community produces a distinct literary culture as Christian witness takes all these forms and more From then until now this kind of literature probes ultimate questions adumbrates numinous experience and extrapolates ethical outcomes of Christian teachings across a wide variety of literary forms The Handbook of Literary Apologetics provides an authoritative introduction to the scope of this tradition and its major figures Art and Philosophy ,2025-05-05 Though a field often thought far from the center of contemporary philosophy philosophy of art perhaps more than any other field similarly situated nevertheless enjoys extensive overlap with and points of exchange at that center The last decade has seen a marked resurgence of interest in aesthetics and philosophy of art from those working outside these areas and a reciprocal resurgence of interest in other subfields from philosophers of art Art and Philosophy brings together twenty one original essays at the intersection of art and philosophy These essays are intersectional in two respects Firstly the authors draw meaningful connections between art and philosophy using artworks to motivate support and shape their views Secondly the authors draw connections between the theoretical discipline of aesthetics and philosophy of art on the one hand and the rest of philosophy on the other Some chapters explore philosophical matters by examining art and other aesthetic objects whilst others bring together contemporary thought and research in aesthetics and philosophy of art with important developments in other areas of philosophy The chapters are organized into ten sections These ten sections represent the current issues best exemplifying the productive and informative exchanges that exist at these intersections The topics range from metaphysics and philosophy of language to creativity and love By placing the connection to art at the forefront Art and Philosophy is a testament to the myriad ways art and the philosophy of art intersect and overlap with issues that lie at the core of contemporary philosophy
