Peoples of a Sonoran Desert Oasis Jared Orsi,2023-10-17 In the southwestern corner of Organ Pipe Cactus National Monument on the border between Arizona and Mexico one finds Quitobaquito the second largest oasis in the

Sonoran Desert There with some effort one might also find remnants of once thriving O odham communities and their predecessors with roots reaching back at least 12 000 years along with evidence of their expulsion the erasure of their past attempts to recover that history and the role of the National Park Service NPS at every layer The outlines of the lost landscapes of Quitobaquito now further threatened by the looming border wall reemerge in Peoples of a Sonoran Desert Oasis as Jared Orsi tells the story of the land its inhabitants ancient and recent and the efforts of the NPS to reclaim Quitobaquito s pristine natural form and to reverse the damage done to the O odham community and culture first by colonial incursions and then by proponents of preservation Quitobaquito is ecologically and culturally rich and this book summons both the natural and human history of this unique place to describe how people have made use of the land for some five hundred generations subject to the shifting forces of subsistence and commerce tradition and progress cultural and biological preservation Throughout Orsi details the processes by which the NPS obliterated those cultural landscapes and then subsequently as America began to reckon with its colonial legacy worked with O odham peoples to restore their rightful heritage Tracing the building and erasing of past landscapes to make some of them more visible in the present Peoples of a Sonoran Desert Oasis reveals how colonial legacies became embedded in national parks and points to the possibility that such legacies might be undone and those lost landscapes remade *Lifelong Landscape Design* Mary Palmer
