The Afterlives of Walter Scott Ann Rigney, 2012-03-08 Sir Walter Scott 1771 1832 once an immensely popular writer is now largely forgotten This book explores how works like Waverley Ivanhoe and Rob Roy percolated into all aspects of cultural and social life in the nineteenth century and how his work continues to resonate into the present day even if Scott is no longer widely read

Will Cuppy, American Satirist Wes D. Gehring, 2013-10-11 Back in the golden age of humor books late 1920s early 1950s when wits of the pantheon like Robert Benchley James Thurber and S J Perelman were producing their signature works there was another singular satirist who more than held his own with such fast company Will Cuppy 1884 1949 This factual funnyman s metier is dark comedy that flirts with nihilism His agenda is baldly stated in such classic Cuppy book titles as How to Be a Hermit 1929 How to Tell Your Friends from the Apes 1931 and The Decline and Fall of Practically Everybody 1950 This biography doubles as a critical study of a satirist whose shish kebabing of humanity was often done through the veiled anthropomorphic use of animals For a biographer Will Cuppy represents a treasure trove of possibilities He was a great humorist and most of his best work is still in print but until now he has never been the subject of a book length study His mesmerizingly complex and eccentric private life almost trumps the comic accomplishments of his public persona

Pan-Africanism, and the Politics of African Citizenship and Identity Toyin Falola, Kwame Essien, 2013-10-08 There is no recent literature that underscores the transition from Pan Africanism to Diaspora discourse This book examines the gradual shift and four major transformations in the study of Pan Africanism It offers an academic post mortem that seeks to gauge the extent to which Pan Africanism overlaps with the study of the African Diaspora and reverse migrations how Diaspora studies has penetrated various disciplines while Pan Africanism is located on the periphery of the field The book argues that the gradual shift from Pan African discourses has created a new pathway for engaging Pan African ideology from academic and social perspectives Also the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty first century Pan African solidarity on the African continent The ways in which African institutions are attracting and mobilizing returnees and Pan Africanists with incentives as dual citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan African ideology in the twenty first century Returnees are also using these incentives to gain economic and cultural advantage The book will appeal to policy makers government institutions research libraries undergraduate and graduate students and scholars from many different disciplines

Lost Land of the Dodo Anthony Cheke, Julian P. Hume, 2009-01-01 The Mascarene islands in the southern Indian Ocean Mauritius R union

and Rodrigues were once home to an extraordinary range of birds and reptiles. Evolving on these isolated volcanic islands in the absence of mammalian predators or competitors, the land was dominated by giant tortoises, parrots, skinks, and geckos. Burrowing boas, flightless rails, the birds, and tortoises were slaughtered indiscriminately while introduced rats, cats, pigs, and monkeys destroyed their eggs. The once extensive forests, logged and invaded by introduced plants from all over the tropics, devastated the ecosystem. The now familiar icon of extinction, the Dodo, was gone from Mauritius within 50 years of human settlement, and over the next 150 years many of the Mascarenes, other native vertebrates, followed suit. The product of over 30 years' research by Anthony Cheke, *Lost Land of the Dodo* provides a comprehensive yet hugely enjoyable account of the story of the islands' changing ecology, interspersed with human stories, the islands' biogeographical anomalies, and much else. Many French publications, old and new, especially for Réunion, are discussed and referenced in English for the first time. The book is richly illustrated with maps and contemporary illustrations of the animals and their environment, many of which have rarely been reprinted before. Illustrated box texts look in detail at each extinct vertebrate species, while Julian Hume's superb colour plates bring many of the extinct birds to life. *Lost Land of the Dodo* provides the definitive account of this tragic yet remarkable fauna and is a must read for anyone interested in islands, their ecology, and the history of our relationship with the world around us. Miro Roman, Alice_ch3n81, 2021-12-06 How does coding change the way we think about architecture? This question opens up an important research perspective. In this book, Miro Roman and his AI Alice_ch3n81 develop a playful scenario in which they propose coding as the new literacy of information. They convey knowledge in the form of a project model that links the fields of architecture and information through two interwoven narrative strands in an infinite flow of real books. Focusing on the intersection of information technology and architectural formulation, the authors create an evolving intellectual reflection on digital architecture and computer science. *Postcards from the Road* Jonathan Day, 2014-05-01 Walker Evans said in his 1958 introduction to Robert Frank's *The Americans*: "For the thousandth time it must be said that pictures speak for themselves wordlessly visually or they fail. The images revolutionized post-war American photography. With their candid images of men and women from all classes and walks of life, the photographs presented a very different story than that portrayed by the wholesome caricature of mid-century prosperity pervading American photography at the time. Although initially dismissed by his peers for his pioneering work, Frank was ultimately credited with changing the course of the art form, and his photography holds a secure status in the history of twentieth-century art. And he did all this without words. It seems appropriate then, and not a little overdue, that Jonathan Day has created a book that expounds, explores, and examines Frank's work pictorially. Taking Frank's iconic images as his point of reference, Day shot new photographs that commented on the road and contemporary America. Here these images are paired with critical commentary that details the aspects of the work that are visually expounded and explained in Day's complementary images. A visual entryway to the photographs and

