**Political Socialization** Edward Greenberg, 2017-08-02 Focusing on the forces underlying headlines this volume examines the processes and outcomes of political socialization the ways in which an individual acquires the attitudes beliefs and values of the political culture from the surrounding environment and takes on a role as citizen within that political framework Political Socialization vividly points out the contradiction currently existing between the optimism found in the traditional literature of this field and the reality of dramatic present day incidents This book offers a selection of papers that advance the recognized approach and set forth the new thinking on the subject It provides a survey of both sides of this thought provoking debate and as such remains as valid today as when it was first published in 1970 An incisive introduction by the editor defines and outlines the issues and problems involved and places the various contributions in perspective Greenberg voices the belief that a significant number of the young and highly educated are beginning to bring into question the legitimacy of political social and economic arrangements and that the Vietnam War and the civil rights movement were socializing events playing as powerful a role as did the Depression for the parents of the younger generation The debate format will provide the reader with a variety of commentary and lead them to form their own judgment on these major historical intellectual disputes

Farmer, 2014-11-01 For many people the world of politics is defined by ideologies The average voter rarely takes time to research a policy issue thoroughly relying instead on a set of beliefs set forth by his or her chosen political organization to make important decisions These publicly promoted ideologies play an

important role in international as well as domestic political development yet many adherents to a particular belief may have a poor understanding of competing ideologies From right wing to the far left this text dissects eight prominent political ideologies traditional conservatism classic liberalism libertarianism conservative extremism contemporary liberalism communism dependency theory and Islamism In plain terms it describes the basic doctrine and inherent contradictions of each creed along with its particular relevance to today s political landscape An in depth discussion of the political socialization processes that form and perpetuate ideologies is also included Instructors considering this book for use in a course may request an examination copy here

**Cultivating Democracy** James G. Gimpel,J. Celeste Lay,Jason E. Schuknecht,2003-10-15 Scholars across several social science disciplines have indicated that the behavior described by the term civic engagement is girded by a set of attitudes that show knowledge about and positive evaluations of government and politics Drawing on extensive interviews with high school students from a variety of socioeconomic backgrounds *Cultivating Democracy* examines the sources of those attitudes including individual characteristics and the qualities of local environments that shape the experiences of late adolescence The authors gathered data on adolescent attitudes by interviewing students in a wide variety of locations from Baltimore s inner city and suburbs to the most affluent communities in Montgomery County Maryland Focusing initially on attitudes toward ethnic diversity and immigration the authors expanded their focus to the political socialization of young people including patriotism and political knowledge and participation The authors demonstrate how political socialization is shaped through the social messages presented to citizens by others According to Gimpel Lay and Schuknecht while formal education as a means of socializing youth is critically important other useful means for communicating positive socializing messages through political parties elections and the media have been ignored They recommend compensatory strategies to promote civic engagement among those who are at risk to be nonparticipants
