Luger Story:

The Luger Neil Grant, 2018-09-20 Patented in 1898 and produced from 1900 Georg Luger's iconic semi automatic pistol became synonymous with Germany's armed forces throughout both world wars Initially chambered for the 7.65 21mm round from 1902 the Luger was designed for DWM's 9.19mm round which even today remains the most popular military handgun cartridge It was adopted by the Imperial German Navy in 1904 followed by the German Army in 1908 receiving the name Pistole 08 Despite being supplanted by the Walther P38 the Luger remained in widespread service with all arms of Nazi Germany's armed forces throughout World War II and even equipped East Germany's Volkspolizei in the years after 1945 Featuring full colour artwork expert analysis and archive and present day photographs this engaging study tells the story of the Luger the distinctive and deadly semi automatic pistol that has come to symbolize Germany's armed forces in the 20th century

The Hand Gun Story John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele

Navy to order the sidearm while the US Army passed on it following field trials in favor of the Colt Production ramped up for World War I and the gun became a prized trophy for Allied soldiers in both that conflict and World War II German soldiers aware of their desirability even used them as bait for booby traps Today it is still desired by collectors both for its unique design and for its connection to the history of Nazi Germany and Luger The Story of the World s Most Famous Handgun tells how it came to be

Motion Picture Story Magazine ,1923 **On Target** Noah S. Schwartz,2022-08-31 The National Rifle Association NRA is an important actor in the American gun debate While popular explanations for the group's influence often focus on the NRA's lobbying and campaign donations it receives lesser attention for the mass mobilization efforts that make these political endeavours possible On Target explores why the NRA is so influential and how we can understand the group's impact on firearms policy in the United States The book looks at how the NRA both draws upon and shapes historical meta narratives regarding the role of firearms in America's national identity and how this is part of a larger effort to expand the community of gun owners Noah S Schwartz demonstrates how the NRA portrays a vision of the past through events such as its annual meeting communications such as American Rifleman magazine and NRA TV and points of contact including the National Firearms Museum Based on fieldwork in Indiana and Virginia including participant observation at NRA events and firearm safety classes thematic analysis of audio visual material and interviews with NRA executives and members On Target sheds light on the ways in which the NRA tells stories to build and mobilize a politically motivated network of gun owners

Poor's ,1929 **The Rhetorical Short Story** William M. Purcell,2009-10-01 In The Rhetorical Short Story Purcell examines over ninety short stories as rhetorical artifacts of nearly a century of American history The words of over seventy five authors present a pastiche of American voices from the early days of the Great War to the ongoing conflict in Iraq and Afghanistan Each of the stories features a type of rhetorical depiction that enables its audience to connect vicariously with the experience presented by the author This account sees the transformation of the American perspective from an insular one which emphasizes the purpose driven actions of strong individual agents to ones in which individuals are caught up in the inevitable consequences of an all determining stream of events
