Lutherans And The Challenge Of Religious Pluralism:

Lutherans and the Challenge of Religious Pluralism Frank W. Klos, C. Lynn Nakamura, Daniel F. Martensen, 1990

Mission Shaped by Promise Jukka A. Kaariainen, 2012-10-03 Utilizing resources from Martin Luther and the Lutheran tradition this study offers an understanding of the gospel as promise as key to addressing the challenge of relating the mission of God to a generous constructive approach toward the religious other In its construction of a Lutheran missiology it retrieves and reappropriates four resources from the Lutheran tradition the gospel as promise the law gospel distinction a theology of grace as promise of mercy fulfilled and a theology of the cross utilizing the hiddenness of God The law of God as accusing yet webbing humanity to its Creator the gospel as the comforting promise of mercy and the hiddenness of God as mystifying form the overarching framework within which the Lutheran missiology presented here seeks to engage the religious other by dialectically relating gospel proclamation and dialogue Such a view of mission shaped by promise offers the paradox of God being both revealed and hidden in the cross as a distinctive contribution to an interreligious dialogue centered on the ambiguity and hiddenness of God America and the Challenges of Religious Diversity Robert Wuthnow, 2011-07-01

Muslims Hindus Buddhists and adherents of other non Western religions have become a significant presence in the United States in recent years Yet many Americans continue to regard the United States as a Christian society How are we adapting to the new diversity Do we casually announce that we respect the faiths of non Christians without understanding much about those faiths Are we willing to do the hard work required to achieve genuine religious pluralism Award winning author Robert Wuthnow tackles these and other difficult questions surrounding religious diversity and does so with his characteristic rigor and style *America and the Challenges of Religious Diversity* looks not only at how we have adapted to diversity in the past but at the ways rank and file Americans clergy and other community leaders are responding today Drawing from a new national survey and hundreds of in depth qualitative interviews this book is the first systematic effort to assess how well the nation is meeting the current challenges of religious and cultural diversity The results Wuthnow argues are both encouraging and sobering encouraging because most Americans do recognize the right of diverse groups to worship freely but sobering because few Americans have bothered to learn much about religions other than their own or to engage in constructive interreligious dialogue Wuthnow contends that responses to religious diversity are fundamentally deeper than polite discussions about civil liberties and tolerance would suggest Rather he writes religious diversity strikes us at the very core of our personal and national theologies Only by understanding this important dimension of our culture will we be able to move toward a more reflective approach to religious pluralism Historical Dictionary of Lutheranism Günther Gassmann, Mark W. Oldenburg, 2011-10-10 The Reformation of the 16th century was a complex and multifaceted political social cultural and religious process Most historians agree however that in the framework of this process it was the religious and theological efforts to reform and renew the late medieval church decadent and irrelevant in many ways that were the initiating forces

that set a broad historical movement in motion Among these reforming religious and theological forces the Lutheran reform movement was the most important and influential one It was the historical impact of the theological genius of the Wittenberg professor Martin Luther 1483 1546 that profoundly changed and shaped the face of Europe and beyond Today Lutheranism has become a worldwide communion of churches that stretches from Germany to Siberia Papua New Guinea Madagascar and Surinam The second edition of the Historical Dictionary of Lutheranism presents information on major theological issues historical developments of Lutheranism worldwide Lutheran ecumenical and missionary involvement and activities worship and liturgy spirituality social ethics inter religious and Jewish relations Lutheranism and the arts theology and important representatives of Lutheranism This is done through a detailed chronology an introductory essay an appendix of Lutheran Churches a bibliography and hundreds of cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about Lutheranism

Lutheran Identity and Political Theology
Carl-Henric Grenholm, Goran Gunner, 2015-03-26 Lutheran tradition has in various ways influenced attitudes to work the economy the state education and health care One reason that Lutheran theology has been interpreted in various ways is that it is always influenced by surrounding social and cultural contexts In a society where the church has lost a great deal of its cultural impact and authority and where there is a plurality of religious convictions the question of Lutheran identity has never been more urgent However this question is also raised in the Global South where Lutheran churches need to find their identity in a relationship with several other religions Here this relationship is developed from a minority perspective Is it possible to develop a Lutheran political theology that gives adequate contributions to issues concerning social and economic justice What is the role of women in church and society around the world Is it possible to interpret Lutheran theology in such a way that it includes liberating perspectives These are some of the questions and issues discussed in this book

Jacques Dupuis Faces the Inquisition William R. Burrows, 2012-09-18 The critique of Jacques Dupuis SJ by the Vatican's Congregation for the Doctrine of the Faith at the direction of Joseph Ratzinger was met by almost universal dismay by Christian theologians and participants in interfaith dialogue throughout the world This book is comprised of both responses by Father Dupuis to the Vatican's criticisms which he was forbidden to publish during his lifetime and introductory and background material by his friend and editor Bill Burrows who draws on their many conversations to draw out the deeper implications of Dupuis work and the background to the Vatican investigations and criticisms In addition to laying bare procedural problems in the CDF's process Dupuis shows that both the Vatican document *Dominus Iesus* and the Notification about problems in his work rest on dangerous misunderstandings of Scripture and church teaching that reverse the gains in interfaith understanding and ecumenism that have occurred over the past fifty years

Religious Diversity--What's the Problem? Rita M. Gross, 2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one

can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture

Lutheran Salvationists? Gudrun Maria Lydholm, 2017-03-13 The idea of a state religion is seldom connected to religious freedom and liberal modern and democratic states However such a situation existed in Norway until 2012 when the Lutheran Church was the state church of Norway A large majority of the population belonged to the church even though the percentage in 2013 had fallen to well over seventy five The relationship between the church and minority religious movements demanded adaptation and compromises from the minority churches The Salvation Army's enculturation and accommodation during its 128 year history in Norway illustrates such a situation The book examines how The Salvation Army accommodated itself both doctrinally as well as practically to the situation of a dominant state church The study reveals such a close affiliation of Salvationists to the Norwegian Church as a state institution that it raises the question of whether a concept of civil religion was implicitly present in Salvationists' view of the state church and their own adherence to the church This situation also raises the question of what constitutes a real church The book indicates the tension between Lutheran and Salvationist ecclesiology as well as the influence from the Lutheran Church