themes of this iconic book in the history of photography Postcards from the Road represents an innovative carefully considered departure from standard photographic textbooks **Landscapes of Realism** Svend Erik Larsen, Steen Bille Jørgensen, Margaret R. Higonnet, 2022-03-15 Few literary phenomena are as elusive and yet as persistent as realism While it responds to the perennial impulse to use literature to reflect on experience it also designates a specific set of literary and artistic practices that emerged in response to Western modernity Landscapes of Realism is a two volume collaborative interdisciplinary investigation of this vast territory bringing together leading edge new criticism on the realist paradigms that were first articulated in nineteenth century Europe but have since gone on globally to transform the literary landscape Tracing the manifold ways in which these paradigms are developed discussed and contested across time space cultures and media this second volume shows in its four core essays and twenty four case studies four major pathways through the landscapes of realism The psychological pathways focusing on emotion and memory the referential pathways highlighting the role of materiality the formal pathways demonstrating the dynamics of formal experiments and the geographical pathways exploring the worlding of realism through the encounters between European and non European languages from the nineteenth century to the present This volume is part of a book set which can be ordered at a special discount **A Cultural History of Hair in the Age of Empire** Sarah Heaton, 2020-12-10 Hair or lack of it is one the most significant identifiers of individuals in any society In Antiquity the power of hair to send a series of social messages was no different This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire concentrating on what is now Europe North Africa and the Near East Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites when male hair is generally short women's is long that hair is a marker of age and stage of life children and young people have longer less confined hairstyles adult hair is far more controlled hair can be used to identify the other in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women The chapters in A Cultural History of Hair in Antiquity cover the following topics religion and ritualized belief self and society fashion and adornment production and practice health and hygiene gender and sexuality race and ethnicity class and social status and cultural representations **The Publishers' Circular and Booksellers' Record** , 1909

Publishers' Circular and Booksellers' Record of British and Foreign Literature , 1895 **Multicultural Origins of the Global Economy** John M. Hobson, 2020-12-10 Develops a fresh non Eurocentric analysis of the rise and development of the global economy in the last half millennium *The Future of Consumer Society* Maurie J. Cohen, 2016-11-03 Consumer society in the United States and other countries is receding due to demographic ageing rising income inequality political paralysis and resource scarcity At the same time steady jobs that compensate employees on a salaried or hourly basis are being replaced by freelancing and contingent work The rise of the so called sharing economy the growth of do it yourself production and the spreading popularity of economic localization are evidence that people are striving to find new ways to

ensure livelihoods for themselves and their families in the face of profound change. Indications are that we are at the early stages of a transition away from a system of social organization predicated on consumerism. These developments have prompted some policy makers to suggest providing households with a non labor source of income that would enable more adequate satisfaction of their basic needs. These proposals include a universal basic income, a citizen's dividend, and a legal framework for broad based stock ownership in corporations. However, extreme political fractiousness makes it unlikely that these recommendations will receive prompt and widespread legislative endorsement in most countries. In the meantime, we seem to be moving incontrovertibly toward a twenty first century version of feudalism. How might we chart a different path founded on social inclusiveness and economic security? A practicable option entails establishment of networks of interlinked worker consumer cooperatives that organizationally unify production and consumer. Such modes of mutual assistance already exist. The Future of Consumer Society profiles several successful examples from around the world. If replicated and scaled, worker consumer cooperatives could smooth the transition beyond consumer society and facilitate a future premised on sufficiency, resiliency, and well being.

The Publisher, 1909 **The Illustrated London News: Chess**, 1848 *La Parisienne in cinema* Felicity Chaplin, 2017-07-21. Chic, sophisticated, seductive, and enigmatic, the Parisienne possesses a *je ne sais quoi* that makes her difficult to define. But who or what is the Parisienne, and how is she depicted in cinema? The first book length study on the subject combines scholarship in the fields of art history, literature, and fashion to enrich our understanding of this intriguing cinematic figure, simultaneously offering new perspectives on film. Accessible and wide ranging, it will be of immediate interest to students and researchers working in film studies, French studies, and the broader humanities, as well as cinephiles and Francophiles alike.

Rob Roy Walter Scott, 2005-10. From its first publication in 1816, Rob Roy has been recognised as containing some of Scott's finest writing and most engaging, fully realised characters. The outlaw Rob Roy MacGregor was already a legendary, disputed figure by the time Scott wrote a heroic Scottish Robin Hood to some an over glamorised, unprincipled predator, to others Scott approaches Rob Roy indirectly through the adventures of his fictional hero Frank Osbaldistone amid the political turmoil of England and Scotland in 1715. With characteristic care, Scott reconstructs the period and settings so as to place Rob Roy and the Scotland he inhabits amid conflicting moral, economic, and historical forces. This edition features, besides a new critical introduction and extensive explanatory notes, an essay outlining clearly the novel's historical context and a glossary of Scottish words and phrases used by Scott's colourful vernacular characters.
