Politics Of The Independence Of Kenya The:

The Politics of the Independence of Kenya K. Kyle, 1999-04-07 As with his critically acclaimed book on Suez Keith Kyle revisits as a scholar ground that he first covered as a print and television journalist After three introductory chapters covering the years 1895-1957 the core of the book examines in lively detail how Kenya moved from Mau Mau trauma to national freedom The immediacy of the eye witness which older readers will remember from television reports is now combined with the fruits of reflection and meticulous archival research to create a unique authoritative study of this vital period for Kenya for Africa and for the British Empire Decolonization & Independence in Kenya, 1940-93 Bethwell A. Ogot, William Robert Ochieng', 1995 This is a sharply observed assessment of the history of the last half century by a distinguished group of historians of Kenya At the same time the book is a courageous reflection in the dilemmas of African nationhood Professor B A Ogot says The main purpose of the book is to show that decolonization does not only mean the transfer of alien power to sovereign nationhood it must also entail the liberation of the worlds of spirit and culture as well as economics and politics The book also raises a more fundamental question that is How much independence is available to any state national economy or culture in today's world It asks how far are Africa's miseries linked to the colonial past and to the process of decolonization In particular the book raises the basic question of how far Kenya is avoidably neo colonial And what does neo colonial dependence mean The book answers these questions by discussing the dynamic between the politics of decolonization the social history of class formation and the economics of dependence The book ends with a provocative epilogue discussing the transformation of the post colonial state from a single party to a multi party system Kenya and the Politics of a Postcolony Wanjala S. Nasong'o, 2024-08-06 This book sets out to probe explore and evaluate the betrayal of anticolonial nationalism in Kenya Contemporary Kenya's emergence is rooted in the colonial enterprise its deleterious effects and the subsequent decolonization spearheaded by a fierce anti colonial nationalism that was embodied in freedom struggles at the cultural political and military levels As a settler colony the colonial settlers hived off millions of hectares of the best land in the highland areas of Kenya and appropriated them for themselves thereby generating a large mass of the landless This land alienation constituted one of the most deeply felt grievances which together with the exclusivist exploitative and oppressive colonial system inflamed anti colonial nationalism that undergirded the struggle for independence The expectation on the part of the masses was that independence would bring about social justice restitution of the stolen lands and a government based on the will and aspirations of the governed Political developments soon after independence however demonstrated the extent of betrayal of the cause of anti colonial nationalism which has remained the reality to date This book covers the extent of this sense of betrayal from the time of independence to the present It begins by locating contemporary Kenya within the colonial context then proceeds to thematic issues of betrayal including the fall out between President Kenyatta and Vice President Odinga over ideology and issues of development which constituted the first betrayal the scourge

of bureaucratic corruption and rent seeking the question of land and associated historical injustices and electoral malpractice since the return of multiparty politics in 1992 to the most recent elections of 2022 The implications of these dynamics for the future of the Kenyan polity are delineated and discussed *Kenya: the Politics of Independence* George F. Pollock,1966

Economy of Development Norman Thomas Uphoff, Warren Frederick Ilchman, 1972 The new political economy Development in the perspective of political economy Problems and policies of development Measures and models for development The political economy of education and employment The political economy of economic policy The Politicization of Ethnicity as Source of Conflict Ademola Adediji, 2016-05-11 In view of the explosion of violent conflicts in many parts of the world and the hasty but prevailing assumption that ethnicity is the source of these conflicts this book is encompassed to highlight describe and examine how ethnicity is politicized in many of these current conflicts By deploying the instrumentalist approach and the theory of identity and difference in ethnicity the author identifies the actors involved and depicts how religion is exploited as an instrument of division by reflecting it on the Nigerian situation exploring the examples of the Jos conflicts and the Warri Crisis within a twenty years period 1990 to 2010 **The Politics of the**

Common Law Adam Gearey, Wayne Morrison, Robert Jago, 2013-05-02 The Politics of the Common Law offers a critical introduction to the legal system of England and Wales Unlike other conventional accounts this revised and updated second edition presents a coherent argument organised around the central claim that contemporary postcolonial common law must be understood as an articulation of human rights and open justice The book examines the impact of the European Convention and European Union law on the structures and ideologies of the common law and engages with the politics of the rule of law

These themes are read into normative accounts of civil and criminal procedure that stress the importance of due process The final sections of the book address the reality of civil and criminal procedure in the light of recent civil unrest in the UK and the growing privatisation of public services The book questions whether it is possible to find a balance between the requirements of economics and the demands of justice *The Politics and Policies of Sub-Saharan Africa* Robert A. Dibia, 2001 This book attempts to correct the impression created by Western media that Sub Saharan Africa is in a state of anarchy The text analyzes and shows that while many Sub Saharan African nations are experiencing the worst time of their history others are enjoying their best times Thus the text argues that although some parts of Africa are experiencing crisis the continent is also a fine region of major new experiments in governance peace building and free market transformation programs Finally the text focuses some of its analyses on the colonial legacy economic and ethnic transformation indigenous institutions and other forces that seem to influence the governance of Sub Saharan African nations
