with the politics of the First International and the legacy of the Paris Commune Notwithstanding errors in historical judgment largely reflecting the influence of dominant liberal historiography Marx laid the foundations for a new social theory premised upon the historical consequences of alienation and the potential for human freedom

Recording Russia Gabriella Safran, 2022-11-15 Recording Russia examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or

observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people s words

The Deep Roots of Modern Democracy John Gerring,Brendan Apfeld,Tore Wig,Andreas Forø Tollefsen,2022-08-25
Explores the deep roots of modern democracy focusing on geography and long term patterns of global diffusion

Revolutionary Europe Gavin Murray-Miller,2020-02-06 CHOICE Outstanding Academic Title 2021 Revolutionary Europe is an original examination of radical political movements during Europe s long 19th century It employs both national and transnational contexts incorporating new debates in Atlantic history empire studies and cultural history to give a comprehensive narrative of the period from 1775 to 1922 Rather than assessing revolution as a purely theoretical socially driven force or a structural phenomenon the book presents revolution as a process of community building and cultural identification born from instances of acute social and political crisis Taking into account various moments of political upheaval during the 19th century including the French Russian and 1848 revolutions it explores the ways in which political actors attempted to construct new definitions of sovereignty and social unity in a period characterized by vast social economic and governmental change In a wide ranging text that covers Britain and much of continental Europe in detail as well as reaching out to the Americas and Atlantic and Mediterranean Worlds Gavin Murray Miller provides an authoritative transnational study of revolution in the 19th century age of high nationalism *Political Censorship of the Arts and the Press in Nineteenth-Century* Robert Justin Goldstein,1989-08-14 Political Censorship of the Arts and the Press in Nineteenth Century Europe presents a comprehensive account of the attempts by authorities throughout Europe to stifle the growth of political opposition during the nineteenth century by censoring newspapers books caricatures plays operas and film Appeals for democracy and social reform were especially suspect to the authorities so in Russia cookbooks which referred to free air in ovens were censored as subversive while in England in 1829 the censor struck from a play the remark that honest men at court don t take up much room While nineteenth century European political censorship blocked the open circulation of much

opposition writing and art it never succeeded entirely in its aim since writers artists and consumers often evaded the censors by clandestine circulation of forbidden material and by the widely practised skill of reading between the lines Intelligence Power in Peace and War Michael Herman,1996-10-13 Intelligence services form an important but controversial part of the modern state Drawing mainly on British and American examples this book provides an analytic framework for understanding the intelligence community and assessing its value The author a former senior British intelligence officer describes intelligence activities the purposes which the system serves and the causes and effects of its secrecy He considers intelligence failure and how organisation and management can improve the chances of success Using parallels with the information society and the current search for efficiency in public administration as a whole the book explores the issues involved in deciding how much intelligence is needed and discusses the kinds of management necessary In his conclusions Michael Herman discusses intelligence s national value in the post Cold War world He also argues that it has important contributions to make to international security but that its threat inducing activities should be kept in check **Writing and Censorship in Britain** Paul Hyland,Neil Sammells,2023-02-03 First published in 1992 Writing and Censorship in Britain explores the issue of censorship from a range of cultural and literary perspectives from the Tudor period to the 1990s Written by some of the leading experts in the field this collection charts the struggles for artistic expression reveals how censorship is appropriated as a legitimate tactic in the defence of oppressed and marginalised groups and analyses the struggles writers have employed in the face of its complex dynamics Here variously defined defended and deplored censorship emerges as both an unstable and a potent concept Through it we define ourselves as readers as writers and as citizens This book will be of interest to students of literature history and law How Leaders Mobilize Workers Konstantin Vössing,2017-06-22 This book combines a thorough analysis of class politics in twenty countries between 1863 and 1919 with a general theory of political mobilization focusing on individual leadership It explains why leaders chose social democracy revolution or moderate syndicalism to mobilize workers and shows what lasting consequences their choices produced

Reviewing **Political Repression In 19th Century Europe**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing.
