Political Imagination Dialogues In Polit:

The Political Imagination; Dialogues in Politics and Political Behavior Edgar Litt (ed), 1966 Dialogue, Politics and Gender Jude Browne, 2013-05-23 Examines the relationship between gender discourse and deliberation focusing on how far consensus achieved through deliberation can reflect gender differences **The Politics of Dialogue** Ranabir Samaddar, 2017-07-05 Offering a detailed analysis of post colonial South Asia The Politics of Dialogue discusses the creation and impact of borders and the pervasive tension between the new nations It critiques existing knowledges and techniques which guide our understanding of post colonial politics of war and peace and stresses the importance of dialogue in such situations as well as pointing out the reasons behind the failure to take up dialogue seriously Imagination in Politics Mihaela Czobor-Lupp, 2014-10-15 Imagination is a complex and ambiguous culture making power which while central to politics is a rather marginal concept in contemporary political theory By drawing on works of modern and contemporary Continental political philosophers this book addresses how imagination can be both a source of freedom and domination in liberal democratic politics and argues for a benign public employment of images and narratives in a global world of diverse cultures The challenge is not to keep contemporary politics clear of images but to better distinguish between benign and malign uses of creativity in the public realm This distinction is important because the language employed by the participants in the complex cultural dialogue that characterizes modern plural societies is constituted by metaphors and myths which form their perceptions and sensibilities The embedment of communicative practices in a society's imaginary brings an ambivalent psychological and emotional potential into democratic politics Modern liberal democracies can shift the public employment of imagination either in a direction that increases the autonomous capacity of individuals to engage culture and language in a creative and interactive manner in the construction of their identities or in a direction that increases fascination with images and myths and consequently the escapist desire to pull these out of the living dialogue with others Turning the public work of creativity in the first direction requires a conscious change in the modern social imaginary This can be achieved through the aesthetic cultivation of an ethical productive imagination both analogical and explorative both empathic and reflective While capable of creatively giving utopian impetus to politics this imagination would also stir the individuals responsiveness to the particularity of others and to their capacity to be equal and free partners in the making of a common world An important avenue in achieving this objective in modern liberal democracies will be provided by the capacity of literary works to open up public spaces of dialogue There the renewal of the metaphors and myths that frame individual and collective identities in a society can have transformative effects that increase the individuals ability for cross cultural understanding Curriculum and Teaching Dialogue Chara Haeussler Bohan, John L. The Political Imagination Edgar Litt, 1966 *Transnational Feminisms, Transversal Politics and Art* Marsha Meskimmon, 2020-02-28 This book explores the critical significance of the visual arts to transnational feminist thought and activism This first volume in Marsha Meskimmon's powerful and timely Trilogy focuses on some of the central political challenges of our era including war migration ecological destruction sexual violence and the return of neo nationalisms It argues that transnational feminisms and the arts can play a pivotal role in forging the solidarities and epistemic communities needed to create social economic and ecological justice on a world scale Transnational feminisms and the arts provide a vital space for knowing imagining and inhabiting earth wide and otherwise The chapters in this book each take their lead from a current matter of political significance that is central to transnational feminist activist organizing and has been explored through the arts in ways that permit dialogues across geopolitical borders to take place Including examples of artwork in full colour this is essential reading for students and researchers in art history theory and practice visual culture studies feminism and gender studies political theory and cultural geography The Transnational Feminisms and the Arts Trilogy Transnational Feminisms Transversal Politics and Art Entanglements and Intersections Transnational Feminisms and Art's Transhemispheric Histories Ecologies and Genealogies Transnational Feminisms and Posthuman Aesthetics Resonance and Riffing Foundations of Just Cross-Cultural Dialogue in Kant and African Political Thought Gemma K. Bird, 2018-10-19 This book addresses the potential existence of shared foundational principles in the work of Immanuel Kant and a range of African political thought as well as their suitability in facilitating just and fair cross cultural dialogue The book first establishes an analytical framework grounded in a Kantian approach to understanding shared human principles suggesting that a drive to be self law giving may underpin all human interactions regardless of cultural background It then investigates this assumption by carrying out a theoretical analysis of texts and speeches from a variety of African scholarship ranging from the colonial period to the present day The analysis divided into three distinctive chapters covers the Négritude movement African socialism and post colonial philosophers including such thinkers as Leopold Senghor Julius K Nyerere Kwame Nkrumah Kwame Anthony Appiah Kwasi Wiredu and Kwame Gyekye The author argues that underpinning each of their very different theoretical positions and arguments is a foundational argument for the importance of self law giving In doing so she highlights the need to respect this principle when embarking on cross cultural dialogues The book will be of interest to students and scholars in the fields of African political thought political theory and international relations **Paperbound**
Books in Print , 1975 **Forgiveness and Politics** Kethoser Aniu Kevichusa, 2017-11-14 Forgiveness and politics are often

assumed both ordinarily and academically to be unrelated and unrelatable This study not only argues that forgiveness and politics can be related but also that they are intrinsically related In making the case this publication explores both the biblical foundations of forgiveness and the concepts and practices of politics justice and reconciliation The findings are tested and illustrated within two case studies of forgiveness examining the conflict in Northern Ireland and several conflicts in Nagaland India

Poetry, Politics, and Culture Harold Kaplan, A salient feature of modern poetics is its direct connection with cultural history and politics Among the great American poets of the twentieth century Wallace Stevens and William Carlos Williams offer a significant contrast with T S Eliot and Ezra Pound Where the latter advocated a theocentric or reactionary response to the cultural crises of modernity the former affirmed an essentially humanist and democratic social and aesthetic ethos While each believed in poetry as a source of cultural values and beliefs they nevertheless experienced loss of confidence in their own vocation in a world characterized by scientific rationalist thinking and the mundane struggle for survival

War Beyond the Battlefield David Grondin, 2013-09-13 In an effort to make sense of war beyond the battlefield in studying the wars that were captured under the rubric of the War on Terror this special issue book seeks to explore the complex spatial relationships between war and the spaces that one is not used to thinking of as the battlefield It focuses on the conflicts that still animate the spaces and places where violence has been launched and that the war has not left untouched In focusing on war beyond the battlefield it is not that the battlefield as the place where war is waged has gone in smoke or has borne out of importance it is rather the case that the battlefield has been displaced redesigned reshaped and rethought through new spatializing practices of warfare These new spaces of war new in the sense that they are not traditionally thought of as spaces where war takes place or is brought to are television screens cellular phones and bandwidth George W Bush's ranch in Crawford Texas videogames popular culture sites news media blogs and so on These spaces of war beyond the battlefield are crucial to understanding what goes on the battlefield in Iraq Afghanistan or in other fronts of the War on Terror such as the homeland to understand how terror has globally been waged beyond the battlefield This book was originally published as a special issue of *Geopolitics*
