Politics And Bureaucracy In The European Community:

Politics and Bureaucracy in the European Community David L. Coombes, 1970 September 2005 Politics and Bureaucracy in the European Community David Coombes, 2025-09-12 Politics and Bureaucracy in the European Community 1970 examines the European project's key institution the Commission an assessment that also examines the basic principles on which the European Union is based It reveals the Commission to be one of the most curious and interesting political institutions of our time not only from the point of view of international organization but also as a special kind of governmental institution a responsible bureaucracy or independent officialdom **The European Commission and Bureaucratic Autonomy** Antonis A. Ellinas, Ezra Suleiman, 2012-04-30 This book examines the struggle of the European Union bureaucracy to maintain its autonomy in an increasingly complex institutional setting and adverse political environment Using an original survey of nearly two hundred top European Commission officials it shows that the Commission is a coherent organization that shares a common culture of supranationalism The European Union's multicephalous structure of political authority limits the capacity of European politicians to curb the autonomy of the Commission but tends to undermine the legitimacy of the organization which finds itself under persistent political attacks These attacks inadvertently help the organization bolster its defenses against the external threats and trigger internal legitimation processes that reinforce the devotion of its employees to its institutional mission The rich survey data show how Commission bureaucrats establish themselves as the custodians of Europe The book helps disentangle the complexity of the Commission and makes a contribution to the study of international bureaucracies a topic that has received little attention *The Normalization of the European Commission* Anchrit Wille, 2013-06-20 The European Commission started out in the 1950s as a technocratic international organization Today it has acquired many of the organizational features and behavioural patterns that are highly typical of the normal executives in national settings This normalization of the EU executive is due to a series of treaty reforms and internal administrative transformations that were effectuated after the demise of the Santer Commission Based on a large number of in depth interviews with commissioners heads of cabinet and senior civil servants in the Commission and on extensive documentary evidence this study shows how a reinforced regime of political and administrative accountability has profoundly changed the executive relationships between politicians and bureaucrats in the Commission The book presents a grounded empirical portrait of life at the top in the EU exposing the Commission's struggle to revive its legitimacy and to turn it into a more transparent accountable and efficient organization during the Prodi and Barroso's tenures Officials and office holders describe in their own words the imperatives they face and the relationships they maintain providing readers a rare insight into the day to day practices in one of the world's most powerful executives **Politics and Bureaucracy in the European Community** David Coombes, 1970 Environmental Policy in the EU Camilla Adelle, 2013 This text brings together work on EU environmental policy Incorporating a range of case studies it explores the links

Law of Administrative Organization of the EU Matthias Ruffert, 2020-12-25 With the transfer of ever more tasks and competences to the European level the EU s administration has become increasingly complex with agencification as the most visible sign of this differentiation This book offers a much needed analytical overview of the field with the aim of improving our understanding of administration at the European level and indeed of improving the administration itself European

Union Discourses on Un/employment Peter Muntigl, 2000-01-01 Employment is clearly one of those fields of political activity that reveal the manifold problems and difficulties accompanying the process of European integration and supranational institutionalization In particular the conflict between supranationalists and intergovernmentalists and the degree to which member states show willingness to cooperate with each other become manifest The Union is struggling for new employment policies that should on the one hand be compatible with the European model of the welfare state and on the other adopt to new economic constraints These debates are accompanied by many conflicts between different interest groups and lobbies This study succeeded in looking behind closed doors within the EU organizational system Committee meetings were tape recorded and analysed drafts of policy papers were examined for recontextualizations and the impact of interest groups and different economic and ideological concepts on policy making made explicit A comparison of decision making processes in the European Parliament and in small networks of the Commission illustrates the different argumentation patterns and discursive practices that are involved in the formation of new employment policies The ethnographic research is accompanied by a systemic linguistic and sociological analysis of various institutional genres and political spaces **The**

International Counterterrorism Bureaucracies in the United Nations and the European Union Hendrik Hegemann, 2015-03-26 Since the attacks of September 11 2001 a complex web of international structures and rules for the fight against transnational terrorism has emerged However previous research disregarded the organizational basis of counterterrorism cooperation Using the example of bureaucratic actors in the United Nations and the European Union this study examines how and to what degree international counterterrorism bureaucracies exercise autonomy and perform distinct functions The book reveals the special ambivalence of counterterrorism cooperation for international bureaucracies which need to reconcile calls for effective counterterrorism with the need to maintain an impression of technical impartiality in a particularly contested policy field They respond to this challenge with different strategies of politicization and depoliticization

An Organizational Approach to Public Governance Morten Egeberg, Jarle Trondal, 2018-10-04 Climate change economic crises migration and terrorism are among the many problems that challenge public governance in modern societies Many of these problems are spanning political and administrative units horizontally vertically and both This makes public governance particularly challenging and turbulent Since public governance mainly takes place through public organizations like international organizations ministries and regulatory agencies this book examines what difference organizational factors make in the governance process The volume launches a general organizational approach to public governance It outlines key theoretical dimensions that cut across governance structures and processes horizontally as well as vertically thus paving the way for integrating separate empirical analyses into a coherent theoretical whole Moreover the organizational independent variables outlined in this book represent classical dimensions in the organization literature that are generic in character This allows for generalizations across time and space The volume also examines organizational design implications By building systematic knowledge on how organizational factors shape governance processes on the one hand and how organizational factors themselves might be deliberately changed on the other the book offers a knowledge base for organizational design

Research Handbook on the Enforcement of EU Law Miroslava Scholten, 2023-09-06 This comprehensive Research Handbook investigates the success of EU law enforcement processes Going beyond traditional analyses of administrations and courts in isolation it focuses on the increased cooperation seen between national and EU authorities and on the widening variety of means used to enhance compliance with EU norms

Reforming the European Commission Michael W. Bauer, 2013-10-18 Many

international and supranational organisations have lately been busy modernising their internal administration. But nowhere has management change received a similar amount of attention than in the case of the European Commission. Although the perception prevails that the Commission has been losing out in recent years, this vivid interest academic as well as public in the so called Kinnock reform suggests that this organisation still remains at the heart of the Union. The proposition of this book thus is simple. If it remains true that the Commission is an essential part within the admittedly complex equation of EU policy making, changes of the administration basis of this actor are likely to have broader implications. Consequently, this special issue poses three crucial questions about the recent administrative reform of the European Commission: why was such a comprehensive reform possible? what are its specific implications for the Commission as an organisation? and what is the likely impact for the policy process? In short, this book puts the organisational base of EU policy making centre stage. In the quest for answers, the authors of the subsequent chapters take distinct perspectives, use various research strategies and methods, and attempt to solve diverse empirical puzzles. But all attempt to add to our understanding of this organisational base and how to systematically study it. This book was published as a special issue of the Journal of European Public Policy.
