

THE SCOPE OF POLITICAL SCIENCE

The subject area or content of Political Science is referred to as the scope of Political Science. The actual extent of politics is a point of contention among political theorists. The absence of clear definitions and terminology has led to misunderstandings about the discipline of Political Science. Despite the uncertainty and disagreement in the field, the following are some of the aspects of political science that are covered:-

The scope of Political Science was defined at a conference of political philosophers convened in September 1948 at the UNESCO House.

Political Science is the study of Political theories

Political scientists have been interested with the formulation of political theories and ideas for ages. Plato, for example, explained the theory of the Ideal State and the Theory of Justice, while Hobbes, Locke, and Rousseau explained the theory of state creation. These ideas help us organise our observations and provide a solid framework for future observations and analysis.

Political Institutions

Political science encompasses the study of numerous constitutions, various systems of government, and their merits, demerits, and other factors, such as whether the government is parliamentary, presidential, dictatorial, democratic, or coalition. Such research aids us in reforming our political structures in order to achieve our objectives.

Political Parties and Pressure Groups

It investigates the various political party systems, as well as their role and significance. Interest groups and pressure groups are becoming more powerful. Political science investigates their role, tactics, and other aspects of a particular political system. This makes political science more realistic to study. Pressure organisations and opposition political parties The government is not formed directly by non-governmental organisations (NGOs). They have an indirect impact on government policies and choices. As a result, if the study of governance (act of ruling) is limited to the study of
