The Political Forms of Modern Society Claude Lefort, 1986-08-26 Claude Lefort is one of the leading social and political theorists in France today This anthology of his most important work published over the last four decades makes his writing widely accessible to an English speaking audience for the first time With exceptional skill Lefort combines the analysis of contemporary political events with a sensitivity to the history of political thought His critical account of the development of bureaucracy and totalitarianism in the Soviet Union and Eastern Europe is a timely contribution to current debates about the nature and shortcomings of these societies His incisive analyses of Marx's theory of history and concept of ideology provide the backdrop for a highly original account of the role of symbolism in modern societies While critical of many traditional assumptions and doctrines Lefort develops a political position based on a reappraisal of the idea of human rights and a reconsideration of what democracy means today The Political Forms of Modern Society is a major contribution to contemporary social and political theory The volume includes a substantial introduction that describes the context of Lefort's writings and highlights the central themes of his work

**Assembly** Michael Hardt, Antonio Negri, 2017-08-01 In recent years leaderless social movements have proliferated around the globe from North Africa and the Middle East to Europe the Americas and East Asia Some of these movements have led to impressive gains the toppling of authoritarian leaders the furthering of progressive policy and checks on repressive state forces They have also been at times derided by journalists and political analysts as disorganized and ineffectual or suppressed by disoriented and perplexed police forces and governments who fail to effectively engage them Activists too struggle to harness the potential of these horizontal movements Why have the movements which address the needs and desires of so many not been able to achieve lasting change and create a new more democratic and just society Some people assume that if only social movements could find new leaders they would return to their earlier glory Where they ask are the new Martin Luther Kings Rudi Dutschkes and Stephen Biko's With the rise of right wing political parties in many countries the question of how to organize democratically and effectively has become increasingly urgent Although today's leaderless political organizations are not

sufficient a return to traditional centralized forms of political leadership is neither desirable nor possible Instead as Michael Hardt and Antonio Negri argue familiar roles must be reversed leaders should be responsible for short term tactical action but it is the multitude that must drive strategy In other words if these new social movements are to achieve meaningful revolution they must invent effective modes of assembly and decision making structures that rely on the broadest democratic base Drawing on ideas developed through their well known Empire trilogy Hardt and Negri have produced in Assembly a timely proposal for how current large scale horizontal movements can develop the capacities for political strategy and decision making to effect lasting and democratic change We have not yet seen what is possible when the multitude assembles
