The Marshall Mission to China, 1945-1947 Roger B. Jeans,2011-08-28 This book breaks new ground in our understanding of a pivotal period in the history of American foreign policy the early Cold War and the struggle for dominance in China between the Nationalists and Communists The famous Marshall Mission to China has been the focus of intense scrutiny ever since General George C Marshall returned home in January 1947 and full scale civil war consumed China Yet until recently there was little new to add to the story of the failure to avert war between the Chinese Nationalists under Chiang Kai shek and the Chinese Communists led by Mao Zedong Drawing on a newly discovered insider s account Roger B Jeans makes an invaluable

contribution to our understanding of Marshall's failed mediation effort and the roles played by key Chinese figures. Working from the letters and diary of U.S. Army Colonel John Hart Caughey, Jeans offers a fresh interpretation of the mission. From beginning to end, Caughey served as Marshall's executive officer in effect his right hand man, assisting the general in his contacts with the Chinese and drafting key documents for him. Through his writings, Caughey provides a rare behind-the-scenes view of the general's mediation efforts as well as intimate glimpses of the major Chinese figures involved, including Chiang Kai-shek, Madame Chiang, and Zhou Enlai. In addition to daily contact with Marshall, Caughey often rubbed shoulders with these major Nationalist and Communist figures. As a meticulous eyewitness to history in the making, Caughey offers crucial insight into a key moment in post-World War II history.

Early Psychological Research Contributions from Women of Color, Volume 1 Jon Grahe, Michelle Ceynar, Rihana S. Mason, 2023-03-10

Early Psychological Research Contributions from Women of Color, Volume I collects the dissertations of 20 cultural pioneers, women of color who were among the first to earn their doctorate degrees in psychology. Collectively, these chapters offer an important resource to diversify the history of psychology. This book is structured so that each chapter provides a biographical sketch of the woman, a summary of the dissertation, a reproducibility critique, a discussion about a modern alternative theory or methodological approach associated with the work, feminist theory, ethnopsychology, liberation psychology, etc., and examples of how the dissertation can be used as instructional content in psychology and related disciplines. Offers suggestions for classroom use. The dissertations were completed as early as 1912 and as late as 1979, with the range reflecting differences in when women of certain groups could access education. The topics also range broadly across the breadth of the field of psychology, including physiological, cognitive, developmental, social, clinical, and more topics. The diversity of the work collected here will allow this book to be used to augment coursework, either as a complete collection or as individual chapters. Instructors and students in undergraduate and graduate Research Methods courses will find this a crucial text in maintaining a true and inclusive historical perspective of psychological research. Additionally, due to the inclusion of research spanning the breadth of Psychology, this edited volume will appeal to scholars both across the discipline and in related fields such as Women's Studies, Cognitive Science, Education, and Cultural Studies.
