Pictured Politics Emily Engel,2020-03-23 The Spanish colonial period in South America saw artists develop the subgenre of official portraiture or portraits of key individuals in the continent s viceregal governments Although these portraits appeared to illustrate a narrative of imperial splendor and absolutist governance they instead became a visual record of the local history that emerged during the colonial occupation Using the official portrait collections accumulated between 1542 and 1830 in Lima Buenos Aires and Bogota as a lens Pictured Politics explores how official portraiture originated and evolved to become an essential component in the construction of Ibero American political relationships Through the surviving portraits and archival evidence including political treatises travel accounts and early periodicals Emily Engel demonstrates that these official portraits not only belie a singular interpretation as tools of imperial domination but also visualize the continent s multilayered history of colonial occupation The first standalone analysis of South American portraiture Pictured Politics brings to light the historical relevance of political portraits in crafting the history of South American colonialism

**Portraiture and Politics in Revolutionary France** Amy Freund,2015-06-13 Portraiture and Politics in Revolutionary France challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century After 1789 portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution how to turn subjects into citizens Revolutionary portraits allowed sitters and artists to appropriate the means of representation both aesthetic and political and articulate new forms of selfhood and citizenship often in astonishingly creative ways The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals This shift had major consequences for the course of modern art production and its engagement with the political and the contingent **Political Portraits [microform]** Charles 1859-1930
