The Classroom and the Chancellery: State Educational Reform in Russia Under Count Dmitry Tolstoi Allen Sinel, 1973 The specific challenge that confronted Count Dmitry Tolstoi as Minister of Education was to raise the educational level of the Russian people without giving them the intellectual weapons with which to threaten the autocracy The efforts of Tolstoi s ministry to resolve this dilemma resulted in comprehensive reforms which shaped the Russian school system until early in the twentieth century It is interesting therefore that until now there has been no complete analysis of all aspects of Tolstoi s ministry Allen Sinel s study fills that gap Beginning with the historical political biographical and administrative contexts for Tolstoi s reforms Sinel then provides a detailed examination of Tolstoi s transformation of Russian education at all levels particularly the secondary level which was the cornerstone of his program The ministry s greatest achievement in improving the school system was increasing the number of schools and supplying trained teachers to staff them Less successful were Tolstoi s efforts to minimize the political consciousness of the students Tolstoi s methods were short sighted and negative helping to create the very elements of alienation and antagonism that might destroy the existing regime he wanted so much to protect and preserve Sinel s analysis of Tolstoi s program the most durable of the tsarist period provides a much needed survey of the Russian educational system at a crucial time in Russian history In addition the study contributes to a more balanced assessment of one of tsardom s most important bureaucrats

Theatre and Identity in Imperial Russia Catherine Schuler, 2009-05 What role did the theatre both institutionally and literally play in Russia's modernization How did the comparatively harmonious relationship that developed among the state the nobility and the theatre in the eighteenth century transform into ideological warfare between the state and the intelligentsia in the nineteenth How were the identities of the Russian people and the Russian soul configured and altered by actors in St Petersburg and Moscow Using the dramatic events of nineteenth century Russian history as a backdrop Catherine Schuler answers these questions by revealing the intricate links among national modernization identity and theatre Schuler draws upon contemporary journals written and published by the educated nobility and the intelligentsia who represented the intellectual aesthetic and cultural groups of the day as well as upon the laws of the Russian empire and upon theatrical memoirs With fascinating detail she spotlights the ideologically charged binaries ascribed to prominent actors authentic performed primitive civilized Russian Western that mirrored the volatility of national identity from the

Napoleonic Wars through the reign of Alexander II. If the path traveled by Russian artists and audiences from the turn of the nineteenth century to the era of the Great Reforms reveals anything about Russian culture and society, it may be that there is nothing more difficult than being Russian in Russia.
