Political Support In A Frustrated America:

Political Support in a Frustrated America Stephen J. Farnsworth, 2003-10-30 Public confidence and trust in government is low these days Farnsworth pinpoints this disappointment to shifting expectations of what exactly government should do Politicians were once expected to maintain economic growth but in our post scarcity era most citizens expect them to provide services such as welfare or environmental that are often contentious Enlarging the scope of local political empowerment will increase public support by making politics more approachable and responsive

Does American Democracy Still Work?

Alan Wolfe, 2008-10-01 DIVThe past few decades have brought a shift in the nature of American democracy an alarming shift that threatens such liberal democratic values as respect for pluralism acceptance of the separation of powers and recognition of the rights of opposition parties In this insightful book political scientist Alan Wolfe identifies the current political conditions that endanger the quality of our democracy He describes how politics has changed and he calls for a democracy protection movement designed to preserve our political traditions not unlike the environmental protection movement s efforts to safeguard the natural world Voters who know little about issues leaders who bend rules with little fear of reprisal and political parties that are losing the ability to mobilize citizens have all contributed to a worrisome new politics of democracy Wolfe argues He offers a brilliant analysis of how religion and morality have replaced political and economic self interest as guiding principles and how a dangerous populism promotes a radical form of elitism Without laying blame on one party or ideology and without claiming that matters will improve with one party or the other in office Wolfe instead suggests that Americans need to understand the danger their own indifference poses and take political matters more seriously div

Farnsworth, S. Robert Lichter, 2019-11-15 Political humor has been a staple of late night television for decades The Trump White House however has received significantly greater attention than that of past presidents such as Barack Obama George W Bush and even Bill Clinton In response to Trump s strident politics late night comics including Stephen Colbert Jimmy Kimmel Trevor Noah and Jimmy Fallon have sounded key policy notes further blurring the boundary between news and satire Weekly humorists including John Oliver and Samantha Bee extend the critique with in depth probing of key issues while Saturday Night Live continues to tap the progression from outrage to outrageousness Using unique content analysis techniques and qualitative discussions of political humor Farnsworth and Lichter show how late

Presidential Communication and Character Stephen Farnsworth, 2018-03-09 This book traces the evolution of White House news management during America's changing media environment over the past two decades Comparing and contrasting the communication strategies of Bill Clinton George W Bush Barack Obama and Donald Trump it demonstrates the difficulty that all presidents have in controlling their messages despite a seemingly endless array of new media outlets and the great advantages of the office That difficulty is compounded by new media's amplification of presidential character traits for good or ill Facebook Twitter and YouTube notwithstanding presidential power still resides in the power to persuade and that task remains a steep challenge More than ever presidential character matters and the media presidents now employ report on the messenger as much as the message The book also looks at the media strategies of candidates during the 2016 presidential campaign puts presidential media use in global context and covers the early phase of the Trump administration the first true Twitter presidency

debate over policies to favor themselves and how reporters and Internet commentators often help them do so The result short circuits the public's role in evaluating competing visions for the country's future and the legislative branch's role in policy making The modern presidential obsession with public relations and media willingness to be used to advance executive power undermine the country's long term ability to deal with crucial problems including foreign and military relations a growing government debt and public health care shortcomings
